

SAMSUNG

Samsung Weekend Saver Fix Tariff FAQs

- When will I receive my PeakSave credits?

After each event, British Gas will credit half of what you spent back to your account. Your Saturday credits will show as 'Samsung Saturdays' on your next bill or online statement. Your Sunday credits will be added separately as 'PeakSave'. They're normally applied within two weeks of each event ending.

- Do I need to switch my gas and electricity?

You'll need to have electricity with British Gas to benefit from the half-price electricity discount.

- What Samsung appliances are eligible?

You can find the list below, or in our [terms and conditions](#)

- How will I get the savings?

Once you've signed up to the Samsung Weekend Saver Fix tariff, you don't need to do anything to take part – British Gas will automatically sign you up to PeakSave and include you in every Saturday and Sunday event. You can use as much half-price electricity as you need from 11am to 4pm.¹ Your smart meter will tell British Gas how much you used, and British Gas will work out your credit.

- Why have I not received my account credit?

It can take British Gas up to 10 days to complete all their checks to make sure you're eligible and everything's ready. British Gas will let you know when you're all signed up.

- Will my Direct Debit change?

When you choose our Samsung Weekend Saver Fix tariff, you'll select your monthly Direct Debit amount. The PeakSave credits won't have any impact on your monthly payments.

- If I change tariff, will I still get the Samsung Saturday credit?

When you join our Samsung Weekend Saver Fix tariff, British Gas will automatically sign you up to PeakSave. If you decide to choose another tariff, you'll continue to get half-price electricity on a Sunday 11am – 4pm, but you'll no longer get the additional half-price electricity on a Saturday 11am – 4pm.

- Can I sign up for the tariff if I have a prepayment meter?

This fixed tariff is only available to customers who pay by credit (monthly or quarterly bills). If you have a prepayment meter, you'll stay on our Standard Variable tariff.

- What is SmartThings?

It's a Samsung app, so you can link your energy account and PeakSave events to selected Samsung appliances. It's all at your fingertips, through your [Apple](#) or [Android](#) smartphone or tablet. Find out more about [SmartThings](#).

- What is PeakSave?

PeakSave rewards customers for shifting their electricity usage to times when there's less demand, or more renewable electricity available on the grid, supporting a greener energy supply. No matter what tariff you're on, you can sign up for [PeakSave](#). And by joining, you get half-price electricity¹ on PeakSave Sundays and with our PeakSave [Green Flex](#) events too. With our exclusive Samsung Weekend Saver Fix tariff, we're giving you half-price electricity on Saturdays, 11am – 4pm, as well as our usual Sundays.

- What if I'm already a PeakSaver?

That's great! All you need to do is switch to our Samsung Weekend Saver Fix tariff and British Gas will automatically add on half-price electricity on Saturdays, 11am – 4pm, as well as your Sundays. British Gas will let you know when it's all sorted.
