## Samsung's Heritage of Innovation

Samsung Electronics is a global leader in technology, opening new possibilities for people everywhere. Through relentless innovation and discovery, we are transforming the worlds of TVs, smartphones, wearable devices, tablets, digital appliances, network systems, medical devices and semiconductors. Samsung is also leading in the Internet of Things space through, among others, our Smart Home and Digital Health initiatives. Since being established in Korea in 1969, Samsung Electronics has grown into one of the world's leading technology companies. Today, its global network extends across the world where the creativity, expertise and diverse perspectives of its employees are helping to drive growth.

The digital appliances business offers premium lifestyle appliances for homes that are stylishly designed, eco-friendly, and equipped with convenient and innovative features. Across its refrigerators, air conditioners, washers, cooking appliances, and vacuum cleaners, Samsung has introduced Smart Appliances that are connected, sensory aware and possess the ability to be remotely managed. Samsung plans to continue strengthening basic functions to add value for consumers, such as user convenience and energy-and time-saving features, and expand its sensor and digital technologies.

# What if the best of innovation and design was concealed in your kitchen?

# Introducing new Samsung Built-in Kitchen Appliances

1

**A refrigerator that allows you to convert freezer to fridge and vice versa.**

Need more room to hold cool beverages for a party? Convert the freezer to an extra fridge compartment at the touch of a button.

**See page 16 for more information.**

2

**An oven that lets you cook two totally different dishes at the same time.**

Create two different dishes at different temperatures at the same time.

**See page 34 for more information.**

3

**An induction cooktop that projects a virtual flame onto your cookware.**

Enjoy the benefit of seeing a visible flame to better control the heat.

**See page 78 for more information.**

4

**A dishwasher that uses sweeping walls of water to thoroughly wash your dishes.**

Say goodbye to tough food residues and say hello to sparkling clean dishes from corner to corner.

**See page 112 for more information.**

# Introducing new Samsung Built-in Kitchen Appliances

The world is full of appliances with "smart technologies." But if those technologies don't improve your day-to-day life, they are not that smart. At Samsung, we don't just design our kitchen appliances around the latest technologies, we design them around you. We strive to understand and solve for aspects of your everyday life. When you see and understand our new built-in kitchen products, you may find yourself asking "Why hasn't anyone thought of this before?" and when you use our appliances, you will know that now there is a better way.

Our products are designed behind four core values:

## Innovation

All of our products contain unique new-to-the-world innovations that allow you to cook and clean in new ways that will help make your everyday life easier and your kitchen experience more enjoyable.

## Flexibility

Our products are designed to give you maximum flexibility and control over how you choose to cook, clean, and preserve.

## Design

Our products are inspired by the designs of premium European kitchens - sleek, minimalist, and modern - while still being practical and easy-to-use.

## Reliability

Not only do we take pride in our design and innovations across all our products but we are also committed to ensuring there are no compromises when it comes to dependability and durability of our products.

# Smart Technology

## ① Smarter Control - Wi-Fi Connection

Enjoy simply smarter control anytime and anywhere with a smart phone.

Samsung built-in oven's Wi-Fi Connection lets you **remotely monitor and control** the oven using an app on your smartphone. **From anywhere inside or outside the house**, you can easily check and change settings and adjust cooking times and temperatures. It also helps you to cook like a professional by selecting a Chef Recipe recommended by Michelin 3-Star Chefs.

### 1. Monitoring & Notification

- Monitor cooking mode, time, temperature.
- Receive notification for preheating, cooking, and error code.
- View the manual on mobile phone.
- Check the temperature of meat probe.

### 2. Simple Remote Control

- Turn off the power.
- Control cook time and temperature.

### 3. Recipe Download and Setting

- Find recipes by Michelin 3 star chefs and easily use them at home.

*Available on Android and iOS devices. A network connection is required.

## ② Smarter Control - Smart Dongle

Control anytime anywhere

Samsung built-in refrigerator is Wi-Fi capable. Using the optional Samsung Smart Dongle and App*, you can check what it's doing remotely on your smartphone, allowing you to control its rapid cooling modes, monitor the temperature and receive alerts if the door is left open. It even diagnoses errors so you don't have to read the manual.

*Sold separately.
*Available on Android and iOS devices. A Wi-Fi connection is required.

### Smart Manager

**Remote Door Alarm**

Accidents happen. Leaving a door open on your refrigerator can result in food spoiling quickly, unnecessary wastage and unwanted expense. But thanks to some clever technology, with the Samsung BRB6000, this becomes a thing of the past. If a door is accidentally left open, the refrigerator will sound an audible alarm. If the door remains open, after 2 minutes, a warning notification is then sent via the App to your smartphone, alerting you to close the door.

