EASY TO CLEAN

MULTI-PURPOSE ZONE

SLIDE CONTROL

AUTOMATIC SAFETY

Easy to Clean

With Samsung's easy-to-clean ceramic glass cooking surface big spills are no trouble. With the smooth, ergonomic design, cleaning up spills and grease splatters is as easy as a quick wipe with a soft cloth. And because the ceramic surface doesn't get as hot, this helps to reduce instances of spills baking on. So you can spend more time cleaning your plate than your cooktop.

Multi-Purpose Zone

Samsung's cooktops feature Multi-Purpose zones that easily accommodate different shaped pots or casserole dishes. Variety is the spice of life, and the versatile Multi-Purpose Zone helps you keep your world delicious.

Slide Control

Enhancing the clean design of smart touch control with the ease of use the slider control delivers a great combination of usability and styling

Automatic Safety

Let Samsung ease your mind with our safety shut-off to ensure our appliances go off when you want them to and residual heat indicators so you know when the product is safe to touch. We also offer a child-safety lock to make sure little hands don't get themselves into trouble.
