SAMSUNG

Finance

Samsung B2B Integrated Offering

Samsung for **Finance**

The finance sector is rapidly transforming, driven by evolving customer expectations, growing regulatory demands, and digital innovation.
To boost both efficiency and trust, financial entities are embracing smart solutions such as personalized services, AI-driven insights, integrated systems, and stronger security.

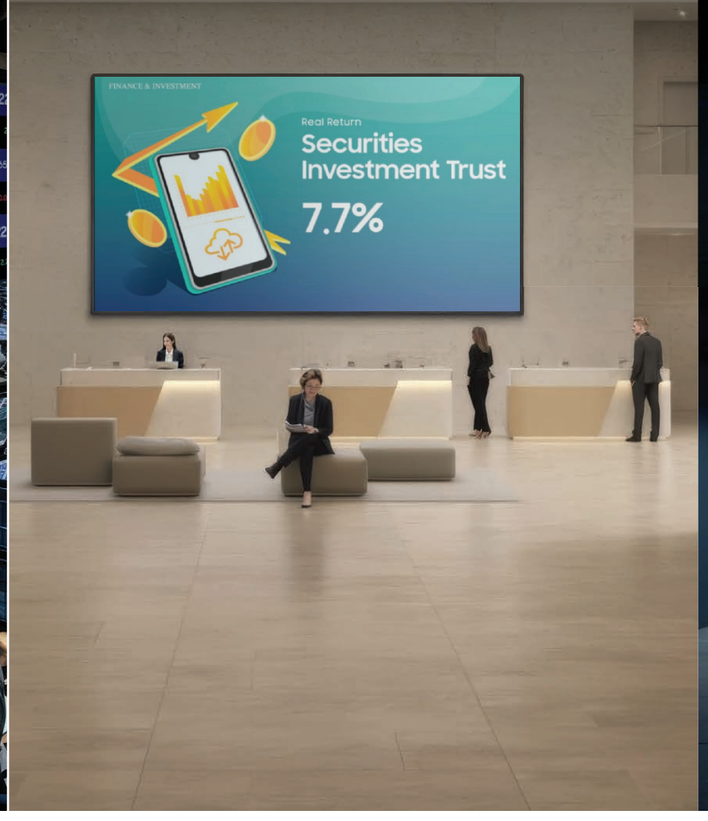

1 Trusted Productivity

In the finance industry, where vast amounts of information meet constant interaction, smart environmental management helps create a more secure and efficient workplace.

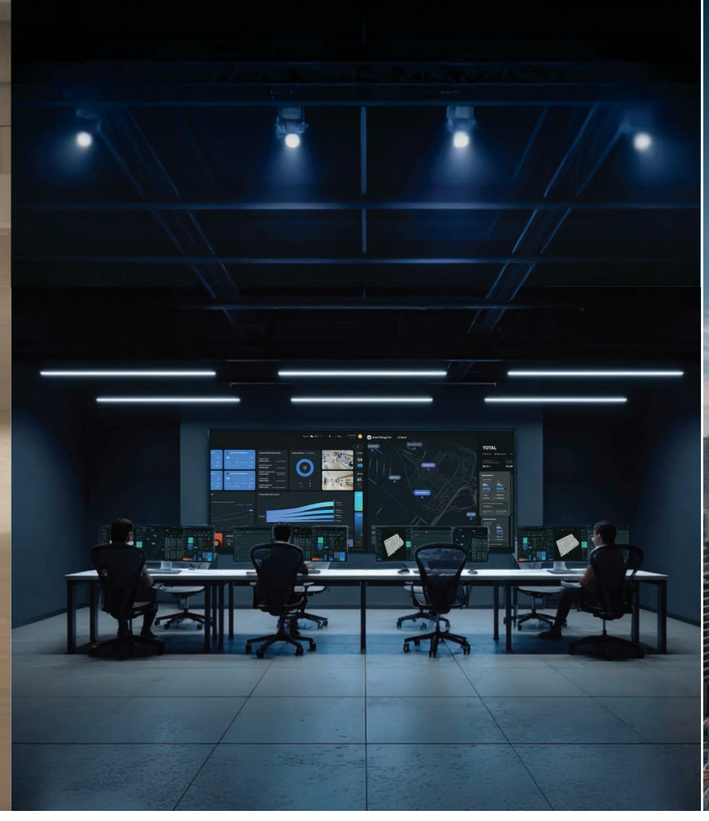

2 Seamless Service

Across branches, we provide tailored services with efficiency and care, delivering exceptional experiences that build lasting relationships and enhance customer satisfaction at every touchpoint.

3 Unified Control

Optimize operations with centralized, cost-efficient oversight and real-time risk management. Unified solutions ensure powerful and optimized everyday performance.

4 Future Finance

Finance drives progress across industries and society.
With innovation and efficiency, we're shaping a smarter, more responsible financial future.

Dedicated devices for maximized work efficiency

Monitor

Monitor optimized for intensive financial data work

- Designed for eye comfort and smooth performance for long data analysis sessions.
- Uninterrupted focus with up to 100 Hz refresh rate and ultra-slim, ergonomic design.[1)]
- Efficient multi-system integration with built-in USB hub and versatile ports.

IPS Panel | 100 Hz Refresh Rate | EyeSaver Mode | Ergonomic Design

Engineered for multi-screen, multi-device operations

- Picture-by-Picture and Picture-in-Picture features display relevant information from multiple devices simultaneously with built-in KVM[2)] switch.
- UHD displays deliver detailed images with visual excellence.

UHD Resolution | USB-C | Easy Setup Stand | Ergonomic Design

Galaxy Book

Boosted productivity with powerful and intuitive AI

- 40+ TOPS NPU[3)] delivers enhanced graphics and AI performance.
- AI-powered real-time translations breaking down language barriers.[4)]
- Streamlining workflow for maximized efficiency with auto search, summarization, and AI generation features.[5)]

Connectivity for a reliable working environment

- A wide array of HDMI, USB, and Thunderbolt 4 ports enable seamless monitor and peripheral connectivity.
- 4.8X faster Wi-Fi 7[6)] supports a low latency, stable network environment for fast data transfers and sharing.
- Seamlessly view and manage phone calls and messages on any Galaxy device for unified communication with customers.

* The images shown are for illustration purposes only and may vary according to real usage. * Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

[Monitor]

* This description is based on the Essential S4 and ViewFinity S8 models.

1) Injection rate and response time may vary depending on the performance of the input source. 2) KVM is an abbreviation for Keyboard, Video Monitor, and Mouse.

[Galaxy Book]

3) NPU performance varies by processor. Intel® Core™ Ultra 5 (Series 2) and Intel® Core™ Ultra 7 (Series 2) support 40 TOPS(Trillion Operations per Second) and 47 TOPS, respectively. The improved CPU and GPU performance figures are based on comparing the Galaxy Book5 Pro 40.6cm with the Intel® Core™ Ultra 7 (Series 2) 258V processor to the Galaxy Book4 Pro 40.6cm with the Intel® Core™ Ultra 7 (Series 1) 155H processor.

4) Live Translate feature requires network connection to receive call messages. It can translate without network connection once the call messages are received by the device. Samsung Account login required. Live Translate feature is only available on pre-installed Samsung Phone apps and some third-party apps. Service availability may vary by language or region. Certain languages may require language pack download. Accuracy of results is not guaranteed. Service availability may vary by language or region.