**Rapid Cooling**

Providing the optimum cooling environment for your food means your food will stay fresher and taste better for longer. The Rapid Cooling function enables you to remotely control and set the Fridge and Freezer compartment temperatures to the lowest level before you get home – ideal if you are returning from the Supermarket with your shopping.

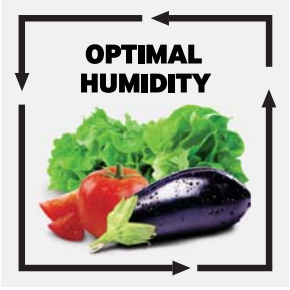
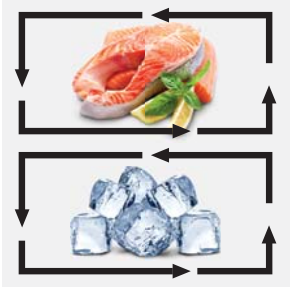
# Twin Cooling Plus™

Twin Cooling Plus™ technology creates the optimal temperature and humidity in the fridge and freezer to preserve food in the best condition and protect its natural flavor and aroma. It cools each compartment independently and prevents odors from mixing between them using their own dedicated evaporators and cooling systems. As a result, it retains more moisture and maintains a high humidity level all over the fridge. So, even the most perishable fruits and vegetables are kept fresher for longer, without them drying out or needing to be wrapped, which helps to reduce waste.



## Optimal Humidity

Thanks to the Twin Cooling Plus™, the fridge compartment has its own dedicated supply of cold air, which maintains an optimal level of humidity.



## No Odor Mixing

Twin Cooling Plus™ system cools the compartments separately to stop unpleasant odors spreading from fridge to freezer. So frozen food retains more natural flavor without being tainted by smells from the fridge.

## Flexibility

The CoolSelect Plus zone provides the ultimate in flexibility, as different foods can be stored at the optimum temperature, so everything stay fresher and tastes great. With one touch it can be easily converted from a freezer to fridge using the optimal pre-set temperatures of 2°C, -1°C, -5°C or -23°C~-15°C.

# Features

## No Frost

No Frost technology enhances the circulation of air to maintain a constant temperature in every corner of the fridge, which prevents the build up of frost and ice. It also reaches the target temperature much faster, increases the cooling system's durability, and avoids wasting power on defrosting.

## CoolSelect Plus Zone

The CoolSelect Plus Zone provides the ultimate in flexibility, as different foods can be stored at the optimum temperature, so everything stays fresher and tastes great. With one touch it can be easily converted from a freezer to fridge using the optimal pre-set temperatures of 2°C, -1°C, -5 °C or -15°C~-23°C

## Metal Cooling

The Metal Cooling Plate in the rear wall retains the cold and helps to maintain the optimal temperature within the fridge by restoring any heat loss. So your food is preserved better, even if you frequently open and close the door. It also adds a really premium look and is very easy to wipe clean.

## The Digital Inverter Compressor

The Digital Inverter Compressor automatically adjusts its speed in response to cooling demand across 7 levels. So it uses less energy, minimies noise and reduces wear and tear for a longer-lasting performence. And for complete peace of mind its performance is backed up by a 10 year warranty*.

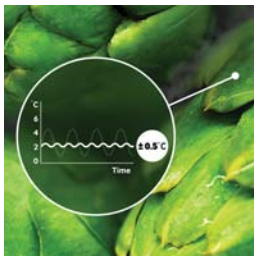
## Take-out Tray

With a Take-Out Tray, you can easily store and access all of your favorite and frequently used food items, like ice cream, frozen vegetables and pizzas. And you can quickly see what's inside because it's transparent.

## Easy Slide Shelf

Reaching into your freezer often means navigating an obstacle course of items, but the Easy Slide Shelf simply slides in and out. So you can efficiently store, organize and access your frozen food – quickly and easily finding and reaching things at the back and in every corner, with no "dead space".

*10 year warranty is limited to the compressor only.

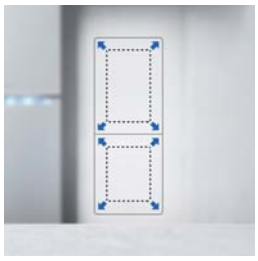


## Precise Chef Cooling™

Chefs say that precise and stable temperature control is the key to keeping food at its freshest. Precise Chef Cooling™ minimizes temperature fluctuation, so all your ingredients retain their original textures and flavors.

## Fresh Zone

Fresh Zone is a smartly designed drawer that provides the ideal environment preserving meat and fish - keeping them at the optimum temperature so they stay fresh and have the best possible flavor.



