

SAMSUNG

Empower Your Business With Samsung

In today's fast-paced business world, the right technology isn't just an advantage—it's a necessity. Samsung's lineup of business-ready smartphones and tablets are designed to keep your workforce connected, productive, and secure.

This booklet provides an overview of Samsung's device categories, each tailored to meet specific business needs. Whether you're looking for reliability, cutting-edge innovation, or enterprise-grade security, there's a Samsung device that fits your organization.

Let's find the perfect solution for your business.

Entry-Level Models

Affordable. Reasonable

Efficiency starts with the right tools. Samsung's Entry-Level phones and tablets provide reliable performance, long battery life, and robust security at an accessible price point—ideal for businesses looking to equip teams without overspending.

Why choose Entry-Level phones or tablets?

- Affordable yet powerful
- Long battery life for all-day use
- Enterprise-grade security features
- Seamless integration with business apps
- Seamless integration with business apps

Ideal for: Entrepreneurs, creative professionals, and businesses embracing the future of work.

Innovative Models Convenient

Innovation isn't just about what's new—it's about what's next. Samsung's Innovative phones introduce foldable technology, enhanced multitasking, and AI-powered productivity tools to help businesses work smarter.

Why choose Innovative phones?

- Foldable screens for multi-tasking
- Intelligent AI features for efficiency
- Ultra-fast performance for demanding tasks
- Premium design for professionals on the move

.Ideal for: Entrepreneurs, creative professionals, and businesses embracing the future of work

Flagship Models Exceptional

When performance and professionalism matter most, Samsung's Flagship phones and tablets deliver. These premium devices offer cutting-edge processors, high-resolution displays, and top-tier security—perfect for business leaders who need power at their fingertips.

Why choose Flagship phones or tablets?

- Ultra-fast processors for seamless performance
- Stunning displays for presentations and media
- High-end cameras for professional content creation
- Advanced security to protect business data

Ideal for: Executives, business owners, and high-performance teams.

Professional Models

Forceful

For professionals who work in demanding environments, Samsung's Professional phones are designed to withstand tough conditions while delivering powerful performance. With military-grade durability, water and dust resistance, and enterprise-ready features, these devices ensure reliability in the field.

Why choose Professional phones?

- Certified for shock, drop, and temperature resistance
- IP68-rated water and dust resistance
- Long-lasting battery for extended fieldwork
- Push-to-talk and glove-friendly screens for easy operation
- Secure, with enterprise-level protection

Ideal for: Construction teams, field workers, logistics, and industries requiring tough, durable devices.

Rugged Devices

Built rugged from the inside out. All of Samsung's rugged devices are built to withstand rigorous durability tests, even without protective covers, to ensure reliable performance, even in challenging environments through:

- IP68 Rating (Dust and water resistant)
- MIL STD 810H (Tested to withstand extreme altitude, humidity, immersion, salt, fog, dust, vibration, and drops)
- Anti-shock Measures (Withstands accidental drops from up to 1.5m)
- Sanitizer-safe measures (Galaxy XCover6 Pro has been tested for protection against a wide variety of sanitizers)

The devices are jam-packed with tailor-made features and functionalities to withstand and support any kind of duties, such as:

- POGO charging which make it easy and convenient to charge devices in the workplace
- The ability to easily swap in a new battery
- No battery mode, so you can stay powered wherever you are
- Programmable key and Push to Talk support
- Fingerprint and face recognition
- A precise S pen that helps front line workers stay productive while on the go
- Clear anti-glare screen with the ability to use them with gloves on

Affordable. Reasonable
