¹Based on test results by Hohenstein Laboratories GmbH & Co. KG, there is strong antibacterial activity with the test strains Staphylococcus aureus ATCC 6538P and Escherichia coli ATCC 8739 under given test conditions for the test samples, calculated with the control material (glass slide). The reduction value in bacterial activity was more than 99% for each strain. Individual results may vary depending on individual use. Each test results are not proven results in actual usage environments.