5) Transcription and Summary features for Transcript Assist require a network connection and Samsung Account login. Features for Transcript Assist only available on the pre-installed Samsung Voice Recorder app or files recorded using the pre-installed Samsung Phone app, Samsung Notes app or Samsung Interpreter app. Voice recording feature in the pre-installed Samsung Phone app may not be supported in some countries. Audio files must be under 3 hours in duration to be processed. Summarizing feature for Transcript Assist can be activated when a certain number of characters is met. Service availability may vary by language. Accuracy of results is not guaranteed.

6) Wi-Fi 7 network availability may vary by OS version, country, market, network provider and user environment. Requires optimal connection and a Wi-Fi 7 router. Wi-Fi 7 (supporting 320 MHz channels and 4096 QAM) is up to 4.8x faster when compared with Wi-Fi 6 and Wi-Fi 6E (supporting 80 MHz channels and 1024 QAM).

Efficient, seamless, and powerful security

Solution

Knox Suite

Continued security for fleet of devices

· Knox Platform for Enterprise guarantees top-level government-grade security.

Large enterprises Enterprise Plan

A bundle of eight advanced business tools that simplifies security, device management and troubleshooting at scale.

Small / medium business Essentials Plan

Support for streamlined enrollment and responsive troubleshooting.

Free for Galaxy device users Base Plan

Lightweight option to securely configure EMM/UEM[1)]-managed Galaxy devices.

	Enterprise	Essentials	Base
Knox Platform for Enterprise Government-grade security management features built for business.	●	●	●
Knox Mobile Enrollment* Easily enroll corporate-owned and employee-owned devices in bulk.	●	●	●
Knox Manage Powerful cross-platform EMM optimized for Samsung devices.	●	●	
Knox Remote Support Make troubleshooting easier by controlling devices from a PC.	●	●	
Knox E-FOTA Test firmware versions and deploy them to devices on a schedule.	●		
Knox Asset Intelligence Get actionable insights with in-depth data analytics.	●		
Knox Capture Transform Samsung devices into powerful barcode scanners.	●		
Knox Authentication Manager Unlock devices and auto-fill credentials with biometrics.	●		

* Advanced settings are only included in Knox Suite - Enterprise Plan.

Solution

Knox Configure

Remotely configure and tailor devices

· Customize detailed device settings to seamlessly configure purpose-fit devices for your organization.

· Reinforce your brand through device customization.

Solution

Knox Guard

Reduce and prevent security risks

· Built-in Samsung Knox blocks resets and rooting attempts and prevents firmware or binary edits.

* The images shown are for illustration purposes only and may vary according to real usage.

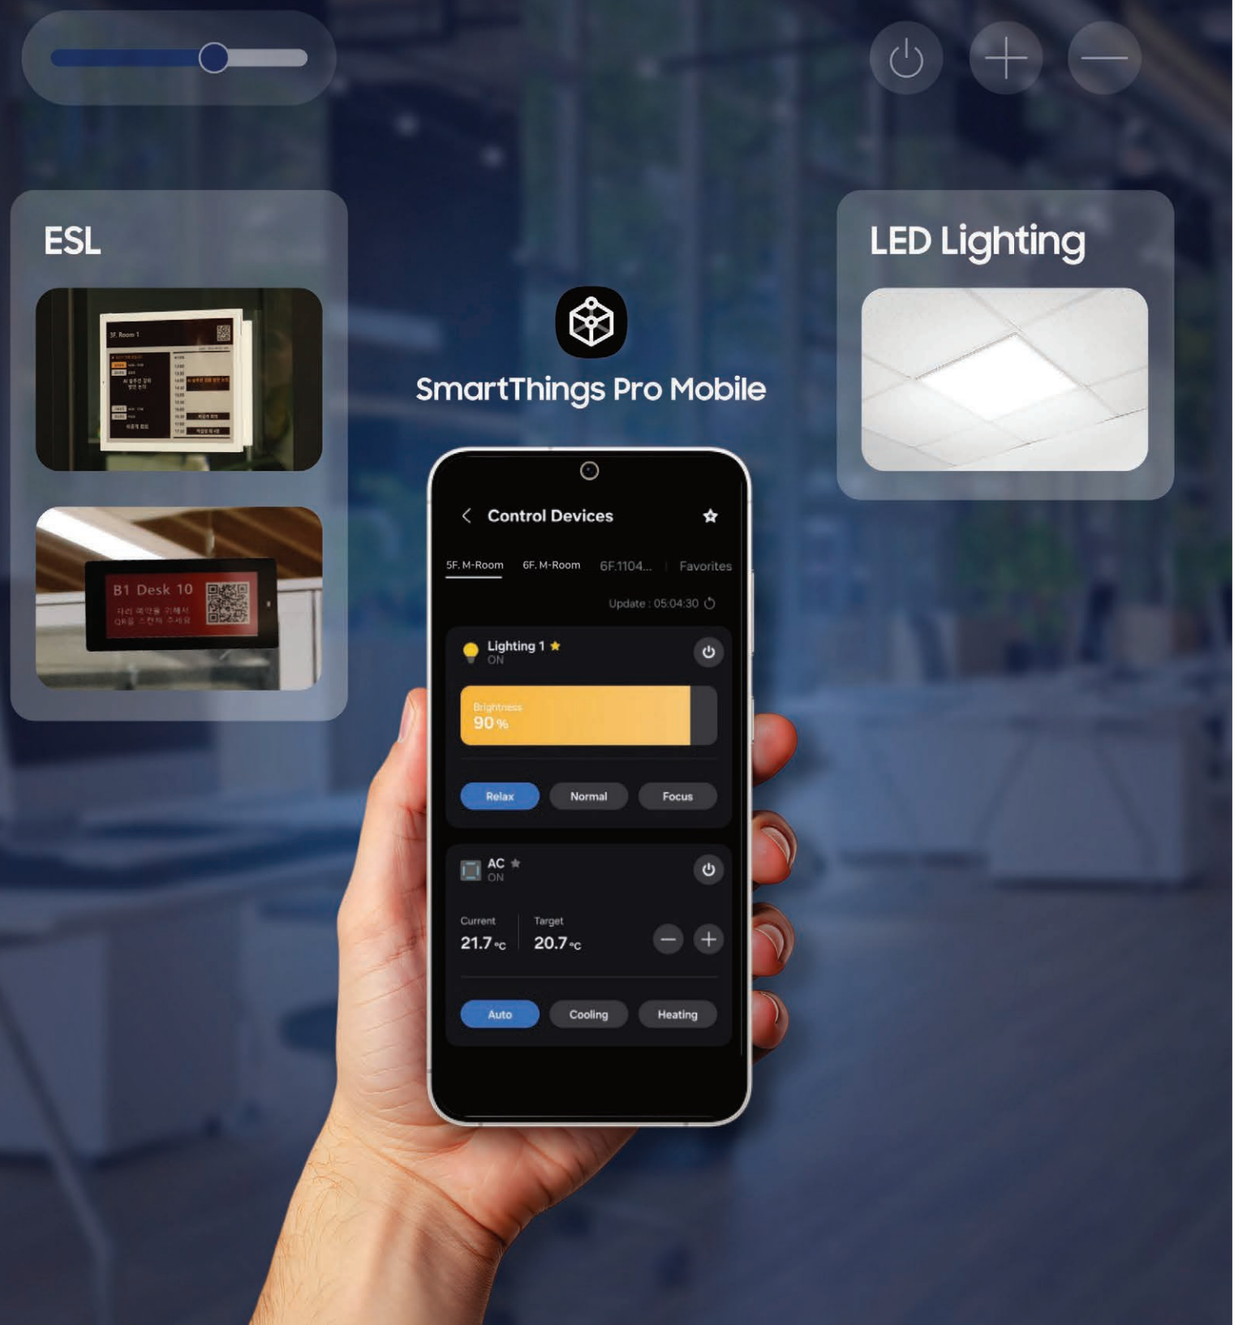

* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

* Samsung Knox has successfully met the rigorous security requirements set by Governments and major enterprises around the world, providing business users with a robust mobile security solution.

