SIGNATURE FEATURES

PRECISE TOUCH CONTROL WITH A PREMIUM LOOK

- Convenient location makes it easy to access cooking options.
- Glass control panel provides a seamless, integrated design.
- Design elements match (but are not limited to) the slide-in electric ranges.

PRO-CLEAN FILTER

- Easy-access filter.
- Commercial-grade premium filter captures 56% more oil than traditional OTR filters.¹
- Cook without worrying about smoke and odours.
- Easily remove and clean your filter with one touch.
- Regular cleaning is necessary to maintain optimal performance.

¹ Compared to a Samsung ME16H702 filter.

SCRATCH-RESISTANT AND EASY TO CLEAN

- Durable ceramic enamel interior provides a polished surface that's easy to maintain.
- Effortlessly remove grease or oil from surfaces.
- Protects against scratches that occur from daily use.

OVER-THE-RANGE MICROWAVE

DIMENSIONS

INSTALLING YOUR MOCROWAVE

This microwave oven is designed for adaptation to the following three types of ventilation:

- A. Outside Top Exhaust (Vertical Duct)
- B. Recirculating (Non-Vented Ductless)
- C. Outside Back Exhaust (Horizontal Duct)

- The space between the cabinets must be 30" wide and free of obstructions.
- This microwave oven is for installation over ranges up to 36" wide.
- The microwave must be level. Use a level to make sure the cabinet bottom is level. If the cabinets have a front overhang only, with no back or side frame, install the mounting plate down the same distance as the front overhang depth. This will keep the microwave level.

For easier installation and personal safety, we recommend that two people install this microwave oven.

IMPORTANT: Do not grip or use handle during installation.

NOTE: If your cabinet is metal, use the nylon grommet around the power cord hole to prevent cutting of the cord.

NOTE: We recommend using filler blocks if the cabinet front hangs below the cabinet bottom shelf.

IMPORTANT: If filler blocks are not used, case damage may occur from over-tightening screws.

NOTE: When mounting the microwave oven, thread power cord through hole in bottom of top cabinet. Do not pinch cord or lift oven by pulling cord.

Capacity

2.1 cu. ft.

Power Output

950 W

Power Consumption

1500 W / 14.5 A

Power Source

120 V / 60Hz

Vent Fan

430 CFM

Warranty

One (1) Year All Parts and Labour
Ten (10) Years Parts on Magnetron
