Direct Cool Refrigerators 2020

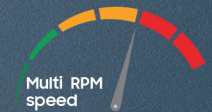

Innovation adds more to life

INDIA'S **1ST** DIGITAL INVERTER™ TECHNOLOGY

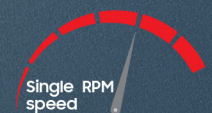

Let a fresh new wave sweep through your kitchen with the all new range of Direct Cool Refrigerators from Samsung.

You can enjoy more powerful cooling without adding to your electricity bills. The revolutionary Digital Inverter Compressor senses the set temperature, external temperature and even the number of times you open its door, and then accordingly it regulates the heat flow by altering the speed of the compressor.

As cool as it gets, isn't it?

The design story

With the synergy of beautiful exterior elements, the Direct Cool range of refrigerators, will add glamour to your kitchen with a wide variety of unique designs, patterns and colours. Time to find the fridge that suits your aesthetic needs!

Premium handle design

Garô

The Horizontal Garô Handle is sleek and curvaceous, which makes it glamorous yet convenient.

Bar

This elegantly designed handle makes the refrigerator look chic.

Island

This handle provides ease of access and its minimalist design looks modern.

Premium door design

Horizontal Curve

Softly curved and rounded at the top, its neat lines add elegance to your home.

Grandé

It enhances the look of the refrigerator with a fine line aesthetically placed towards the bottom.

Crown

The curved top gives the refrigerator a distinct look, ready to blend in with your home interior.

Elegant patterns

Paradise Bloom

Camellia

Wave

Blooming Saffron

Mystic Overlay

Star Flower

Reaching peak efficiency

5 star BEE rating**

Samsung Direct Cool Refrigerators come with the highest mark of efficiency - BEE 5 Star Rating. What it means is that you'll get to save a lot of money as well as help conserve the environment.

It also means that your refrigerator is using the best possible technology

15 days full freshness**

Fresh vegetables up to 15 days of being inside the fridge

21 years VDE certification***

www.VDEinfo.com
ID. 40046678
Tested by VDE Germany

When it comes to reliability, the VDE certification is respected across the world. And after testing the compressor of Samsung Refrigerators, VDE has certified that it will run for as long as 21 years

Connect Solar

Runs on solar energy™

- All appliances can run on electricity generated by Solar Panels, within the voltage range of 100v - 300v
- Current and Voltage in the batteries is regulated by the solar charge controller
- In the evening, stored energy in the batteries is used by the SPCU to run appliances

Up to ₹8190 energy savings^

- Saves up to ₹8190
- Less energy consumption
- Cuts down CO₂ emissions

10 year guaranteed reliability

- Reliable and durable
- 10 year warranty*

Connect Inverter

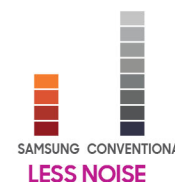

Runs on home inverter*

- Consumes less energy, runs on home inverter
- The food remains fresh during power cuts
- Keeps on running 24x7 even during power cuts

Less noise**

Cuts down noise by 40dB - 35dB as compared to conventional refrigerators

Stabilizer free operation (100v - 300v**)

Sustains wide voltage fluctuations between 100 - 300 volts

Available in select models only. ~Connection subject to solar panel capacity installed at customer's premises. *Connection subject to home inverter capacity. **Result based on Samsung's internal Lab Test conditions. Results may vary depending on different test conditions. ^Energy Savings are calculated over a period of 10 years [at the rate of ₹6 per KWH (i.e., per unit)] & may differ basis respective state electricity tariff rates. Energy Saving calculation is made in comparison between Samsung RR19T20BARH 1 star model and RR21T2G2W9R, 5 star with DIT model. *Result based on test conducted by VDE under ideal test conditions on compressor of select models only. *10 year warranty on compressor only. All products, images, features shown herein are for representational purpose only, actual may vary from model to model.

Space to do more

Got more to store?
Now find space for
all that you need to store.

So go ahead, make the
most of your fridge and
conveniently store all your
fresh fruits & vegetables.

Exclusive features

Extra space

With more space in the same size, you can add more bottles and utensils to your refrigerator. Pack in as much as you want and still have room for more.

Energy efficiency***

With Digital Inverter, the refrigerator only gets as much cooling as it needs, as the compressor regulates its speed within 5 levels. Put your energy to good use.

15 days full freshness**

The new Direct Cool range of refrigerators offer fresh vegetables up to 15 days of being inside the fridge. So, now you can enjoy first day freshness, even up to 15 days.

Cool Wave

Cool Wave provides cooling retention for up to 9 hours by circulating cool air inside the fridge. This keeps the food fresh for longer.

5 shelves

5 shelves come with a load bearing capacity of up to 175 kg. This gives you the freedom to store more food items.

Twin Fresh Max

Twin Fresh Max comes handy during summers for storing more water bottles and in winters for storing more vegetables.