[Knox Suite]

[1)] EMM : Enterprise Mobility Management UEM : Unified Endpoint Management

Convenient, tailored workspace for enhanced work efficiency

Solution

SmartThings Pro Mobile

Tailored workspaces for increased productivity

- App service that enables space utilization and office environment IoT control.
- Enables efficient work settings, including meeting room booking, visitor access management, entry device configuration, and desk reservation.
- Adjusts the optimal work environment by controlling personal space settings.

ESL

Flexible space management with electronic label

- Flexible seat rotation and space management for open workspaces.
- Real-time updates via secure network for checking reservation changes and more.

Wireless LED Lighting

Personalized modes elevating workforce productivity

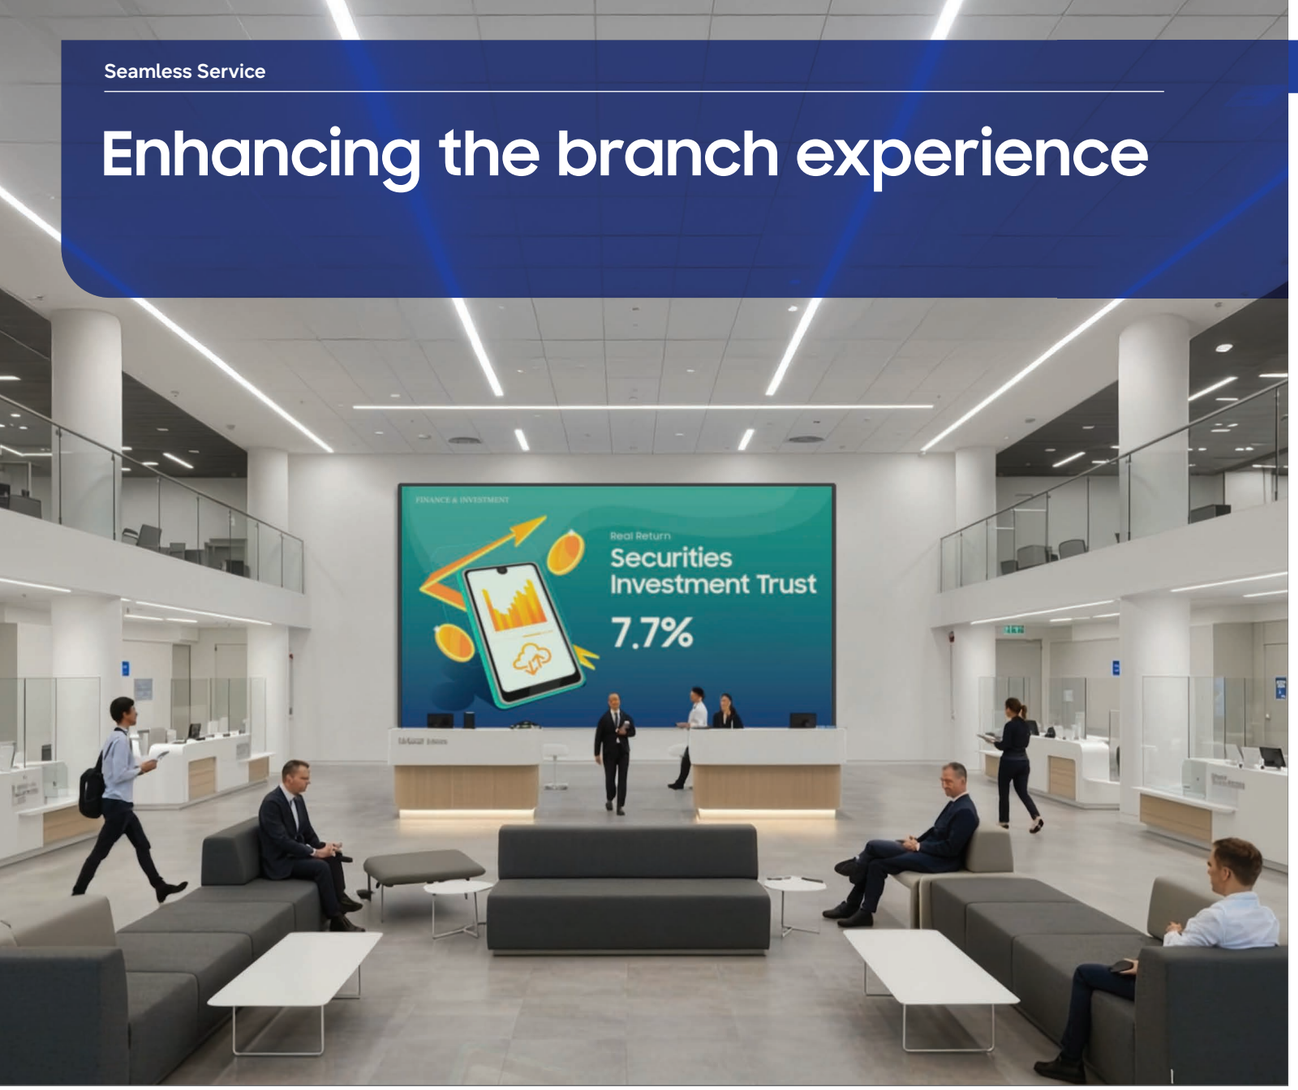

- Lower initial installation costs with wireless commercial lighting control.
- Save over 20% every year in electricity costs.[1)]

