

ELEVATING LIFE WITH TASTE

As busy working adults, many of us find household chores time-consuming and bothersome. That's why we turn to handy home appliances to help us get the job done. SAMSUNG Digital Appliances focus on performance and presentation to offer the best for you and your family.

MAKING TIME FOR WHAT'S IMPORTANT

How many times have you been so tired after work that you're tempted to get fast food for dinner? With the right tools, quick and healthy meals don't have to be a chore. Dishes cooked in the **MC35 Smart Convection Oven** come out heavenly with a crisp skin and juicy core, thanks to HotBlast™ which delivers a downward blast of heat to cook food. Grill foods without the smoke and mess on its PowerGrill Duo, whose extra wide heaters emit more powerful and consistent heat for quicker cooking and even grilling.

For a healthy and delicious meal, keep fresh ingredients within reach. The stylish **Pebble Blue RT43 2-Door Fridge** which comes with the all-around system and deodorising filter cools every inch of the fridge evenly from corner to corner while eliminating food smells and bacteria to preserve the freshness of your food.

You might feel like doing some light vacuuming after dinner. How about getting the kids to help out? More than 60% lighter* in weight and volume than Samsung conventional models for effortless storage and movement, the **VC7000 Motion Sync Vacuum Cleaner** manoeuvres easily thanks to a swivel body that handles sharp turns well. With the Dust Sensor, they'll be able to tell when the floor is clean!

While your kids are occupied with the floors, grab the chance to tackle the burgeoning laundry. The **Activ Dualwash™ Top Load Washer** comes with a built-in sink and side water jet, where you can pre-wash delicate garments before sliding them into the tub. No more heaving heavy loads or risking slipping on a soapy and wet floor! For residue-free clothes, the Magic Dispenser™ dissolves detergent completely before dispensing into the wash.

Thanks to savvy appliances to take care of the household, time can be spent on the meaningful things in life.

ENHANCING THE GOOD THINGS IN LIFE

If you're more tech-savvy, you'll appreciate the intelligence of the **Crystal Blue Washer**. A beauty with a translucent Crystal Blue door, it takes the guesswork out of laundry by auto-detecting how much detergent and softener each load needs. Use the accompanying smartphone app to control your wash cycle remotely while you prepare for that big dinner party.

Even with a huge party of guests, cooking up a storm is made effortless with the **Built-in Dual Cook Oven**. A multitasker that's able to simultaneously cook two different dishes at different temperatures and time settings, it's a huge time-saver. While you're busy entertaining, you can still keep an eye on the cooking progress on the twin ice blue LED display.

temperatures and time settings, it's a huge time-saver. While you're busy entertaining, you can still keep an eye on the cooking progress on the twin ice blue LED display.

Keep beverages and desserts exquisitely chilled with the **Food Showcase Refrigerator**. A gleaming stainless steel door which keeps the fridge cool adds galactic stylishness at the same time, and its innercase compartments are divided into three sections, with the lowest section for kids' easy access. You might want to keep only the healthy stuff at the bottom!

Nobody likes to clean up after a party, but powerful appliances will make the process easier. After the last of your visitors have taken their leave, unleash the **Powerbot Robot Vacuum Cleaner**. Its Visionary Mapping™ maps out the most efficient cleaning route for your floor, and you can also direct it for spot cleaning with a point-and-clean laser beam. With a Digital Inverter Motor that produces up to 60 times** more suction power, count on Powerbot to get your home clean in no time.

POWERbot

With thoughtful features to take convenience up a notch, appliances that ooze style and sophistication are a must in modern homes.
