Incredibly Smart Cleaning

LiDAR Sensor

Transform a tiresome chore into something more impressive. The improved sensor cleverly maps out your home by accurately scanning each room¹⁵, including underneath furniture or in lowly-lit spaces for a fast yet thorough clean¹⁶.

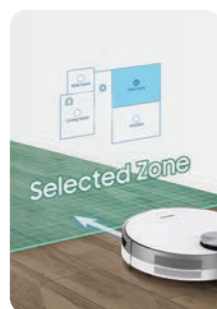

Wi-Fi® Smart Control⁶

Stay in control even when your Jet Bot is out of sight with the SmartThings App⁵:

Select & Go

Kids always making a mess in their room? Got an extra dusty hallway?

Jet Bot recognises rooms and specific areas that you can remotely schedule for cleaning.

No-go Zone

Want to avoid precious family heirlooms or wet bathrooms?

Mark out no-go zones on your home's virtual map within the SmartThings App⁵ to stop your Jet Bot from entering specific areas.

Live Cleaning Report

Busy running errands for a party but want to make sure your home is clean and ready?

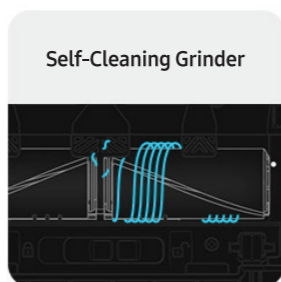

Easily view the cleaning progress in real-time, including the Jet Bot's current location. You have complete control of it anytime.

Makes cleaning a breeze

High-Efficiency Brush with Self-Cleaning Grinder

Dust and dirt don't stand a chance against the Jet Bot's High-Efficiency Brush. Its soft woven textiles and anti-static silver threads reach deep into crevices and pick up fine dust on hard floor. Say goodbye to tangled human or pet hairs on the brush with the built-in Self-Cleaning Grinder.

Self-Cleaning Grinder

Intelligent Power Control

Plus, the Jet Bot knows when to ramp up its cleaning power based on different flooring or carpet surfaces and how dusty it is. Genius!