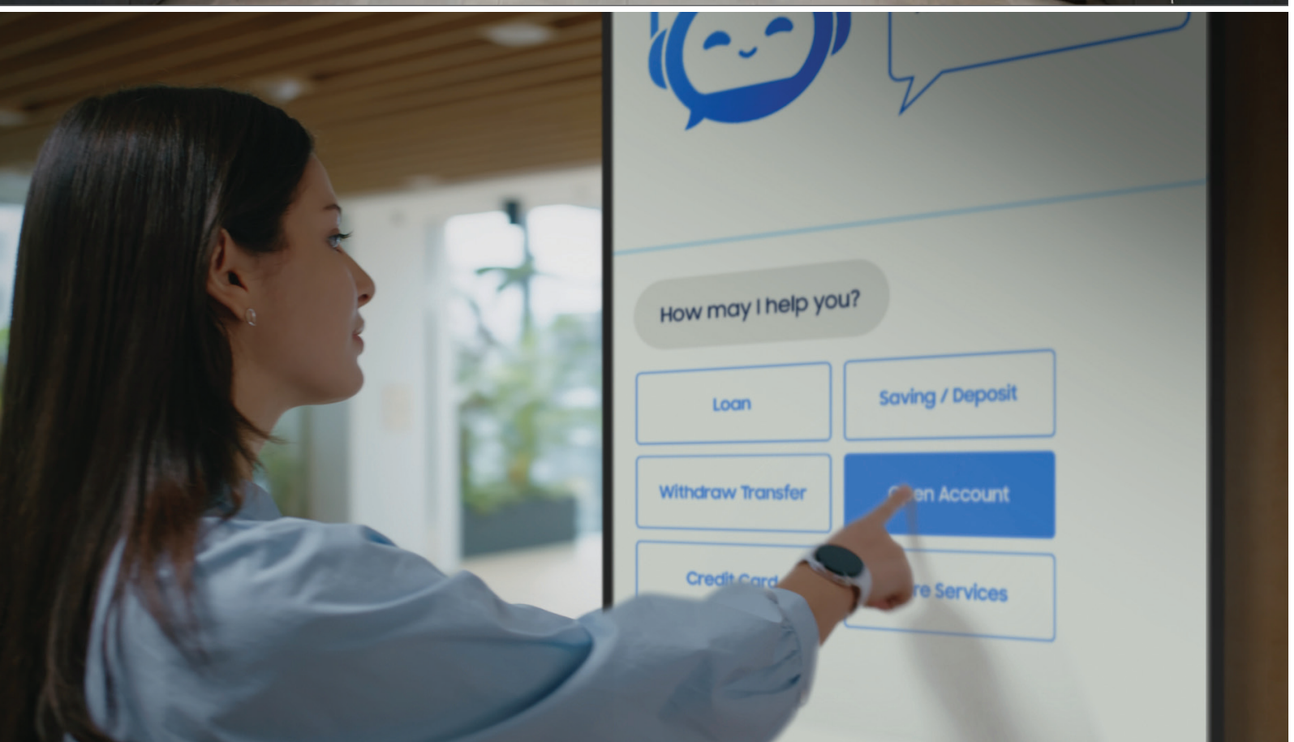

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

[Wireless LED Lighting]

[1)] Simulation (office space). Based on 14 hours of use per day/22 days per month, electricity rate of 140 won per kWh, 1,512 lighting fixtures.

Enhancing the branch experience

Indoor LED Signage

All-in-one display built for performance and flexibility

- Bright, captivating displays delivering vivid visuals in indoor settings.
- Slim, lightweight design enables fast and flexible installation.
- Multiple mounting options with front/rear service access for efficient operations.
- A variety of bespoke cabinet options, including Flat, L-type, Curved, and Fascia, allow for creating the ideal display for the space.

Flat | L-type | Curved | Fascia | All-in-One

Video Wall

Delivering an engaging branch experience with Video Wall

- Provides maximum impact for various spaces with boosted information delivery.
- Creates long-lasting impressions with crystal-clear content with wide viewing angles for clear details regardless of location.

Narrow Bezel | Slender Design | Viewing Angle

Non-Glare Panel, 24/7 Operation | Mobile Calibration | Industry-Standard Certified

