	TV Water/Dust resistance rating*	IP55	IP55	IP55

*An IP55 rating means that under test conditions the product is protected against quantities of dust that could interfere with the normal operation of the product but is not fully dust-tight. It is also protected against low pressure water jets projected by a nozzle (6.3mm) from any angle with limited ingress. According to accredited test results, individual results may vary. Note: IP55 rating does not mean that the device is waterproof.
