Unboxing

When setting up your Air Purifier, the first step is to unbox it and remove all of the packaging:

Take off Tape

Remove all tape, plastic and film from the outside of the unit after you have removed it from the box

Remove Filter Cover

Importantly, unclip the cover, washable filter and unwrap the HEPA filter found on the inside

How To Setup WIFI

You are able to set up & control multiple Samsung Air Purifiers with the SmartThings App on your mobile device (Android & IOS), steps below:

1. Download SmartThings App

2. Open & Tap Add

3. Tap Device

4. Tap Air Purifier, then Samsung

5. Tap Start

6. From there – follow the on-screen instructions

This allows you to be able to turn on, monitor, adjust settings and self diagnose all of your machines in one helpful app!

If you are having trouble connecting to your Wi-Fi please speak to your IT department

How To Maintain

Maintenance is made super easy, you only need to clean them fortnightly, covering the below two areas:

Clean Filter

Remove and clean the Washable filters every fortnight or so. They unclick from the unit and can be washed or vacuumed. If washed, make sure they are dry when put back in.

Air Sensors

Wipe down the two sensors found on the side of the Air Purifier with a dry cloth