Indoor LCD Signage

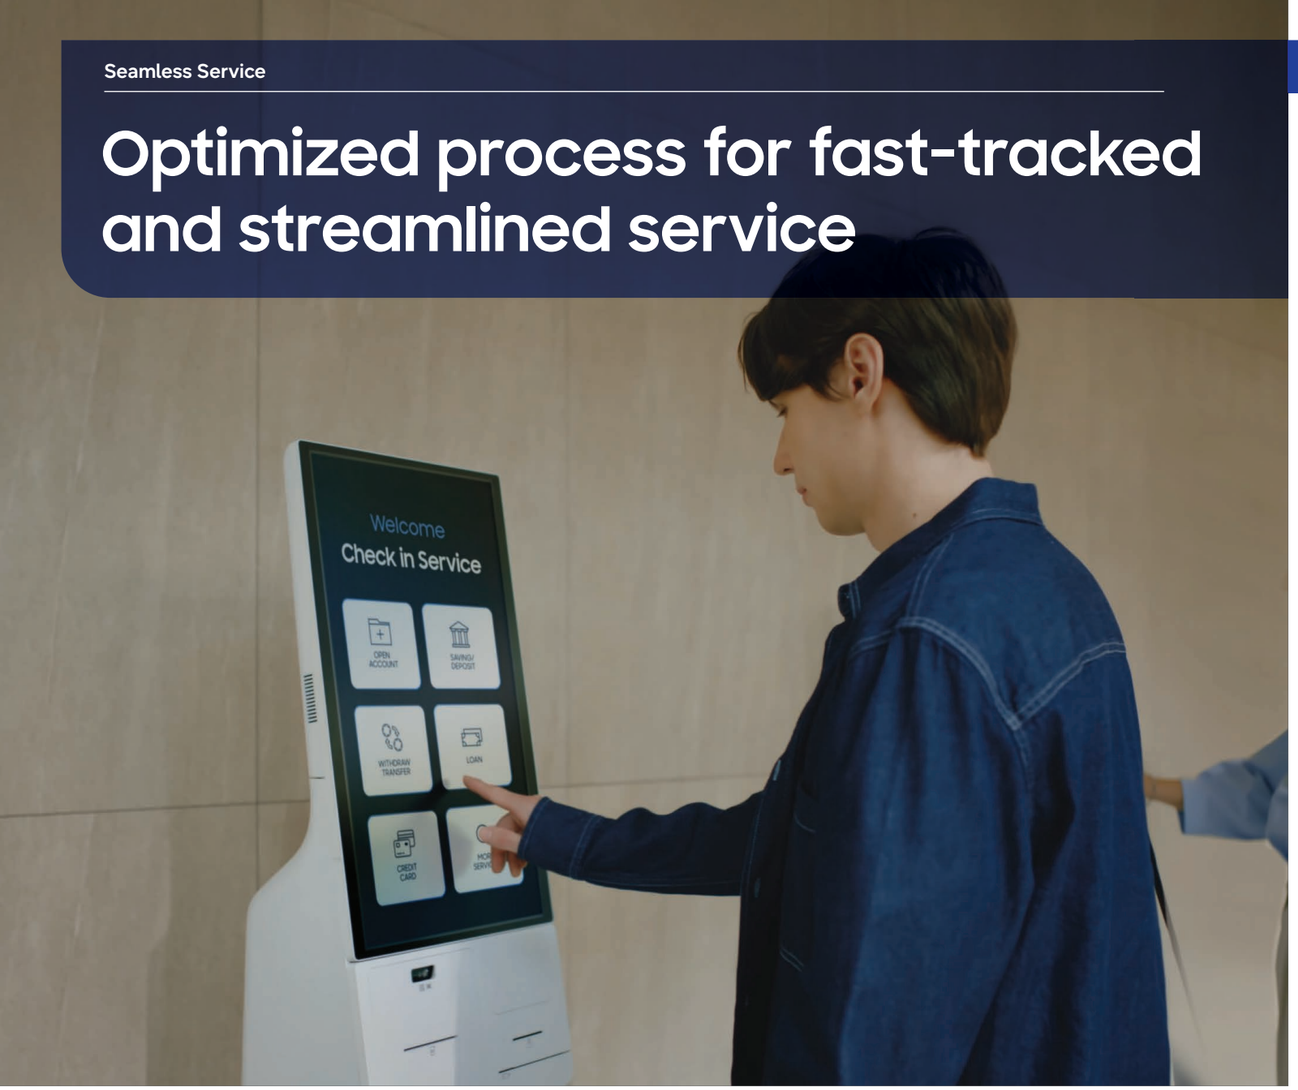

Optimizing the day-to-day, the in-branch visitor experiences

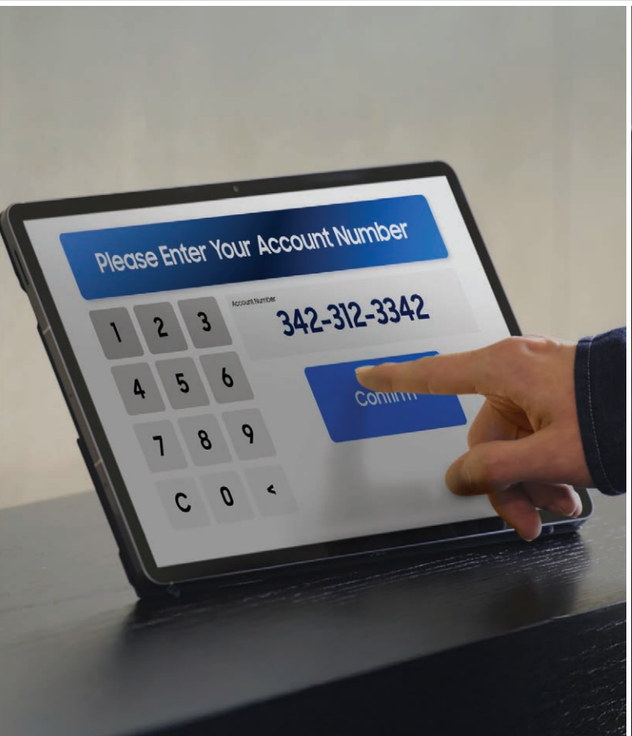

- Up to 10-point multi-touch enables fast and intuitive customer service, including branch directory and navigation assistance.
- Anti-glare feature minimizes reflections in any lighting conditions, enabling flexible installations.

Interactive Touch Panel | Anti-Glare | Home UI | Center IR

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage. * The images are generated using artificial intelligence.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

Optimized process for fast-tracked and streamlined service

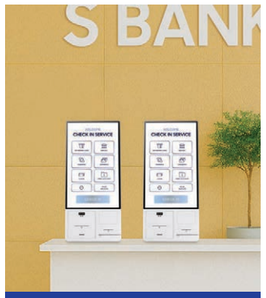

Kiosk

Smart kiosks for accelerated service

- Simplified kiosk function streamlining banking service with shorter queues.
- Compact design available in countertop, floor stand, and wall-mounting configurations for maximized accessibility.
- Samsung Knox ensures data protection and encryption.

Countertop

Stand

Wall mount

* Wall mount must be purchased separately.

Galaxy Tab

Fast, precise tailored services to meet customer needs

- Enables digital consent and signature captures for streamlined processing.
- Paperless workflow for quick and efficient customer consultations.

Seamless customer service enabled by Galaxy AI

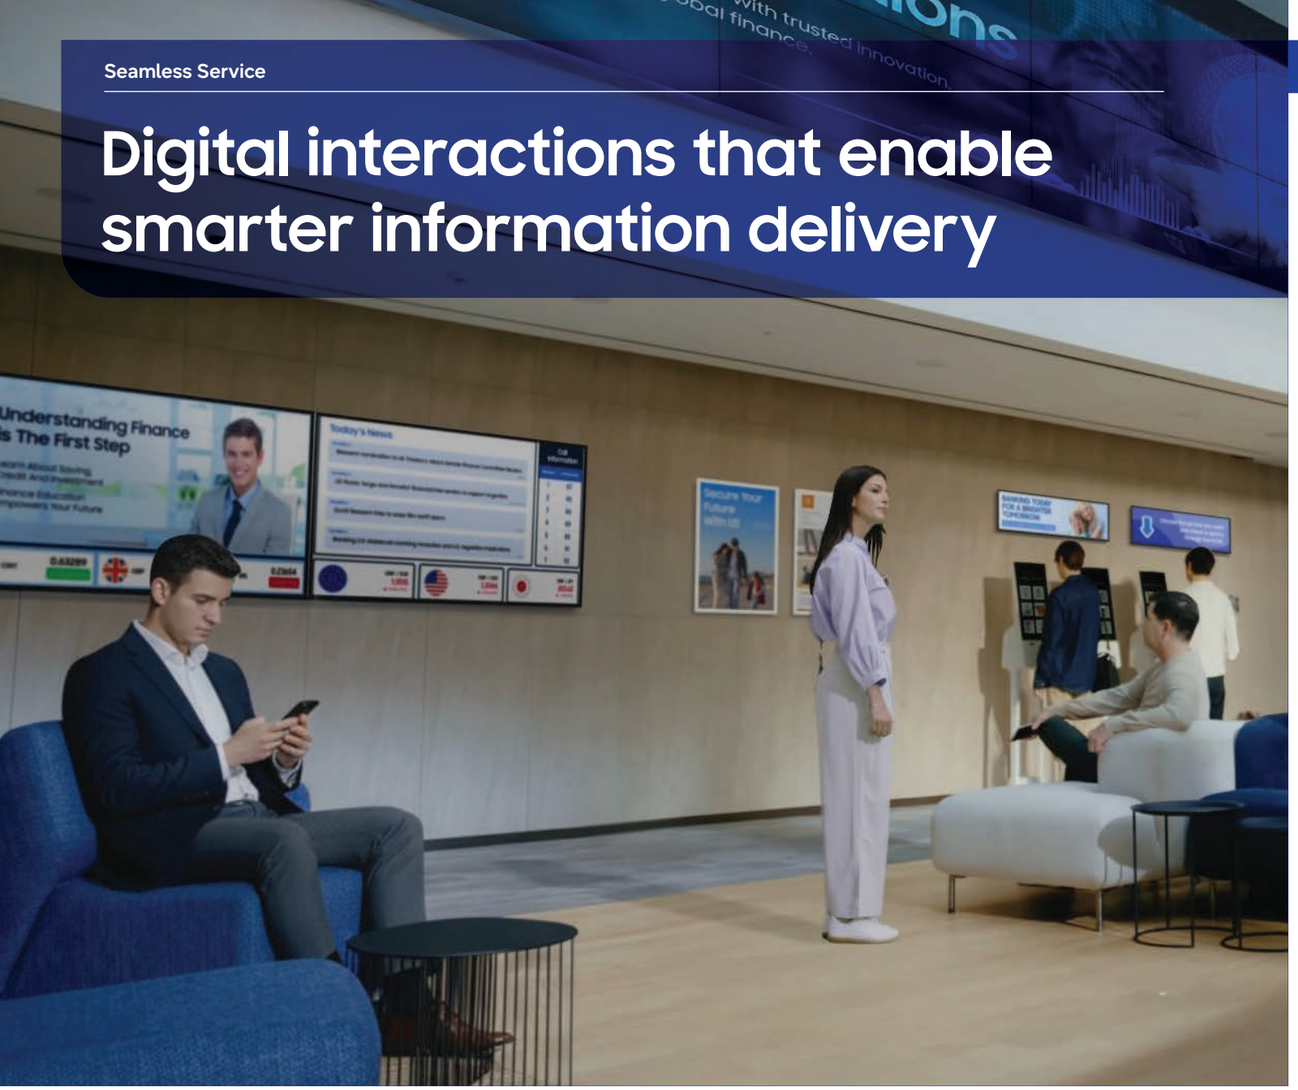

- Galaxy AI translation removes communication barriers between employees and customers.
- Summarizes consultations for enhanced work efficiency.

