¹TV requires a separate power cable connection. Operating distance can vary depending on the using environment. Wireless One Connect may not work well if there is an obstruction, such as a wall, hindering its connection to the TV within your home. Wireless One Connect box may not work properly if placed inside a closed metal cabinet. ²Based on testing standards set by UL, i.e., UGR10 for reflection glare, UGR22 for discomfort glare, UGR34 for disability glare. ³Feature available in certain regions and models. Availability, supported features and user interface may vary by country, region, model and viewing conditions. Voice commands recognize English, French, Spanish, Portuguese, German, Italian and Korean, but not all accents, dialects and expressions are recognized. This feature provides AI-created content, with accuracy not guaranteed — please check results. Requires certain Bluetooth remote (sold separately on some models). In-box remote for some models does not support voice recognition. Requires either a Mobile Quick Remote or separately purchased Bluetooth remote. Feature accessible via the AI button, or the Home button (long press) on remote control without an AI button. Samsung Malaysia Electronics (SME) Sdn. Bhd. 200301026766 (629186-D)

¹You can select the door opening level using the SmartThings App. A Wi-Fi connection and a Samsung account are required. The 'Wide-open' option automatically opens the door by an angle of 80 degrees or more, but the door does not close automatically. The 'Semi-open' option reduces the force required to open the door, and automatically closes the door after a certain period of time if the door is left open. The actual angle that the doors open may vary due to the installation circumstances and usage conditions, like storing heavy items in the door bins. *Redemption of free Touch 'n Go eWallet credit valid from 1 October 2026 - 15 January 2027 and may vary depending on purchase platforms, whether in-store or online. **RS90F65ANF / RS90F65DNF / RS80F65GNF / RS70F65KNF / RS80F65MNV / RS70F65QNF / RS70F65QNW. ***Only available on SmartThings-supported models produced after 2024. Requires the SmartThings App, which is available on Android and iOS devices. A Wi-Fi connection and a Samsung account are also required. ¹Based on internal testing of the cycle time when drying an IEC 3kg load with Cotton cycle. Results: Bespoke AI Laundry Combo model with a heat pump (WD21B6400KV) = 78 minutes vs. WD21B6400KV combo model with a condenser = 202 minutes, which is a reduction of 60%. Individual results may vary based on actual load contents. Based on internal testing and verified by KATRI (Korea Apparel Testing Research Institute) of the cycle energy consumption when drying an IEC 3kg load with Cotton cycle. Results: Bespoke AI Laundry Combo model with a heat pump (WD21B6400KV) = 0.8kWh vs. WD21B6400KV combo model with a condenser = 3.6kWh, which is a reduction of 75%. Individual results may vary based on actual load contents. ²Based on internal testing and verified by KATRI (Korea Apparel Testing Research Institute) of the cycle time when drying a DOE (50% cotton/50% polyester) 3kg load with a Super Speed cycle of WD25DB8995BZ model. Result: The washing and drying cycle was completed in 98 minutes. Results may vary depending on the actual usage environment. ³AI Wash & Dry's detection and sensing capabilities are based on our deep learning models trained using predefined set of data and may yield inaccurate or incorrect results. New datasets may be introduced to our learning models from time to time to enhance its accuracy. A turbidity sensor operates for all weights, while fabric sensing operates for 8lbs and under. Actual results may vary depending on individual use. To prevent wear, wash like fabrics together. ⁴Redemption of free Touch 'n Go eWallet credit valid from 1 October 2026 - 15 January 2027 and may vary depending on purchase platforms, whether in-store or online. ⁵Only available on SmartThings-supported models produced after 2024. ¹Based on testing by SLG Prüf- und Zertifizierungs GmbH, in accordance with the IEC 62885-4 CLS.8 standard, using a handheld type vacuum cleaner (with no brush) in Jet mode. The results were compared to cordless stick vacuum models available on the market with a stated suction power within 30% of the actual suction power of the Samsung model tested by SLG. Based on sales data between January 2024 and December 2024 as compiled by an independent market research institute. ²Based on testing by SLG Prüf- und Zertifizierungs GmbH, in accordance with the IEC 62885-4 CLS.8 standard. Measured at the inlet of the non-motorized tool when the dustbin is empty, using Jet Mode and a sufficient capacity battery that is fully charged. Results may vary depending on actual usage. ³The ability to identify different cleaning environments and the time it takes to change the settings can be affected by environmental conditions. ⁴The 2 years warranty is limited to battery only.
