Music Studio 5 HW-LS50H 2.0 ch Wifi Speaker (2026)

Music, as beautiful as it sounds

Top Features

Dot Design by Bouroullec

Where modern art and futuristic sound technology become one. The Dot is more than just a design element, it represents the origin of sound itself. Music expands effortlessly into space blending contemporary, timeless beauty with design innovation.

Wireless Music Streaming

Stream your favourite music wirelessly with Wi-Fi and Bluetooth connectivity. Enjoy high-quality audio from a range of music services, all from your compatible mobile device.¹

Powerful Sound

Designed to bring sound and art together, Samsung's Music Studio uses built-in woofer and front-firing tweeter units to help create rich, clear audio that fills your space with depth and character.²

Dolby Atmos

Experience audio that wraps around you. Dolby Atmos® can help transform your room into a more immersive, dynamic space where the sound feels bigger and more alive.³

¹ Third party music subscription may be required. Sound quality may vary depending on network connection and other factors. Content services are subject to change without notice. Feature is available on Apple devices supporting Apple AirPlay. Apple AirPlay requires iOS 11.4 or later. Internet connection required.

² Sound quality will vary depending on environmental characteristics (including ceiling) and source content.

³ Source content must be Dolby Atmos® for Dolby Atmos® playback. Sound quality will vary depending on environmental characteristics (including ceiling) and source content.
