# HotBlast™ Smart Oven | Healthy & Smart Cooking

# POWERbot™ | Powerfully cleans the most hard-to-reach areas

### Reduce Cooking Time

HotBlast™ technology reduces cooking times significantly. Powerful hot air is blown through multiple air-holes directly onto the food, so it's cooked evenly with a crispy outside, but juicy inside.

### Evenly Grilled Food

The two innovation wide grill heaters deliver significantly more power, meaning you can enjoy better and evenly grilled food faster.

### Healthier Fried Food

Enjoy tasty golden-brown fried food with Samsung's Slim Fry™ technology. By combining a grill with warm air circulation, food is cooked crispy outside and flavorful inside without additional oil.

### Easy to Clean

The durable Ceramic Inside™ is easy to keep clean and scratch-free. The smooth surface of the ceramic interior can be cleaned without scrubbing and won't discolor over time. It's also anti-bacterial and highly rust and scratch-resistant.

### Powerful Suction. Slim Design.

Designed with a slimmer body without compromising its powerful suction, it can easily get into areas that are difficult to reach using normal vacuum cleaners, like underneath your furniture and beds.

### Efficient Edge Cleaning

Edge Clean Master comes with Auto Shutter that automatically activates and drops down to create a barrier that helps the vacuum cleaner collect more dust close to the edges.

### Scan and Clean Every Corner

High-performance FullView Sensor™ 2.0 precisely scans and cleans every corner, avoiding very narrow or small obstacles across a wide area including areas that it can get stuck in.

### Control Anytime, Anywhere

Let you remotely control the machine using its integrated Wi-Fi function and Samsung Smart Home App® on your smartphone. With a simple touch you can quickly start or stop it, schedule cleaning times anywhere, anytime.

\* Available on iPhones and Android devices. A Wi-Fi connection is required.