## Space Max Technology

The Samsung refrigerator offers up to 30% more storage space than a conventional refregerator of the same dimensions. Its SpaceMax Technology ™ is a slim wall that creates extra internal capacity without increasing the exteral dimensions or compromising energy efficiency.

## Adjustable Door Bin

Four Adjustable Door Bins help you easily organize and flexibly store differently sized items. You can adjust the bins to fit all sizes of bottles, cartons and other items for maximum use of your storage space.

## Wifi With  Dongle Ready

With Smart Dongle, you can check what the refrigerator is doing from anywhere at any time. You can control its Rapid Cooling modes, monitor the temperature, and receive alerts if the door is left open. And the refrigerator even diagnoses errors, so you don't have to read the manual.

# Models
## Built-in Fridge Freezers

The Samsung BRB6000 range of Built In Fridge Freezers preserve the original freshness, flavor and texture of food for longer with advanced cooling systems that optimize the temperature and humidity, retain the cold and prevent ice build up. And you can remotely monitor and control it from anywhere at any time with an optional Smart Dongle and App*.

# Oven

Samsung Built-in Ovens are designed for people who want eye-catching style and great results, with the minimum of effort. With Dual Cook technology, you can cook multiple dishes at once and all with the precision needed for professional-quality food.

SAMSUNG
SAMSUNG

# Dual Cook Flex™

## One Oven. Many combinations. Every taste

The Samsung Dual Cook Flex™ allows you to cook two different dishes simultaneously, at two different temperatures. And with a Flex Door you can access the top compartment without disturbing what's cooking below. No one day is the same, so why should your cooking be?

### One flexible door. Opens two ways.
Flexible Door

Enjoy complete flexibility to cook various dishes with the flexible door. Open the top half to use the upper zone for smaller meals. Also, easily access the upper zone while cooking different foods without heat loss to the lower zone. Or you can open the entire door when using the whole oven.

### Cook more dishes much more efficiently
Dual Cook with Flexible Door

You can easily use the upper zone and bottom zone at the same time with different temperature and time settings to get optimal cooking results in both zones without losing heat or hinder cooking in the lower zone. So you can efficiently prepare different dishes and enjoy the best taste.

* Available on Android and iOS devices. A Wi-Fi connection is required.

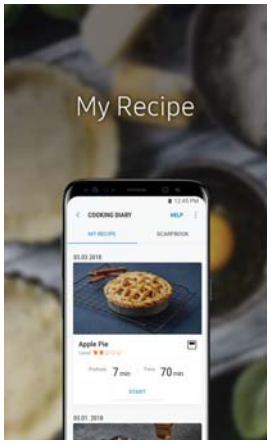
# Easier and intuitive cooking

Cooking Guide recommends optimal cooking mode for a dish, even for simultaneous cooking in upper&lower zone. My Recipe lets you save how you cooked meals, so they're easy to make again. Scrapbook stores recipes, so they are easy to access.

## Intuitive Smart Cooking contents

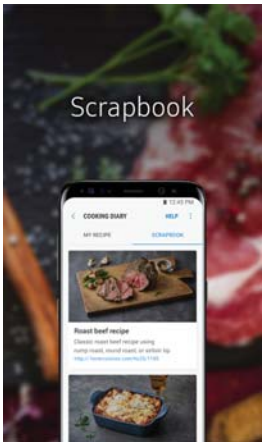
### Cooking Guide

Recommends the best oven cooking mode, temperature and cooking time based on the ingredients and type of food you're making. You can also change it to suit your personal preferences.



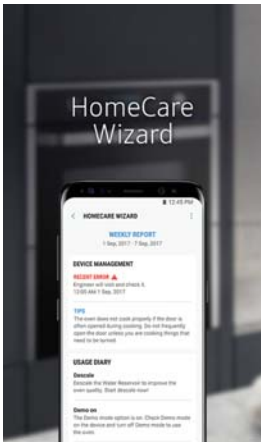
### My Recipe

Records your cooking history and notes so you can easily refer back to it. You can also use your camera to take pictures while cooking and save it here.



### Scrapbook

Save any recipe you see on the web easily.



### HomeCare Wizard

Receive alerts of potential issues with quick trouble-shooting and accurate diagnostics to keep your oven at optimal condition. It even sends reminders when it's time to run the self-cleaning feature and offers helpful guides for better usage.

13:00
SAMSUNG
13:00
Dual Cook

# Dual Cook

Dual Cook technology gives you complete flexibility to cook multiple dishes simultaneously at different temperatures. Its upper and lower cooking zones can be used independently or together – offering flexibility, while saving time and energy. By inserting a divider you can use one zone for smaller meals or create two independently controlled cavities to cook a variety of dishes and different size meals simultaneously, using separate temperature and time settings. And if you remove the divider you can use the whole oven for large dishes, like a holiday turkey.

