Materiality

It has been verified that all material non-conformities identified during the sampling performed on the footprint models submitted have been closed. If at any time and for whatever reason You or the Company identify any further non-conformities, the terms described in the Description of Service and General Terms and Conditions will apply. It is also Your duty to promptly inform the Company in writing.

Provision for material discrepancy

The Company has performed the certification in accordance with the applicable material discrepancy threshold: where actual errors, omissions or misrepresentations affect the final footprint result by the equivalent of 1% or more individually or 5% or more in aggregate they are predetermined to be a material discrepancy and therefore a non-conformity.

Certification Period

This Certification is valid for a period of 24 months from 23 March 2023 (the “effective date”) until 22 March 2025 subject to the provisions in this Certification Letter.

We will be in touch with you prior to the expiry of this certification to discuss your communications and reduction plans as well as re-certification. Suspended Non-conformities

The following non-conformities were raised but considered suitable for action prior to the next surveillance and/or re-certification audit. In general, it is expected that Minor Non-conformities should be closed with higher priority than Observations.

Identifier	Finding	Planned action	Severity
1	Biogenic emissions	Please ensure biogenic emissions are calculated and reported as part of the footprint.	Minor non-conformity

2	Product Consistency Criteria (PCC)	Please complete a PCC. A three-month grace period from the date of certification has been applied for this to be completed.	Minor non-conformity