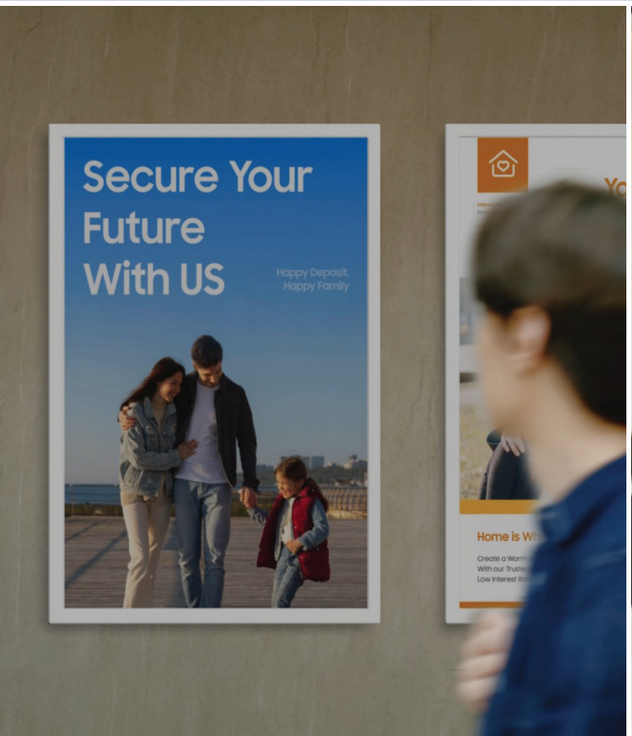

Faster one-stop form fill-outs of customer requests

- When customers pre-fill desired tasks, required guidance and forms are automatically provided in advance to consultants.
- Simplify complex forms and deliver data instantly to employees alongside additional required materials.
- Fast-responding pen-like writing experience for quick edits.

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

Digital interactions that enable smarter information delivery

E-Paper

Paper to E-Paper, flexibility meets efficiency

- Sleek, slim, and aesthetically pleasing design with a paper-thin depth of just 17.9mm.[1)]
- Embedded battery with USB Type-C support and a lightweight frame for effortless handling in indoor environments.
- High readability for providing detailed financial product information and notices.

Paper-thin Design | Embedded Battery | Color Imaging Algorithm[2)]

Stretched Display

Optimizing space and communication for banking clients

- 16:4.5 wide screen stretched display format to effectively display information in small, narrow spaces.
- Delivers vibrant, realistic images with an unparalleled visual experience with brightness levels of up to 700 nits.

16:4.5 Wide Screen | High Brightness | Samsung VXT

Business TV

BEFX-H

Trusted performance for comfortable branch experiences

- Combined with practical tools like the Business TV App and VXT, you can easily create, schedule, and manage promotional content.
- Lock your TV with a PIN code system (PlayLock), preventing unauthorized users or outsiders from tampering with the screen.

Samsung Business TV App | 4K Resolution | PlayLock | Samsung VXT[3)]

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

[E-Paper]

[1)] The EMDX series' packaging only includes rear holders (2) and hanging brackets (2). Other accessories for installation must be purchased separately.

[2)] EMDX series' color may gradually change from its initial state. This discoloration is a characteristic inherent to EPD technology.

[Business TV]

[3)] VXT must be purchased separately. Feature availability may vary by region. For BEFX-H series, only the VXT S Series plan is available.

Seamless Service

Premium lounges designed for exclusive VIP experiences

WindFree 4way Cassette

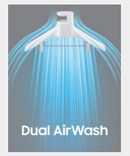

Maintaining a comfortable environment in banks

- Gentle cooling through thousands of micro-holes with no direct drafts.[1)]
- Provides fast and uniform cooling for large spaces with airflow extending up to 8 meters.
- Automatic lift-up front cover for easier filter replacement and hygienic maintenance.

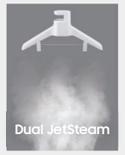

AirDresser

Providing premium clothing care for VIPs

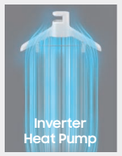

- Care for lots of clothes quickly and effectively with Dual AirWash.
- Enjoy optimal drying with a humidity-sensing technology.[2)]
- Enhanced control visibility and operation.

Air
Thoroughly dusting off both the inside and outside of clothes

Steam
Reliably reducing viruses and bacteria

Dry
Safely drying at a lower temperature

The Frame

Smart TVs for class and sophistication in premium spaces

- Displays curated art when idle, blending seamlessly into a framed art piece.
- Art Mode with 370+ free pieces available each year.[3)]
- Matte display minimizes glare for a gallery-like viewing experience.[4)]

UL Glare-Free certification
No more disruptions from reflected lights on the screen.

Pantone ArtfulColor validation
Provides rich color expression and even represents the matte texture of the canvas.

* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

[WindFree 4way Cassette]

[1)] The WindFree unit delivers an air current of less than 0.15 m/s in WindFreeTM mode. According to ASHRAE 55-2013 (American Society of Heating, Refrigerating and Air-Conditioning Engineers), airspeeds below 0.15 m/s are considered "still air".
- Operating conditions: Outdoor unit AC140BXAPHH3, Indoor unit AC140BN4PBH1 (Panel: PC4NUFK1NW). Standard cooling operation: Outdoor (35D DB / 24℃ WB), Indoor (27℃ DB / 19℃ WB).

[AirDresser]

[2)] Actual results may vary depending on individual use. A Wi-Fi connection and a Samsung account required to receive the updates

[The Frame]

[3)] Requires Wi-Fi and Samsung Account login. Needs subscription for full Art Store access. This includes 30 monthly artworks refreshed via Art Store Streams and over 70 free ambient pieces annually.
- Availability, schedule, and frequency of the 30 artworks delivered each month may vary by country or region.
- The number of free artwork delivered is subject to change without notice.

[4)] Based on testing standards set by UL, i.e., UGR<10 for reflection glare, UGR<22 for discomfort glare, UGR<34 for disability glare.

Ensure successful and lasting communications for VIPs

Interactive Display
WAF

Tailored engagement for delivering premium consultation

- Intuitive consultations with annotation button and up to 40-point multi-touch supporting direct writing on videos and documents.
- View more at a glance with split screen and multi window for side-by-side reviews.
- Personalize service with customizable Android home screens and widgets and screen mirroring support.

Android™ Powerful Performance Seamless multitasking with Octa-core CPU	EDLA Certification Certified by Google, customizable working environment	Annotation On Take notes anytime without interruptions
Split Note Mode Multiple employees use simultaneous handwriting	Quick Access Controls Intuitive controls, effortless operation	Device Management Solution Smart management, optimized operation

Interactive Display
WAFX-P

Unlimited learning possibilities with embedded AI

- Powered by Android 15 and a high-performance Octa-core CPU delivers intuitive experience for accessing essential apps and tools.
- Simply circle handwritten notes and tap the search icon to unlock web results, images, and more without typing.