## 4 Ovens in 1

### Energy Saving

Its upper and lower cooking zones can be used separately to save energy.

### Time Saving

It can be divided into two small ovens using a divider that enables you to save time by cooking two different dishes at once.

### Large Capacity

The upper and lower cooking zones can be used together for large dishes such as a turkey.

# Features

## Gourmet Vapour Technology™

Gourmet Vapour Technology™ optimizes the taste and texture of your food, especially during baking or roasting. The technology creates a super-heated vapour that quickly spreads from corner to corner to ensure even cooking, even across multiple levels. So food is deliciously crispy and brown outside.

## Meat Probe

A Meat Probe allows you to monitor the internal food temperature without any guesswork by clearly indicating when meat is thoroughly cooked, all without opening the oven door and releasing heat.

## Soft Closing Door

The Soft Closing Door smoothly and gently opens and closes with minimal noise. The door's hinge helps it to slowly come to a stop safely, giving you complete peace of mind.

## Guide Lighting Control

You can control cooking temperatures and times, select functions and set clean options easily with an intuitive step-by-step display. By following the lights it clearly shows you what to do next, based on the last option you chose, so you can prepare delicious meals without reaching for the instruction manual.

## Rotisserie

With rotisserie, meats become more tender, juicier, and easier to baste. Whenever you need it, just put the rotisserie attachment into place.

## Wi-fi Connection

Samsung Built-in Oven's Wi-Fi Connection lets you remotely monitor and control the oven using an app on your smartphone. From anywhere inside or outside the house, you can easily check and change settings, and adjust cooking times and temperatures.

## Cleaning (Steam)

Steam Clean helps remove even the most stubborn grime. It uses just a small amount of water inside the oven to create hot steam that loosens grease and food residue, so it's much easier to wipe off.

## Real Steam Cooking

Get your meal just right with Real Steam Cooking. It is a healthy way to roast and bake keeping fat and salt levels low, and preventing foods from drying out. Moreover, Real Steam Cooking makes your favorite food have a beautiful golden brown crust with crispy texture while keeping moisture inside.

## Full Touch TFT Color LCD Control

A 4.6" full-touch TFT LCD display offers a much simpler and easier way to cook – exactly how you want to. You can select and control a range of functions and settings, such as cooking mode, temperature and time, with the simple touch of your finger.

## Telecopic Rail

A Telescopic Rail slides in and out smoothly with hardly any effort, even if you're using large pans or heavy dishes. So you can keep on basting, turning and seasoning your food – without any mess or spills.

## Self Cleaning (Pyrolytic)

A Pyrolytic system keeps your oven neat and clean without any time-consuming scrubbing. It heats the oven cavity to burn off any grease and residue left from cooking, leaving only a few ashes to wipe away.

## Cleaning (Catalytic)

Imagine an oven that cleans itself while it's working. With Catalytic cleaning the food remnant tray collects grease and residue and chemically dissolves them, so your oven is always clean.

# Oven Accessories

Samsung Oven Accessories make life in the kitchen much easier, by providing more practical, professional and convenient ways to cook, so you always achieve the best possible results.

### Baking Tray (20mm)

The 20mm Baking Tray is ideal for cooking cakes, cookies and other pastries. With the slanted side to the front you can easily slide them off.

### Baking Tray (30mm)

The 30mm Baking Tray can be used for cooking cakes and pastries or for roasting. Insert the wire tray and it will collect melted fat or meat juices, so they don't go all over the oven.

### Extra Deep Tray (50mm)

This 50mm Extra Deep Tray is great for roasting large portions of meat, especially if they create a lot of fat and juices. With the wire tray inserted it will also prevent any liquids from dropping onto the bottom of the oven.

### Telescopic Rail

Using the Telescopic Rail you can quickly slide food out of the oven, so it's easy to check or take out without having to bend over so much or risk getting close to the hot oven. Using it is easy – just slide out the Telescopic Rail at the level you want, place the shelf or tray you're using on them and then push it back completely into the oven.

### Meat Probe

When you're cooking a large piece of meat the inside is usually very slow to cook. With the Meat Probe you can quickly measure the internal temperature to ensure your meat is properly cooked. Just stick the probe into the meat and it shows the temperature.

## Wire Rack

The Wire Rack is ideal for grilling, roasting or baking, especially when you're using tins, casserole dishes or other baking pots, as heat can easily circulate around the base, so food is cooked thoroughly. The bent up side of the frame should be placed at the rear of the oven in order to provide extra support when cooking large amounts.

