SAMSUNG

Discover Samsung. Inspire the world, create your future.

Did you know?

Imagine working for a company that is passionate about its people...

At the heart of Samsung's DNA is the **pursuit of excellence** and bringing **innovation to everyone**, faster than anyone and we realise it's our people who really make this possible. We are relentless in our **ambition**, offering people opportunities and ways to express themselves. We believe **anything is possible** and are continuously looking for **dynamic people** to join us and share our vision.

Become a part of Samsung and realise your true potential

We do so much more, visit samsungvillage.com to see for yourself.

Samsung is ranked 7th in the Interbrand 2015 **Best Global Brand** Report, meaning it is the world's 7th most valuable brand.

In 2016 Samsung launched the official **BBC micro:bit** app which gives young people the ability to code on the go from their mobile devices.

Samsung loves sport. We are proud sponsors of the **England rugby union** team. We have been proud sponsors of the **Olympic Games** since 1997 and we will also sponsor the 2018 **Winter Olympics in PyeongChang, South Korea**.

Samsung has partnered with **The Prince's Trust** in order to establish Digital Classrooms around the country, giving young people the opportunity to be **inspired by technology**.

Samsung employees want to make a difference. In 2016 Samsung Graduates and Placement Students raised over **£10,000** taking part in various **fundraising activities** for charity.

Do you have what it takes to be one of the team?

Driving for results

At the heart of our best people is a burning desire to overcome obstacles and deliver great results.

Creative intelligence

Your drive is directed in the most effective way. Our people use different approaches, foster alternative ways of thinking and develop innovative breakthroughs to create engaging and stimulating work experiences.

Navigating organisations

We understand our cultural nuances and how to navigate through them gaining an insight of how organisations respond under differing circumstances.

Building the best teams

We understand, sustain and energise others in everything we do. We develop our skills and in turn the capability of Samsung.

Inspiring others

Our people have the self confidence to communicate with conviction at the highest levels. We utilise our strength of character to inspire trust in others.

“

We're looking for people who not only generate new ideas but also have a track record of successfully implementing them.

We promise that your role will be both interesting and demanding and that you will be given learning opportunities and support from the business to hone your potential.

Richard Pibworth,

Vice President, Human Resources - Europe

”

If you're a penultimate year student looking for a year in industry, take a look at what Samsung has to offer

The package

Our placement opportunities will provide you with excellent development opportunities and work experience. It also comes with some great benefits, including:

- a competitive salary
- performance-related bi-annual bonuses
- a fantastic pension scheme
- £50 a month towards a range of health, money and lifestyle benefits
- 25 days holiday
- volunteering opportunities
- pound for pound matching on any charity fundraising activity

Location, location, location

Our placement opportunities are based at our offices in Chertsey, Surrey.

Your development

People development is super important to us here at Samsung. Your learning will kick start in your very first week with us, during which you'll find out about Samsung and our cultural heritage in an in-depth 'Welcome to Samsung' induction. During the rest of your 12 months with us, the way in which you learn will mostly be through experience, or what we like to call 'on the job learning' and for this you'll have the support of both your manager and your team.

 **#samsungemergingtalent**

“

We're looking for highly motivated students, with a passion for what technology can contribute to the world. We want candidates who will thrive in Samsung's fast-paced environment and assist in the development of our business.

Tess Smillie,
Vice President, Human Resources – UK

”

- Huge employee discounts on amazing Samsung products

My Money

- Superb gadget insurance
- Nutmeg ISA
- Great personal accident insurance
- Amazing pension: Samsung will contribute double what you put in

We have opportunities in the following teams:

Sustainability & CSR

Our Sustainability & CSR teams work together to improve society by putting our wide product and solution range to good use in partnership with numerous organisations. Our Sustainability & CSR placement students help with the implementation of sustainable business strategies that are affected by changes in environmental laws and policies. This role will require you to work across the business with a variety of product teams.

Technical

The Technical Product team manages the engineering and software aspects of all product launches within our IT & Mobile (IM) division. As a Technical Product placement student you will play a role in the launch of all IM products in the UK. You'll be involved in the production of "How To" videos that accompany many of our launches. You will be part of the team that ensures operators and networks approve all future Samsung IM products and features in the UK.

Human Resources

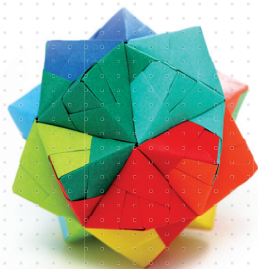

We recognise that people are our core asset and are central to the success of Samsung. Our HR placement opportunities offer true exposure across areas within Talent & Development, Reward, Recruitment and Generalist Business Partnering. These placements offer a real chance to gain invaluable insight into HR.