Android™ 15 & Octa-core CPU[1)] Familiar UX, powerful performance	EDLA Certification Seamless access to Google services	All-in-One Video Call System Everything built-in for communication
AI Write & Search[2)] Write. Circle. Search smarter	Seamless writing with Annotation On[3)] Instant, precise writing experience for any moment	Device Management Solution Smart management, optimized operation

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.
* The images are generated using artificial intelligence.

[Interactive Display WAFX-P]

1) Comparison based on measured single-core performance of the CPU in WAFX-P compared to the chipset used in Samsung's previous WAD model. Actual performance may vary depending on usage conditions.

2) This feature is available when the handwritten text matches the system language setting. Accuracy may vary depending on handwriting style and language.

3) Support for up to 50 multi-touch points is available when using Windows via external input such as OPS or PC.

Integrated and intelligent IoT management

Solution

b.IoT

Building-wide system integration for operational efficiency

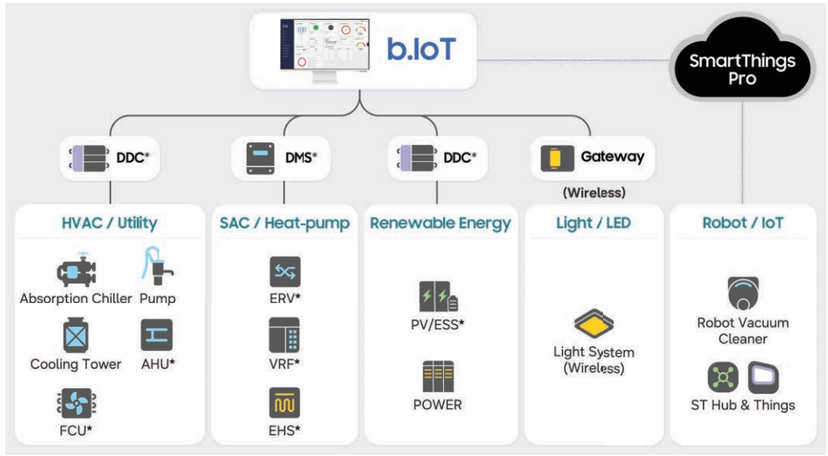

· Unified platform manages lighting, HVAC, energy and equipment.

· Enables comprehensive control and monitoring through integration with other building systems.

Energy efficiency through intelligent control system

· Maintains balanced comfort and energy efficiency amidst external influences.

· Integrated control of facilities such as air conditioning, mechanical equipment, lighting, and renewable energy.

* DDC : Direct Digital Controller * DMS : Data Management Server * AHU : Air Handling Unit * FCU : Fan Coil Unit
* ERV : Energy Recovery Ventilation * VRF : Variable Refrigerant Flow * EHS : Eco Heating System
* PV/ESS : Photovoltaic/Energy Storage System

Solution

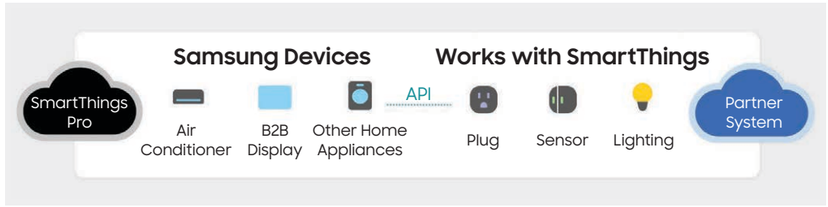

SmartThings Pro

Real-time operational data analysis made easy with an at-a-glance view of spaces and devices

· Visualize the current state of your space and device operations via 3D maps.

· Reduce building maintenance costs with intuitive multi-site space management and optimized energy usage.

· Energy saving algorithms reduce energy consumption by presence sensing.

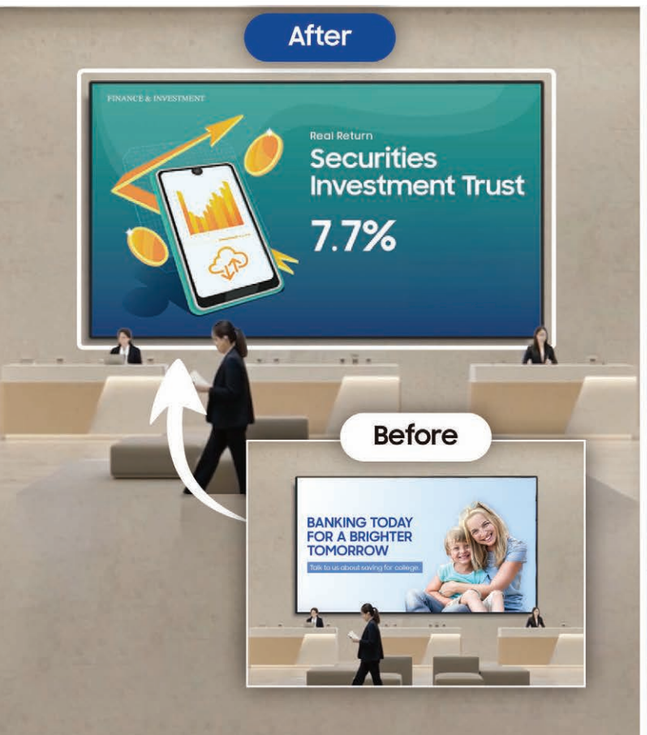

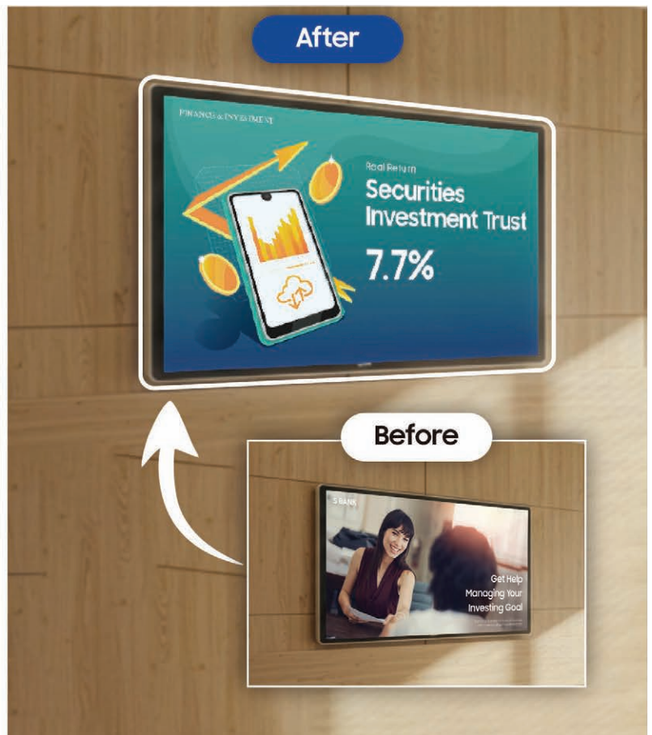

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.
* The images are generated using artificial intelligence.

