Global No.1 Gaming Monitor

Monitors

Outmaneuver opponents with supreme speed
240Hz Refresh Rate & 0.03ms Response Time

Experience ultra-smooth gameplay and razor-sharp visuals on the Odyssey OLED G8 with a 240Hz refresh rate and 0.03ms response time (GtG). This display delivers fluid motion and allows pixels to change color quickly, letting you enjoy intense games with less motion blur.

Fast connections for smoother gameplay
DP 2.1 (UHBR20) & USB-C (98W)

Get fluid visuals with the Odyssey OLED G8. DP 2.1 (UHBR20) delivers up to 80 Gbps of bandwidth, so you can get uncompressed visuals with ultra-fine details, even in fast-paced games. The USB-C port also powers your gaming setup with up to 98W, transferring game files in seconds — so you can stay focused on the game.

Smooth action without disruption
NVIDIA G-Sync Compatible

G-Sync compatibility syncs the GPU and panel to reduce choppiness, screen lag and image tearing. Along with AMD FreeSync Premium Pro, it creates ultra-smooth scenes that flow smoothly to the next.

Stay comfortably cool without feeling cold
WindFree™ Cooling

Stay comfortable cool with WindFree™ Cooling. It gently and quietly disperses air through 23,000 micro air holes, so there is no unpleasant feeling of cold wind on your skin. Its advanced airflow also cools a wider and larger area more evenly. And it uses 77% less energy than Fast Cooling.*

*Ts & Cs apply.

Reduces noise and energy use by 73%*
Digital Inverter Boost

Save money every day with highly energy-efficient Digital Inverter Boost technology. It maintains the desired temperature with less fluctuation. It also has strong magnets and a Muffler, so it works efficiently and produces less noise and vibration. And it reduces energy usage by up to 73%.*

*Ts & Cs apply.
