1) Clinical test by Harvard Medical School: A clinical study conducted at Harvard Medical School by Dr. Eli Peji, Professor of Medicine and Dr. Gang Luo, Assistant Professor of Medicine, concluded that users of curved monitors had reduced eyestrain and blurred vision when performing nearly one hour of intensive visual tasks as compared to flat monitor users.

Clinical test by Seoul National University: A comprehensive clinical study conducted by Prof. Seong-Joon Kim at Seoul National University Hospital showed that curved monitors induce less eyestrain than flat monitors. It's been proven that the closer a monitor is to 1000R, the more effective it is in limiting eyestrain.

2) A study at the University of Leeds discovered that curved displays increased productivity through minimising physical discomfort. Fewer head and neck movements are required to read information on curved displays. In addition, the natural curve offers a more private and immersive experience.

3) Samsung Curved Monitor was validated by TÜV Rheinland, the worldwide recognised certification institute in Germany. TÜV Rheinland tested the performance of Samsung Curved Monitor on reducing picture distortion and increasing eye comfort.

1) Speed is slower with a non-Ultra High Speed-1 interface device.

2) Based on Full HD (1920x1080) video content recorded at 26 Mbps Video support.

3) Performance may vary depending on host configuration. To reach maximum read/write speeds of up to 1,050/1,000 MB/s, respectively, the host device and connection cables must support USB 3.2 Gen 2 and the UASP mode must be enabled.

4) Based on internal test results compared to a Samsung external HDD 1TB(HX-MTD10EA). Test system configuration: ASUS Z370 ROG MAXIMUS X APEX (USB 3.2 Gen 2 Type-C), Intel® Core i7-8700K CPU @ 3.70GHz(Coffeelake), OS-Windows 10 RS6.

5) Performance may vary depending on host configuration. To reach maximum transfer speeds of 540 MB/s, the host device and connection cables must support USB 3.1 Gen 2 and the UASP mode must be enabled.

6) Based on internal test results comparing with a Samsung external HDD 500GB conducted under controlled conditions. Performance may vary depending on system environment and compatibility with USB 3.1.

7) Performance may vary based on SSD's firmware version and system hardware & configuration. Except for 860 PRO and 970 PRO, write performance measurements are based on Intelligent TurboWrite technology being activated.

8) TBW means Terabytes Written. Warranty for 860 QVO is 3 years or TBW, whichever comes first, and warranty for 860 EVO/PRO and 970 EVO Plus/PRO is 5-years or TBW, whichever comes first.

### \*Terms and Conditions

- This promotion is only valid for customers who purchase the above mentioned Samsung product(s) during the respective applicable promotion periods from Samsung Experience Stores, Samsung Online Store and selected retailers, subject to stock availability and is not valid with other discounts or promotions.
- Each customer is entitled to redeem gifts for a maximum of 5 product purchases.
- Gifts may only be redeemed in person by the customer as named in the proof of purchase documents, by collection at the Redemption Centre during the Redemption Period, upon submission and/or presentation of valid Redemption Documents as specified in the Redemption Details.