Unified Control

Secure and centralized content control for all branches

Solution

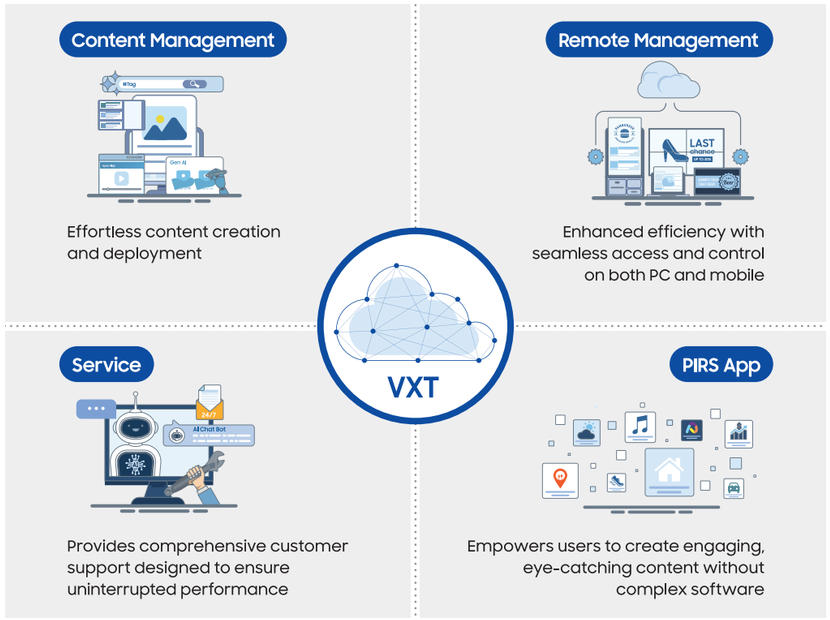

VXT

Centralized signage control for efficient communication

· Efficient communication of announcements, emergency alerts, event information and more for head office and branches.

Secure content operation and pre-management

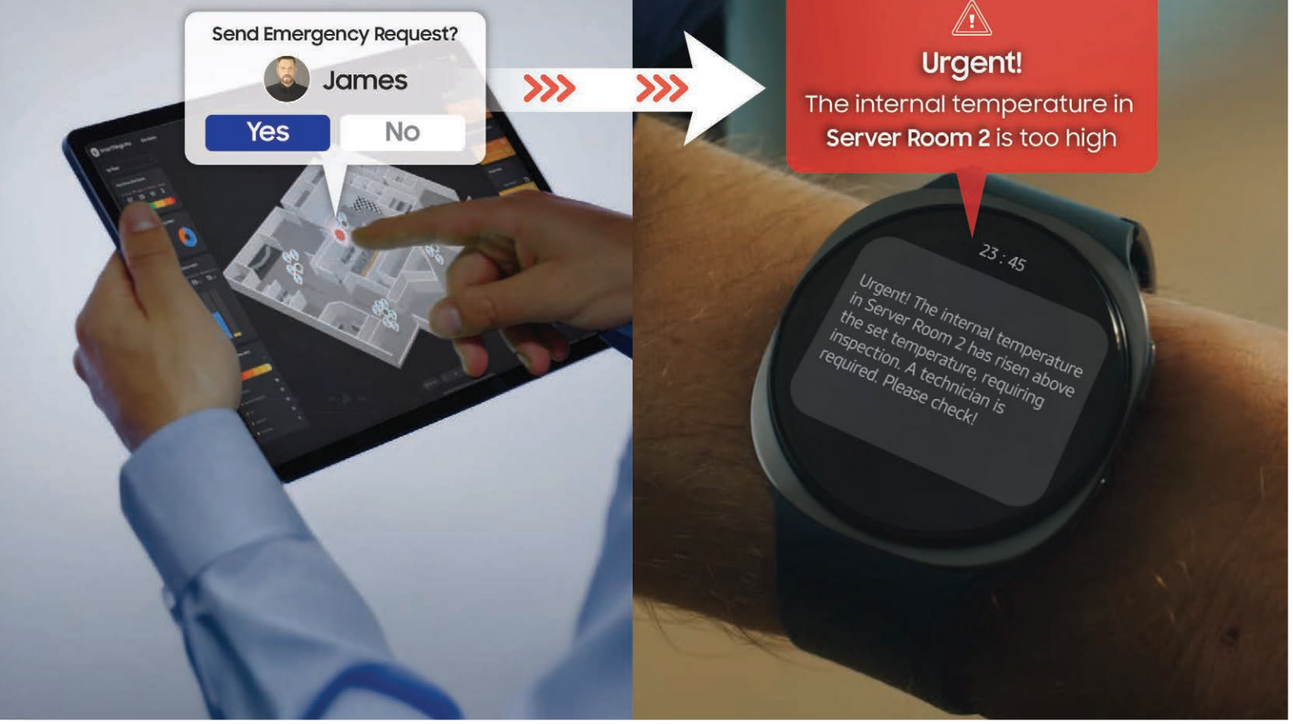

· Ultimate cloud-based visual display solution, combining a powerful content management system with seamless remote signage management within one secure platform.

Product	VXT Available	Note
Interactive Display (Flip Pro)	○	
Interactive Display (Android)	○	
Indoor LCD Signage	○	
Indoor LED Signage	○	Only devices using Samsung S-Box are supported
Kiosk	○	Only Windows OS devices are supported
E-Paper	○	Comes with built-in VXT Player

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

Centralized control for always-on security

Solution

SmartThing Pro for Safety

Reduce risk with live monitoring and response

· Early detection of abnormalities via real-time health data with Galaxy Watch.

· Set restricted zone and send alerts for entering the zone.

Easy data tracking and cost efficiency on operation

· Analyze history data for a better working environment.

· Achieve operational cost efficiency with task management.

Task Management

Emergency request → Locate nearby staff → Accept and perform task → Mark as complete

Restricted Zone Monitoring

Define secure zones → Detect unauthorized entry → Alert safety manager and nearby staff → Identify the intruder and take necessary action

Facial Recognition Access

Facial recognition security platform for finance

· Rapid, hands-free ID checks for enhanced speed and accuracy.

· 1.3-meter walk-through recognition streamlining security checks for employees.

· Secure, efficient control of restricted zones for optimized management.

ISO/IEC 27001, 27701
International security standards certifications

High recognition accuracy in various environments

Face template on mobile authentication[1)]

Intelligent Security Camera

Intelligent system for real-time branch monitoring

· Detect occupancy across the branch for security and energy optimization.

· Wireless sensor network on alert against fire, theft, intrusion, or accidents.

* Contact your regional sales manager for more details.
* Additional licenses and devices for certain features are sold separately.
* The images shown are for illustration purposes only and may vary according to real usage.
* Availability may vary by country, region, service provider, network environment, or device, and may change without notice.

[Facial Recogmition Access]

[1)] Enables secure storage and management of facial authentication templates on the user's smartphone.

From finance to life enriching experiences

Collaborative Robot

Safe, convenient automation for streamlining repetitive tasks

· Flexible deployments enabling high utilization in tighter layouts.

· Simple operation and management with purpose-built Linux-based real-time robot OS.

LEED Certification

Support the attainment of LEED certification and enhance building value

· Maximize branding and sustainability impacts for environmentally focused buildings.

· Develop and execute strategies with Samsung B2B Integrated offering to achieve Platinum certification.

WELL Certification

Beneficial environment for building owners, tenants, and visitors alike

· Helps enhance asset value for owners and the well-being of residents.

· Focuses on safety and welfare through considerate design and operations.
