Top Features

8K Quantum Matrix Technology Pro	Quantum Matrix Technology Pro uses our proprietary Quantum Mini LEDs to deliver incredible blacks, brilliant contrast and great detail expression in both dark and bright scenes.
8K AI Upscaling powered by NQ8 AI Gen2 Processor	Upscale your favourite content to enjoy it in even better depth and detail with Samsung's powerful AI processor. AI neural networks optimise resolution to deliver an up to 8K experience when viewing content. ¹
True Dolby Atmos	The QN800D includes a 70W 4.2.2 channel sound system featuring built-in up, down and side-firing speakers with True Dolby Atmos support to deliver larger-than-life audio experiences. ²
Infinity One Design	At just a 17.6mm profile, it delivers streamlined entertainment and can blend seamlessly into your space. This sleek and modern design is the perfect complement to virtually any room.

¹ Compared to previous Samsung Smart TV. Native 8K content availability is very limited. Picture quality of upscaled content will vary depending on the quality and resolution of source content.
² Source content must be Dolby Atmos® enabled for Dolby Atmos® playback. Samsung define 'True Dolby Atmos' as featuring an upwards-firing directional speaker for three dimensional sound.
