OPTIMALDRY

HYGIENE CARE

9 Star Energy Efficient with Heat Pump Technology

Heat Pump Technology offers a gentle and energy-efficient way to dry clothes.* Its impressive 9-star rating for energy efficiency uses a 'refrigerant' to heat the air, instead of electricity. It also recycles warm air to help reduce energy usage.

OptimalDry

OptimalDry™ System is an intelligent drying system using 3 unique sensors. The moisture sensor adjusts the drying time. The temperature sensor stops clothes from getting too hot. And the heater cover sensor reminds you to clean the Heat Exchanger.

Smart Control

Dry laundry easily and effectively with Smart Control. This Heat Pump Dryer personalises drying by remembering your habits, suggesting cycles and displaying timely information. Using the SmartThings app*, it helps select the ideal drying course for a wash cycle**, and provides advice on cycles, planning and troubleshooting.

Hygiene Care

Use the power of steam to help eliminate common bacteria, mites and allergens on clothes and other items, like linen and soft toys. The Hygiene Care+ cycle sanitises both dry and wet items*, without affecting the drying performance, by infusing them with high-temperature heat that helps eliminate up to 99.9% of certain common bacteria.**

*Tested in accordance with IEC 61121:2013/8kg Wash load/Cotton Cupboard with Heatpump (DV80F5E4HGW) vs. without Heatpump (DV80H4100CW). Individual results may vary. *Available on Android and iOS devices. SmartThings compatible devices may vary by region. This function may differ by mobile and OS (Operation System). Each device must be connected to Wi-Fi or other wireless network. Download and installation of SmartThings app are required. Samsung Account required. For interoperability through SmartThings, all the devices should be registered with a single Samsung Account. Apps and services are subject to change without notice. Data, subscription and other charges may apply. **Auto Cycle Link is only available when both the washer and dryer have AI Control and Wi-Fi connected. *2kg dried laundry or 2kg wet laundry. **Based on independent testing by Intertek, by testing samples of applicable models to Samsung-defined test protocol. Individual results may vary.
