All Your Home Entertainment Amplified

Samsung Audio Lab,

California, USA.

Samsung’s state-of-the-art Audio Lab in California stands at the forefront of audio product design and testing. A dedicated team at the lab comprises experts in the fields of sound design and engineering, as well as musicians at the top of their industry. Combining this industry experience with cutting edge design and innovation, we are striving to bring master crafted sound to your home entertainment.

Master crafted sound for you

Samsung is committed to bringing the sounds of life to everyday home entertainment. Through the tireless work and effort of our experts, we're capturing true sound to deliver an unadulterated, outstanding entertainment experience.

This includes the development of specialised technology like Samsung Acoustic Beam, which works to bring premium panoramic sound to your entertainment. It's about taking it up a level from enjoyment to fulfilment. Games are more lifelike, your music is more immersive, and the scenes from your favourite movies come to life around you.

It's not just about producing sound, but rather capturing and blending the true sounds around us to deliver that fuller, more enriching entertainment experience. This master crafted sound is what we're calling the Sound of Samsung.

Allan Devantier,
Vice President of Samsung Audio Lab

Incredible sound. Incredible reality.

With Samsung's prowess in home entertainment solution and Harman Kardon's 65 years of audio expertise, the two companies are pushing the boundaries to bring sound completed by audio masters to your home.

Soundbar N950

True 7.1.4ch sound
Sound moves around you in multiple directions, thanks to the inclusion of both up-firing and side-firing speakers, delivering a full 7.1.4ch audio experience.

Multi-dimensional audio playback
The incorporation of object-based audio formats like Dolby Atmos and DTS: X lets you experience captivating entertainment.

Wireless Rear Speaker Kit included
Bring wireless surround sound with the inclusive two wireless rear speakers, featuring up-firing technology to complete your premium home cinema surround sound setup.

*For the 2018 Soundbar, this feature is supported for HW-N950 only. Each Wireless Rear Speaker requires a power cable.

True 5.1.2ch sound
Be surrounded by a complete audio environment powered by up-firing and side-firing speakers.

Multi-dimensional audio playback
The incorporation of object-based audio formats like Dolby Atmos and DTS: X lets you experience captivating entertainment.

Wide Range Tweeter
Enjoy amazing sound across the room with Samsung's state-of-the-art Wide Range Tweeter.

Soundbar N850

Soundbar N850

Simple sounds beautiful

Experience thrilling, impactful sound and rich bass without the need for a separate subwoofer. Boasting a sleek all-in-one design, the Soundbar Sound+ combines detailed and powerful sound with elegant styling.

Soundbar MS750

Distortion cancelling

Built to predict and cancel out distortion before it happens, to help create deep and detailed sounding bass, without the need for a separate subwoofer.

Sound stage expansion

Dual vertical tweeters disperse sound upwards into the room to help provide a greater sense of elevation to your entertainment content.*

*Only available on the HW-MS750 model.

One Remote Control

You don't need several remote controllers. For power, volume, and even for the sound effects, you can control key Soundbar functions with a compatible Samsung TV remote through the interface of your compatible TV's UI.*

*Compatible only with selected devices (see www.samsung.com.au/oneremote).

Smart home

Add your speaker to your smart home network through the SmartThings App.*

*Compatible with selected devices. Refer to <http://www.samsung.com.au/SmartThings> for list of compatible devices.

Surround yourself in the action with panoramic sound

Experience panoramic sound with innovative Samsung Acoustic Beam technology, engineered to mix and deliver sound so that it appears to come straight from the on-screen action.

Samsung Acoustic Beam
Samsung Acoustic Beam technology is engineered to mix and deliver the sound so that it appears to come from where the action is happening on screen. Great for movies and gaming, this sound will really move you.

Game mode
Immerse yourself in amazing sound when you plug your console into your TV. The Soundbar's auto setting can optimise your sound to the game you're playing.

Wireless TV connection
Connect the Soundbar to your compatible Samsung TV with ease and with minimal wiring via Bluetooth®. Enjoy your content quickly with clear, impactful sound.

Soundbar N650

Elevate your TV sound

Go beyond what you see and relish the vibrant sound delivered by Samsung's audio technology. Together with the powerful bass of the wireless subwoofer, you'll feel your space turning into a personal auditorium.

Soundbar N550

Built-in centre speaker
Never miss an important piece of dialogue with a dedicated centre channel that helps produce clear voices.

*For the 2018 Soundbar, this feature is supported for HW-N550 and above.

Powerful bass
Set the wireless subwoofer in your space and surround yourself with deep, rich bass.

One Remote Control
You don't need several remote controllers. For power, volume, and even for the sound effects, you can control key Soundbar functions with a compatible Samsung TV remote through the interface of your compatible TV's UI.*

*Compatible only with selected devices (see www.samsung.com.au/oneremote).