## Wire Inlay

When combined with the Baking Tray the Wire Inlay is great for grilling or roasting meals and can also be used to prevent liquids from dropping onto the bottom of the oven.

## Rotisserie Spit

With the Rotisserie Spit you don't have to continually turn over food, like chicken, that you're grilling or roasting. Instead it ensures that food is always cooked evenly. The Rotisserie Spit can only be used in single mode on Level 3 shelf, because it needs to be attached to an adapter on the back. And please remember to remove the black plastic handle while cooking.

## Steam Tray (12L)

The Steam Tray helps retain steam, so steaming food is much faster and more economical. The glass lid can also be turned upside down and used as a dish for roasting or baking. The Steam Tray is only for use with the Steam Cook function and should be placed on the Level 1 shelf, so that it touches the rear of the oven. It consists of 4 parts: glass lid, metal pan, steam tray and steam nozzle.

SAMSUNG
SAMSUNG

# Compact Oven

Samsung Compact Ovens are small in size, but big on result. Despite their compact design they boast a 50L capacity, which is more than capable of handling multiple dishes - and even the holiday turkey! Add in their speed and steam cooking abillities and they really are a great choice for a busy home.

11:30AM

watt

# Full touch TFT-LCD Display

A 4.6" full-touch TFT LCD display offers a much simpler and easier way to cook – exactly how you want to. You can select and control a range of functions and settings, such as cooking mode, temperature and time, with the simple touch of your finger. And it also gives you plenty of useful information to help you cook like a professional.

# Features

## Compact Oven

### Speed Cooking
Speed Cooking cooks food deeply and evenly. It also features multiple heating systems, including a fan-assisted convection that circulates heat evenly.

### Guide Lighting Control
The Guide Lighting Control is a digital dashboard that acts as a culinary assistant. You can control cooking temperatures and times, select functions and set cleaning options by following the lights on its display.

### A Pre-stop Hinge Door
A Pre-stop hinge door ensures that the door can be quietly and safely closed. It automatically stops at a preset level, so it doesn't shut too quickly and create a loud noise or cause spills or accidents.

### Steam Cleaning
Steam Cleaning lets you loosen and remove food particles and stubborn stains in the oven cavity easily. Simply fill the cup inside the oven with water and it quickly bathes the cavity, so residue can be wiped away.

### Massive 50 Liter Capacity
Massive 50 liter capacity enables you to cook much more or much larger food. You can prepare multiple dishes at once, like trays of cookies, or easily accommodate large items, like a big roast or holiday turkey.

### Dual Fans Convection
Dual Fans spins the opposite directions to spread heat evenly throughout the oven, so all of your dishes are cooked at the same temperature and speed. It also reaches its target temperature faster and is more energy efficient.

# Microwave Oven

## Smart Moisture Sensor

With the push of a button the Smart Moisture Sensor determines the interior air humidity, so the cooking mode and time can be automatically adjusted to ensure meals are always cooked perfectly.

## Browning Plus

The Browning Plus button achieves the ideal texture and color for your food, so it looks and tastes delicious. It increases the cooking time by 30 seconds to brown and crisp food exquisitely with the grill heater.

## Keep Warm

Preparing lots of dishes or a whole meal can be a real juggling act as you need to keep everything warm and ready to serve together. With one touch the Samsung microwave oven's Keep Warm function keeps food at the proper temperature without over-cooking, so it stays deliciously warm and tasty just like freshly cooked food-no matter when you serve it.

## Ceramic Enamel

The durable Ceramic Enamel is easy to keep clean and scratch-free. Its smooth surface can be cleaned without scrubbing and won't discolor over time. It's also highly rust and scratch-resistant, so it lasts longer.

# Models
## Compact Oven

A Samsung Compact Oven is the perfect choice when space is limited, but you like to speed cooking a lot! With a huge 50 liter capacity and speed cooking option you simply don't need anything more.

# Compact Oven Accessories

Samsung Compact Oven Accessories are carefully designed to enhance your cooking life by providing simpler and more convenient ways to cook perfectly delicious food.

### Baking Tray (20mm)

The 20mm Baking Tray is ideal for cooking cakes, cookies and other pastries. With the slanted side to the front you can easily slide them off.

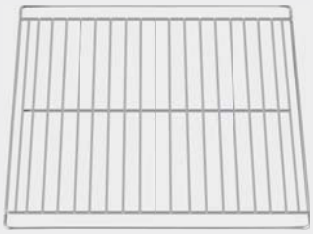
### Ceramic Tray

Specially designed for cooking with microwaves, the Ceramic Tray is extremely robust and scratch-proof. It's also easy to clean and also extremely hygienic as it is made of an anti-bacterial material.

