# Jet Series Vacuum Cleaners

Did you know: Hygiene is a deciding factor for many Singaporeans purchasing a vacuum?

The Jet Series gives your home a complete hygienic solution to eliminate common allergens like fine dust and dirt. We've thought about everything from powerful suction performance right down to how dust is disposed so you can live and breathe easy. Remember, it's not clean, until it's Jet Clean.

Awarded the BAF Seal of Approval for reduction in exposure to allergens<sup>14</sup>  
 Certified by SLG for Dust Retaining Capability<sup>15</sup>

## Clean Station™

Discover automated disposal

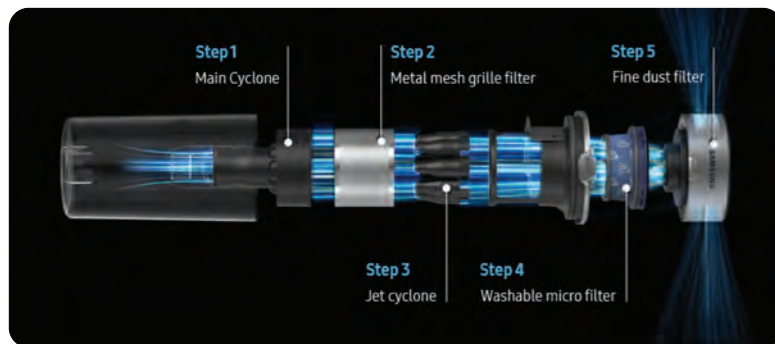

The Jet Series vacuums have a compatible Clean Station™ that automatically empties<sup>17</sup> the Jet's dustbin after vacuuming. This ensures dirt stay trapped the entire time, hence minimising your exposure to harmful dust particles.

## Fully Washable Bin and Filter

Easy to remove and maintain

The bins and filters of the Jet series vacuums are uniquely designed to be fully washable as it puts hygiene and ease of maintenance as its top priority.

## Multi-layered Filtration System

Traps 99.999%<sup>18</sup> of fine dust<sup>19</sup> and reduces allergens<sup>14</sup>

With many Singaporeans suffering from allergic rhinitis, the Jet's Multi-layered Filtration System ensures you can always breathe cleaner air even while vacuuming. Say goodbye to sneezes!

## Powerful Performance

Up to 200W<sup>20</sup> for heavy-duty cleaning

Deeply embedded fine dust, hair and dirt particles do not stand a chance against the Jet's outstanding suction power of up to 200W<sup>20</sup>.
