SAMSUNG HOSPITALITY DISPLAYS

HF690 SERIES (EU_CIS)

Drive More Powerful and Convenient Guest Engagement with Samsung's HF690 Displays

In today's fast-paced hospitality environments, convenience is key – both for guests seeking immediate access to everything needed for an exceptional stay and for hotel staff seeking more efficient ways to deliver it. Through thorough compatibility and an intuitive design, Samsung's new HF690 displays make it easier for these facilities to delight guests. Backed by the powerful Tizen OS, the HF690 series offers both compelling content and fast access to essential services through customizable, easy-to-navigate menus. Additionally, the displays' reinforced security not only ensures guest privacy, but also allows managers to develop, test and launch web applications for even broader functionality.

HIGHLIGHTS

- Build and launch compatible web applications within the powerful Tizen OS
- Maintain impactful, secure content performance via the integrated H.Browser
- Simplify operations for guests and staff through a tailored home menu
- Develop and share personalized content through the centralized LYNK REACH 4.0 server
- Manage multi-display networks more efficiently via LYNK HMS Server connectivity

SAMSUNG

Samsung Hospitality Displays secured by Knox

Application Platform System

POWERFUL GRAPHIC PERFORMANCE WITH ENHANCED SECURITY

Backed by the powerful TIZEN operating system, Samsung's hospitality displays ensure secure, seamless delivery of vital hospitality content. The TIZEN OS arms each display with a rigid, three-layer protective structure that provides added defense across the application, platform and system layers. This reinforced security also enables TIZEN's integrated H.Browser technology to successfully render 2D and 3D content and achieve faster upload and response times.

Web App SDK

• HTML5 and Standards Based
• TV Extended Web API
• Light Weight Web Simulator
• Ectensive Tool suite
Utility Tools & Support

• Live Debugging
• Real TV Connection
• Debugging & Profiling
• Tizen Community

SIMPLE, COMPATIBLE WEB APP DEVELOPMENT

Beyond its advanced graphics capabilities, Samsung's H.Browser technology empowers fast and accurate application development from any location. All applications are compatible with, and can be developed and stored within, the TIZEN OS, and are backed by an advanced Software Development Kit (SDK). The platform's Web Simulator and Remote Web Inspector (RWI) tools further refine applications through real-time performance and security testing.

Background Images / Video
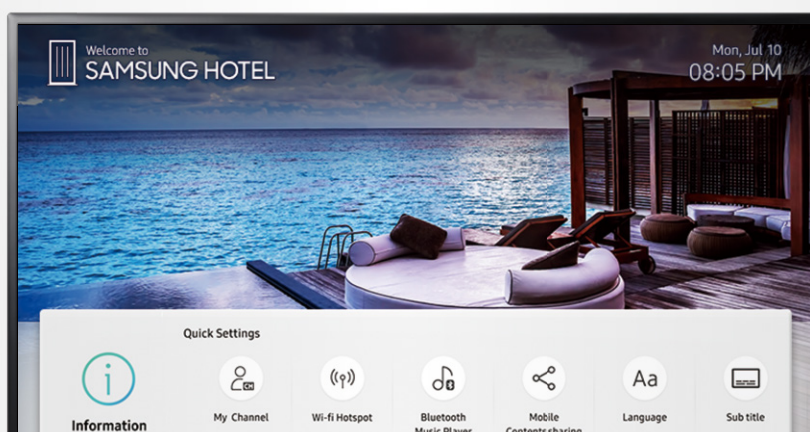

SmoothText Overlay

Customizable &Unlimited Feature Icons

A TAILORED HOME MENU FOR GUESTS

The embedded TIZEN platform also enables hotel managers to customize their displays' home menus to match their unique brand and offerings. This includes unlimited icons in the bottom scroll bar and the addition of customized imagery and logo placement in the background. As a result, managers and guests alike can navigate the interface freely and at improved efficiency.

CENTRALIZED, REAL-TIME MANAGEMENT

As a unified content management solution, LYNK REACH 4.0 accommodates LAN, Wi-Fi, and coaxial infrastructures to amplify hotel management, monitoring and guest service functions. The LYNK REACH 4.0 platform's centralized, real-time monitoring streamlines maintenance demands. Hotel managers can select single display or display groups and troubleshoot guest issues before they escalate.

END-TO-END PERSONALIZED SERVICE

Hotels additionally can use the LYNK REACH 4.0 platform to deliver customized messages to guests relevant to their specific stay details or interests. As guests arrive, hotel operators can greet them with a personalized welcome message while also promoting on-site amenities and promotions. Once the stay concludes, LYNK REACH 4.0 offers express check-out to save guests the time and hassle of a trip to the lobby.
CONVENIENT AND THOROUGH ROOM MANAGEMENT

Hospitality display users additionally can leverage the displays' integrated LYNK HMS technology to manage room settings and guest-staff communication more conveniently and efficiently. LYNK HMS' Room Management Solution (RMS) streamlines hotel maintenance while offering more detailed visibility into in-room device performance and energy use. The complementary In-Room Control (IRC) Service allows guests to manage lighting, drapes and on-screen content from a single, user-friendly interface.

DELIGHT GUESTS AT A REDUCED COST

Samsung's LYNK HMS technology empowers hotel operators to deliver a pleasant and memorable guest experience in a more efficient, cost-friendly manner. The platform's Energy Management Solution (EMS) adjusts in-room heat and air settings based on guest occupancy and avoids wasting energy on empty rooms. LYNK HMS's Content Management Solution (CMS) streamlines content creation and delivery throughout the hotel, driving more impactful and hassle-free delivery of important messages.
SWIVEL STAND
Customize preferred viewing angle and protect displays with lock-down plates

PLUG AND PLAY
Easily set up and synchronize multiple displays and servers
BLUETOOTH MUSIC PLAYER
Stream music from personal devices directly through the display's speakers
CONTENT SHARING
(MOBILE TO TV MIRRORING, SMART VIEW)
Synchronize with up to four mobile devices for seamless content streaming

SECURITY MODE
Prevent unauthorized external sources such as HDMI, USB and TTX

LYNK DRM
Safe, cost-efficient alternative to hardware-based content protection systems

SOUND BAR COMPATIBILITY
Connect the displays with powerful audio

SI COMPATIBILITY
Save time and effort when connecting with system integrators' set-top boxes