### Steam Tray

The Steam Tray helps you steam all sorts of food, including large items, so that they come out thoroughly and deliciously cooked.

### Wire Rack



The Wire Rack is ideal for grilling, roasting or baking, especially when you're using tins, casserole dishes or other baking pots, as heat can easily circulate around the base, so food is cooked thoroughly. The bent up side of the frame should be placed at the rear of the oven in order to provide extra support when cooking large amounts.

### Wire Tray Insert

When combined with the Ceramic Tray the Wire Tray Insert is great for quickly cooking meals when using the Microwave mode.

# Microwave Oven Accessories

Samsung Compact Microwave Oven Accessories are carefully designed to enhance your cooking life by providing simpler and more convenient ways to cook perfectly delicious food.

### Crusty Plate

Worried about how to use the pizza leftover from yesterday? The Samsung Crusty Plate heats frozen foods, such as pizza, so it tastes just like when it was originally cooked. This amazing feature ensures a tasty and crispy texture for perfect results every time.

### Steam Clean

The unique surface inside the microwave is made of ceramic enamel; a non-stick and highly scratch-resistant surface that also has an anti-bacterial coating. In conjunction with the Steam Clean system, bacteria and food particles can be wiped away easily, keeping your oven hygienically clean.

### Power Steam Bowl

Compared to traditional ones, the upgraded Power Steam Bowl has a round shape with a large space. The special feature of this remodeled Steam Bowl is that the top and bottom levels are separate, so you can enjoy a greater variety of foods without them becoming dry.

### Round Grill Rack

Round Grill Rack can be used to cook two dishes at the same time. A small dish can be placed on the turntable and a second dish on the rack. The metal racks can be used in grill, convection and combination cooking.

# Cooktop

Samsung Induction Cooktop's modern design is complemented by a brilliant Ice blue LED display that adds an extra touch of style. It provides extremely clear and simple to understand information about the selected functions, so it's much easier to control how you cook.

SAMSUNG

# Virtual Flame Technology™

With the Virtual Flame Technology™ you can enjoy the instinctive feel and visual control of flames and clearly see if the burner is on or off. LED lighting is located in front of one burner, which glows like a real gas flame to show how high it is turned up – the brighter the flame the greater the power level of the burner. So, just like a Gas Range, you can enjoy a more intuitive way to cook with the added peace of mind of instantly knowing if burners are turned up too much or have been accidentally left on.

## Intuitive Interface

Virtual Flame Technology™ provides natural and intuitive visual control of the cooktop as LED lighting located in front of the burner glows like a real gas flame.

## Interactive Cooking

Unlike conventional induction cooktops, you can quickly react to the power level with Virtual Flame Technology™, allowing you to enjoy a more interactive cooking experience.

## Safety Measures

LED lighting that glows in accordance to the power level not only prevents accidental burns, but also allows you to instantly check if the burner have been left on.

# Features

## Induction Cooktop

### Magnetic Knob

A movable Magnetic Knob lets you control the power of each ring more simply and precisely. It can be completely detached, so the entire surface can be cleaned more easily.

### Auto Connectivity

The hood also wirelessly connects to the cooktop, so they turn on and off together. You can also remotely control of hood through mobile. (Power on/off, fan speed control, lamp on/off).

### Flex Zone Plus

Flex Zone Plus is a large, open space on the cooktop that is specially designed for cooking multiple dishes. It is divided into 4 zones for greater flexibility and is wide and spacious enough to accommodate different sizes and shapes of cookware at once or cook large meals.

### Ice-blue Display

The modern and brilliant Ice-blue LED Display provides extremely clear information about the selected functions, so it's easier to control how you cook. It also adds an extra touch of style.

### Wi-Fi Control

You can remotely check the cooktop to see if any burners have been left on or to set the timer.

### Keep Warm

The Keep Warm button is handy for when you're preparing several dishes, as it lets you keep your food at the perfect temperature without overcooking. Your food will taste freshly prepared.

### Quick Start

The Quick Start button reduces the number of steps and time it takes to start cooking by providing high heat instantly with simply one touch. The heat can be gradually reduced, if desired.

### Pause

The Pause button provides greater convenience by allowing you to switch all cooking zones to a low power setting with just one touch. Just touch it again to instantly return the heat to original power levels.

### Sliding Control

The extra wide and intuitive Sliding Control LED display panel enables fast and precise control of your cooking temperatures. Simply touch and glide your finger across it to instantly set or adjust the heat levels.

# Ceramic Cooktop

## Easy To Clean

With the Samsung Ceramic Cooktop there's no need to worry about messy spills and splatters. Even after the greasiest cooking, the smooth, ergonomic surface will quickly wipe clean.

