Corporate Settings

What is Knox Configure?

Cloud-based service that allows businesses to remotely configure a large number of Samsung devices and tailor them to specific business needs

How IT Admins can benefit from Knox Configure

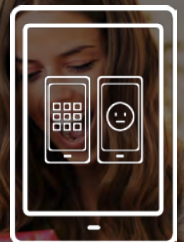

Frictionless Out-of-the-box Setup

- Automate B2B device provisioning and enrollment processes
- Skip unwanted setup steps and dive into work
- Prepare devices to go by changing default device settings

Rebranded Software

- Feature your own logos and animations
- Tailor devices to your brand's identity
- Deploy corporate apps and services with quick access

Purpose-built Appliance

- Turn mobile devices into professional kiosk for business
- Repurpose device UX into specific use cases
- Switch back securely to normal devices whenever you want

Advanced Device Configuration

- Customize a wide range of settings at granular level
- Leverage value-added Knox capabilities for your business solutions
- Keep corporate liable devices up-to-date with latest settings
