

SAMSUNG

List of companies that Samsung has entered into an agreement with (to require them to meet certain standards when modifying products):

- Elite Mobile Limited
- Fone Range Limited (a subsidiary of Elite Mobile Limited)
- Eurostar Global Electronics Limited
- Modifiers Limited (a subsidiary of Eurostar Global Electronics Limited)
- Greentech Distribution PLC
- Reseal Limited (a subsidiary of Greentech Distribution PLC)
- New Way International Limited
- Brand Smart Limited (a subsidiary of New Way International Limited)

Important:

These companies are not authorised distributors of Samsung products. Although Samsung receives samples from these companies to review, Samsung does not check all products produced by these companies to ensure they are compliant with the agreed conditions. Customers of these companies therefore buy at their own risk.

Samsung's strong recommendation is that consumers purchase genuine unmodified products from authorised sellers – this is the only way Samsung can guarantee consumers experience its products in the way it intended.

Samsung's authorised distributors in the UK and Ireland are Exertis and Data Select. We recommend that resellers and retailers purchase Samsung products from these companies if they wish to ensure they are genuine unmodified products.
