Premium 4K Smart TV

## Art + TV come together

The Frame is as much a work of art as it is a TV. With the incredible Art Mode and the power of 4K UHD, The Frame transforms from TV to beautiful, lifelike art that fits seamlessly into your home and décor.

With intelligent in-built sensors, the brightness and colour of the displayed artwork will adjust as ambient lighting conditions change, bringing an extra sense of art realism to your space. Plus, The Frame is designed to automatically turn off when you leave the room and turn on when you return.

Samsung Collection	The Frame includes a gallery of professionally curated art, with one hundred pieces from 10 genres.
My Collection	My Collection is an easy way to create your own personal collection, storing all your favourite works of art in one place.
Art Store	Buy individual pieces or subscribe to an ever-increasing library of established and emerging artists' work.*
Art Mode Slide Show	Program The Frame to display images and artworks on rotation.

**Art Mode Features**