Marketing

Marketing is at the very heart of our business and plays a key role in ensuring our customers can recognise and love our products. At Samsung we have numerous opportunities that will allow you to work on the projects that determine how we portray our diverse product range. During your rotations, you'll experience the different aspects of the marketing mix rotating around Digital, Channel, B2B and Brand.

Finance Operations

Finance Operations is integral to our business. Our placement opportunities offer exposure to the challenging world of corporate finance. The roles vary in responsibility from analytical reviews of reward- and performance-based pay, to driving business critical improvements and compliance. Our Finance Operations roles require efficiency and accuracy, and to be considered for a placement you must be working towards a Maths, Economics or Accounting related degree.

Business Development

Our Business Development placements cover a range of Samsung products and services, tailored to our business and consumer markets. You will have consistent opportunities to take part in strategic planning and marketing, which is vital to the success of our business.

Supply Chain Management & Business Innovation

Our Supply Chain Management (SCM) and Business Innovation team is key to ensuring our customers receive the correct products, in the correct quantity, at the correct time. Without this team our products simply wouldn't reach our customers. As a placement student you'll get a real insight into what goes on behind the scenes and the journey our products go on from factory to customer.

Network

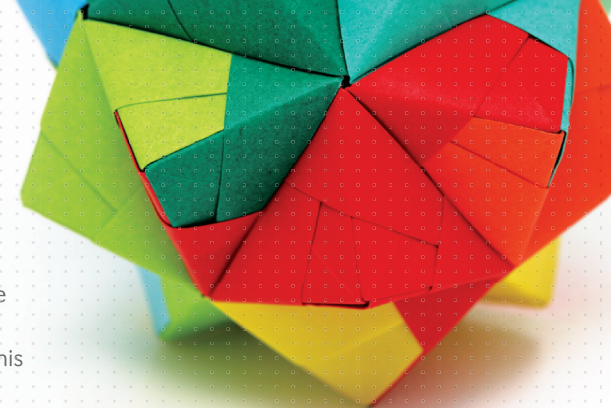

The Samsung Network team organises the infrastructure for our B2B customers, who provide mobile networks to consumers. This role will have you assisting our technical experts and brilliant engineers as they manage projects to help our customers deliver some of the fastest mobile networks in the UK.

Service Operations

At Samsung our Service Operations team provides support to a variety of business areas. You could be working on projects involving business development, operations support and customer experience. As a placement student you will help to deliver projects that affect both our internal operations and our customers.

Facilities

Working closely with the Facilities team you will develop a real understanding of the whole business. You'll gain insight into all the areas of soft service management, ensuring we are getting the best deals from our suppliers. As a Facilities placement student, you will be a part of and manage projects from beginning to end, assisting with our contractors and our premises such as maintenance, security, catering, reception and health and safety.

Hear it from them

“

This past year at Samsung has taught me so much about areas of business I didn't even know existed, let alone thought I'd enjoy. I've had the flexibility to get involved in projects I thought sounded interesting and enjoyable. The projects covered areas of sales and marketing I wanted to learn more about. My team has been so supportive and encouraging from start to finish, rewarding me for my hard work and giving me opportunities to grow. I can honestly say that I feel much more confident about my studies ahead of going back to university next year. With such great work experience behind me, I know I will be ready to go out into the world of work when I graduate.

Kira,
Marketing

”

“

The time I have spent at Samsung has been invaluable. The opportunity to work in such a fast-paced organisation has been amazing. I was given great responsibility from day one and the opportunity to have a leading role across a number of exciting projects and events. I am immensely proud to have been able to spend a year working for such an incredible and innovative organisation.

Harry, Human Resources

”

“

My year with Samsung has been a fantastic experience. I have learnt lots and met some great people along the way!

Tom, Human Resources

”

“

Samsung has been a great journey! I have been pushed, challenged, questioned and rewarded. I started this year feeling like an Intern, but I am ending it knowing I am a professional.

Jason, Marketing

”

“

My time in the Technical Product team at Samsung has been invaluable and I have learnt many skills. From day one, I have been considered a vital part of the team and have been given lots of responsibility throughout the year. It has been challenging but very rewarding. Induction week was also great fun – meeting and getting to know the other placement students and graduates on the programme!

