4 FIRST AID MEASURES

4.1 Description of first aid measures:

In case of respiratory exposure: Move to fresh air. Seek medical attention for any breathing difficulty.

In case of skin contamination: Remove contaminated clothing and wash with soap and **cold** water. If irritation persists, seek medical attention.

In case of intrusion into eye: Do not rub eyes. Immediately flush eyes with water for 15 minutes, lifting the upper and lower eyelids. If irritation persists, seek medical attention.

In case of oral intake: Immediately rinse mouth and drink water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed: Increased difficulty in breathing, Sneezing, Coughing

4.3 Indication of any immediate medical attention and special treatment needed: No data available.

5 FIREFIGHTING MEASURES

5.1 Extinguishing media:

Suitable extinguishing media: Use most appropriate extinguishing media for the surrounding fire. Use water spray, dry chemical, appropriate foam or carbon dioxide.

Unsuitable extinguishing media: No data available.

5.2 Special hazards arising from the substance or mixture: Can form explosive dust-air mixtures when dispersed in air. Hazardous combustion products: carbon monoxide, carbon dioxide.

5.3 Advice for firefighters: In the event of a fire, wear self-contained breathing apparatus and protective clothing. Wear appropriate protective eyeglasses or chemical safety goggles. Use dust respirator mask. Fight fire from upwind position, if possible. If fire occurs in the printer, treat as an electrical fire.

6 ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

Avoid inhalation of dust. Wash thoroughly after handling. Wear appropriate personal protective equipment as specified in Section 8. Ensure adequate ventilation.

6.2 Environmental precautions: Avoid dispersal of spilled material and contact with soil, ground and surface water, drains and sewers.

6.3 Methods and material for containment and cleaning up: Small spill: Remove source of ignition. Carefully wipe off with paper or wet cloth, avoiding inhalation of fine dust. Large spill: Wear protective gear: respirator, rubber gloves, goggles. Do not use vacuum cleaner when a large amount is released. This mixture like most finely divided organic powders, may create a dust explosion. Wipe up remainder with a wet cloth.

6.4 Reference to other sections: See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 HANDLING AND STORAGE

7.1 Precautions for safe handling: Avoid breathing dust and contact with skin, eyes and clothing. Handle in well ventilated work space. Wash thoroughly after handling. Treat from upwind position. Keep away from excessive heat, spark, and open flame.

11.1.10 Other information:

11.1.10.1 Carcinogenic effects: In 1996, the IARC reevaluated carbon black as a GROUP 2B carcinogen (possible human carcinogen). This evaluation is given to carbon black for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the developer of lung tumors in rat receiving chronic inhalation exposures to free carbon black at level that induce particle overload of the lung. Studies performed in animal models other than rats have not demonstrated an association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats.

11.1.10.2 Chronic effects: In a study in rats (H.Muhle) by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the concentration (16mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m³) exposure group. But no pulmonary changes were reported in the lowest (1mg/m³) exposure group, the most relevant level to potential human exposures.