## Sliding Control

Enjoy effortless control of your cooking using the Sliding Control panel. Simply touch and glide your finger across the panel to instantly and precisely set or adjust the cooking temperature.

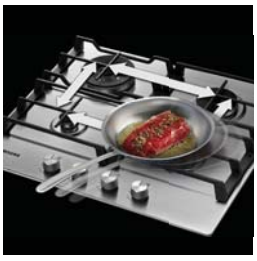
## Automatic Safety

Enjoy complete peace of mind with an automatic safety shut-off function that ensures that the cooktop is always off when you want it to be. It also features a child safety lock to prevent children from turning the cooktop on.

# Gas Cooktop

## Triple Crown

Cook every dish perfectly with a Triple Crown gas burner, which produces searing, instantaneous heat, so it's ideal for woks, large pans and rapid cooking like making stir fry.



## Endless Rail Grate

Even the heaviest pots and pans will slide along seamless rails, eliminating the need to lift them. Simple indicator marks also show if they're properly centered over the optimum heat. And the whole grate can be easily cleaned in a dishwasher.

## Flame Failure Safety Device

There's no need to worry about gas leaks, as the automatic shut-down sensor provides instant protection if any stray gas is detected.

# Models
## Induction Cooktop

# Gas Cooktop Accessories

## Wok Support

The circular Wok Support ensures your wok is always in exactly the right place,
so that heat is quickly and evenly distributed, and you can enjoy delicious stir fried food.

SAMSUNG

# Hood

Samsung Hood brings pure convenience to your kitchen. With their high suction power and choice of speeds they will quickly, quietly and efficiently remove steam, vapor and smoke - even if you should burn the toast. And a carbon air filter also eliminates bad odors, so your kitchen always smells fresh.

SAMSUNG

# Power Ventilation System

Proper ventilation is essential to a comfortable and healthy cooking environment, so a near-silent Power Ventilation with Booster system refreshes the air in a flash. Its 729 cubic meters an hour suction capacity gets rid of steam, fumes and odors from the kitchen extremely quickly and quietly.

# Features

## Power Ventilation System

Ensure a comfortable and healthy cooking environment with proper ventilation. A near-silent Power Ventilation System refreshes the air in a flash. Using the Booster, it has an amazing 737 cubic meters an hour suction capacity. So it gets rid of steam, fumes and odors extremely quickly and quietly.

## Auto Connectivity

Save the time and effort of controlling the hood and cooktop seperately. Auto Connectivity* wirelessly aligns and shows their status. It allows you to control the hood using the one-touch controls of the cooktop. You can instantly turn them on and off together and enjoy the ultimate in convenience

## Auto Sensor

Enjoy a pleasant cooking environment without having to control the hood. An Auto Sensor* optimizes the ventilation speed by sensing the wapors from the cooktop. It also keeps the fan working for 10 miniutes to remove any residual fumes. So you never need to worry that it's working at the right speed.

## Premium Design

Upgrade your home and create an elegant modern looking kitchen. The Premium Design has a slim profile and striking black stainless steel finish. Its will harmonize well with your kitchen furniture and other appliances, including Samsung products. So it creates a seamless and streamless and streamlined look.

## Washable Aluminum Filter

Make sure that your hood delivers a powerful ventilation performance for longer. A durable and easy to maintain Aluminum Filter captures oil and dust before it clogs the motor or hinders the airflow. It only needs cleaning every 3-4 weeks. And it is washable and small enough to go in a dishwasher.

## Touch Control

Enjoy much simpler control with the Touch Control. The bright LED panel is clear and easy to read. It also has the same intuitive touchscreen control as a smartphone. So you can quickly adjust the settings with a gentle touch. And its stylish and exclusive look will enhance your kitchen.

* Only available when used in combination with a Samsung cooktop

SAMSUNG

# Models

Perfect for almost any space, a Samsung Hood is designed to keep your kitchen cleaner and fresher. They quickly remove smoke and steam, as well as any lingering odors.