Lauren, Business Development

”

“

My time at Samsung has shown me how fast-paced and challenging business can be, but along with that I have learnt invaluable skills from professionalism to analysing data. Finance Operations has shown me that you have to be dynamic and be able to adjust your way of thinking to the different tasks you have been given. Working within this company has given so many opportunities to develop my career in the way I want.

Alex, Finance

”

“

My year at Samsung has provided me with a totally unique start to my career. I have made some fantastic friends, gained inspiring mentors and manoeuvred some very steep learning curves. The pace of the organisation and its ever-changing nature has left me with some invaluable insights and provided me with a year of experience that I will never forget.

Tessa, Marketing

”

Hints and tips

Samsung wants to support you throughout the entire Placement Scheme application process. Here's some advice on how you can be successful...

Step 1: CV and cover letter

You will need to email your CV and tailored cover letter to: placementsuk@samsung.com with the business area you'd like to apply for in the subject of the email.

- Ensure your CV is up to date and grammatically correct.
- Know your Samsung. Who are we and what do we do?
- Talk about yourself; what can you bring to the table and why do you want to work with us?

Step 2: Online assessment

Time to complete our online aptitude tests. These will take 40 minutes to complete and will test your logical, verbal and numerical abilities.

- Don't rush and use all the time you have allocated.
- Read every question carefully before answering.
- Make sure you are somewhere you can concentrate, without distractions.

Step 3: Virtual interview

Record and submit your virtual interview. For this step you will be asked a few competency based questions and you'll be given a short time frame in which to answer them. It's very straightforward and gives us the chance to find out more about you.

- Keep to the point of the questions – try not to go off topic.
- Use examples to back up your answers.
- Make use of the time allocation and use every second.

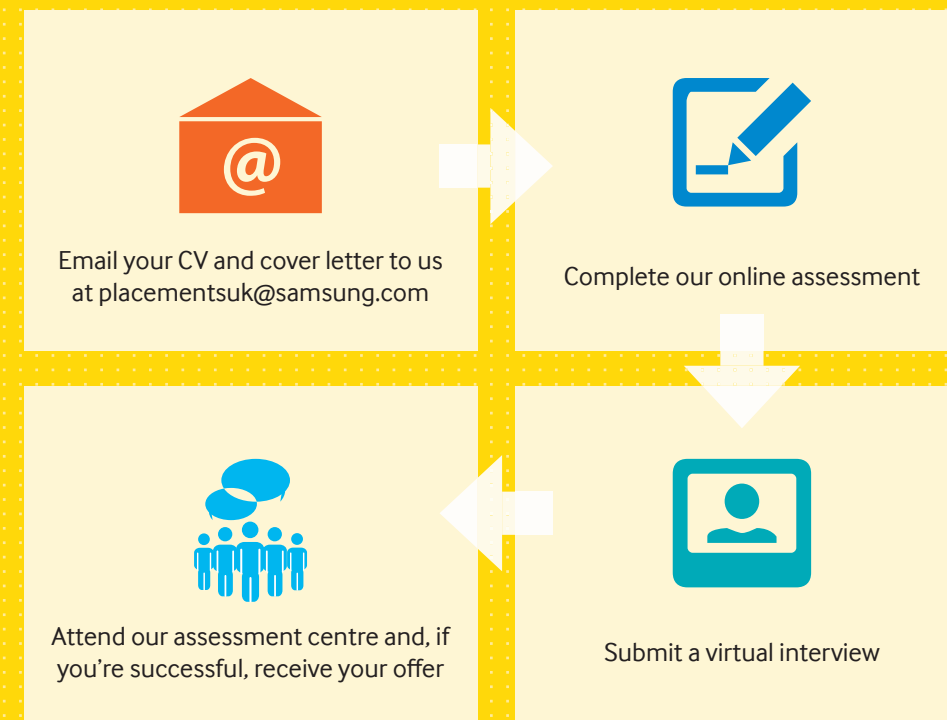

Step 4: Assessment centres

Attend one of our assessment centres. This is a one-day event and will involve group and individual tasks as well as an interview. The day is not as daunting as you may think and is a great opportunity for you to learn more about Samsung.

- Engage with the tasks and don't hold back. We want to hear your opinions.
- Use the time to question us. You need to discover if we're right for you as much as we need to find out if you're right for us. Enjoy the day. Talk to others there as it's a great chance to meet new people and network.

For more details about the application process, including further guidance, please visit our website samsung.com/uk/emergingtalent

How to apply

Before you apply, why not take a look at our hints and tips page at samsung.com/uk/emergingtalent
We are now accepting applications. The closing date for all applications is 24 February 2017.
