New Wind-Free™ Air Conditioner

Tri-Care Filter**

Keeps the air hygienic by capturing dust, certain viruses, bacteria and allergens

Keep the air hygienic and maintain the Heat Exchanger's performance with a Tri-Care Filter. Its 3-layers include a high-density filter that extracts large dust particles, fibers and animal hairs. A Zeolite Coating Filter also captures fine dust, and reduces certain viruses, bacteria and allergens

* Tested by Korea test lab for anti bacteria & virus, Japan test lab for anti allergy. Data has been measured under specific testing conditions for tested bacteria/virus/allergens and may vary depending on environmental factors and individual use. Applicable to Wind-Free models with Tri-Care filter only.

** For Wind-Free™ Premium Plus only.