- Stainless Steel
- Button Control
- 392m³/h Suction Power
- 2 Bulb Lighting Lamp
- 3 Speed Extraction Modes
- Washable Aluminum Metalic Filters

**Included accessories:**
- Charcoal Filter

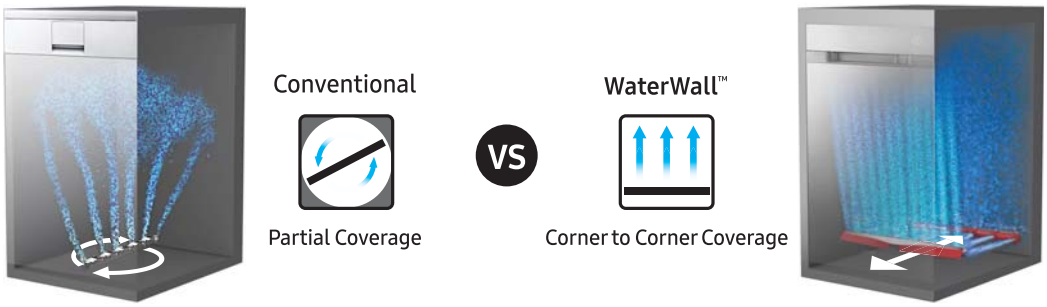
# Dishwasher

Life couldn't be easier or simpler than with a Samsung Dishwasher. Engineered with Samsung's advanced technology, it provides a never before seen cleaning and drying performance, as well as superior energy efficiency and low noise. And it also has a large, flexible capacity so you can simply do a halfload if there's not much to wash.

FlexTray
WaterWall

# Waterwall™ Technology

The Samsung WaterWall™ dishwasher perfectly cleans all of your dishes from corner to corner even if they are heavily soiled. WaterWall™ technology creates a high pressure wall of water that glides back and forth, so there are no more missed dishes or leftover dirt.



Unlike conventional circular water jets, the first-of-its-kind spray bar moves back and forth to create a sweeping wall of water, eliminating the need for time-consuming and water-wasting pre-rinse. It harnesses the power of high-pressure water to cover hard-to-reach places in the bottom rack.

# Features

## WaterWall™

WaterWall™ technology cleans every dish in every corner, without wasting time or water on pre-rinsing. It provides a revolutionary cleaning performance by creating a sweeping wall of high pressure water that covers the hard to reach places in the bottom rack, where you often put the dirtiest dish.

*The Products in the video may vary by region.

## Zone Booster™

The Zone Booster™ area removes stubborn leftover food effectively. Unlike conventional dishwashers, it's the industry's widest targeted cleaning zone with 5 nozzles on the left, as well as 3 more on the right. So it gets rid of stuck-on remains and cleans really dirty dishes in a single wash.

*The Products in the video may vary by region.

## Air Flow Drying with Auto Open

Enjoy sparkling clean dishes every time with the Air Flow Drying with Auto Open feature. At the end of a cycle the door automatically opens to allow steam to escape, giving you better drying results. A fan on the top also creates a protective curtain of air to ensure that your worktop isn't damaged.

## Premium Design

Premium styling that fits seamlessly with your kitchen furniture to enhance your home with a harmonious and modern appearance. Its recessed handle gives the front a clean and flush appearance and, because there is no handle protruding out, it also makes it easier to move around the kitchen.

## Daily 55™ Cycle

A 55" Daily Cycle saves you time by getting your dishes clean and dry much faster. It's ideal for smaller loads of lightly soiled items that don't need really intensive cleaning, such as cups and cutlery, as it will put them through a complete washing and drying cycle within just 55 minutes.

## Easy Load Racking System

An Easy Load Racking System makes it easy to load and unload all sizes of dishes. The tines in the lower rack can fully folded down to make space for large items. And its newly designed wheels move more easily and comfortably. Its height adjustable upper rack can also be quickly raised up or down.

## Wi-Fi Connectivity (Smart Control)

Wi-Fi Connectivity lets you remotely monitor and control what it's doing from anywhere at any time using an App* on your smartphone. You can monitor the progress of a cleaning cycle, remotely turn it on and off, select or adjust the cycles to use and receive diagnostics information wherever you are.

* 'Premium +' model only. App for iPhones & Android. Wi-Fi connection required.

# Models

## Fullsize Dishwasher (Fully Built-in)

If you like to keep things neat then the Fully Built-in Samsung Dishwasher is perfect for you. And despite its large capacity it's extremely quiet, so you might even forget it's there.

### DW60M9550BB

# Samsung Service

Samsung Customer Service is here to help you throughout the lifetime of your appliance. We provide everything from an expert repair service to helpful advice – giving you the level of service you expect from Samsung.

## Repair

When you buy a Samsung appliance you choose reliability and the best in quality. If, however, you require any help, Samsung Service can provide rapid and reliable assistance.

## Online Support

Many common issues can be easily solved with the correct advice. Our online FAQs give you helpful hints and tips to keep your appliance performing at its best.
www.samsung.com

## Contact us

Our customer service advisors are here to help 24 hours a day, seven days a week.

## Register your appliance and warranty

You should register all your appliances and warranties with Samsung to ensure we have full records in the event of any important product updates.

[insert where a customer should go to register their appliance e.g. www.samsung.com]
