Why Samsung?

We’d like to tell you a little bit about Samsung – where we came from, who we are, and where we’re going. It’s a story we are proud of, and it’s a story we are proud you want to be a part of too. Our people have taken us to where we are today, and what we offer in return is the support and dedication of one of the world’s most successful companies.

‘Samsung’ means ‘three stars’ in Korean. The name was chosen by our founder, Lee Byung-chull, whose vision for the company was to become as everlasting as the stars in the sky. We have always had big dreams.

Today, more than ever before, we live and work in a connected world – by 2020, there will be five connected devices for every human being on the planet*. As the world’s largest manufacturer of these devices, and the leading provider of wireless systems to connect them, we know what a network needs to deliver.

From where we stand and look to the stars, we see infinite possibilities for our connected world, and we know we are in the best position possible to take advantage of this opportunity.

Samsung offer a wide range of innovative technology covering key categories including air conditioning and digital appliances, display, mobile and television, whilst offering unique USPs such as Samsung Capital Finance, which provides you the opportunity to lease rather than purchase all of these appliances together with installation costs.

Samsung’s Managed Service, offers clients a long term, hassle free, service provision covering both pre install needs including product training and on-site inspections through to a full, post install resolution, all managed through our UK Call Centre.

From noodles to oodles

Samsung began by selling noodles out of a shop in Daegu, Korea, in 1938. Since then, we have grown to become the 12th largest company on earth by market value*, being rated this year as 6th on the Interbrand list of Best Global Brands. Not only does our product range include smart phones, the world’s first commercial 8K TV and our unique domestic appliances which you are so familiar with, but did you also know that we’re the 3rd largest ship builder globally and built the world’s tallest skyscraper, the Burj Khalifa, in 2009?

It’s been an incredible journey and we have no intention of stopping. Our ambitions are simple – to create the best products and services in the world, and to provide satisfaction to all our customers. We do this ethically and faithfully, with care and respect for humanity and the planet. In 2017, 94% of new products were designed to be eco-friendly, over 92,000 tons of products were recycled in Korea alone, and greenhouse gas generation in the product use phase was reduced by over 200 million tons. The list goes on… If you want to hear more about our efforts to reduce our footprint, take a look at Samsung Sustainability online.

It’s important to know that we never give up: when we set a goal, we achieve it. We are caring, considerate and committed, and we support our people to achieve our goals. Our products are designed and produced to make people’s lives better, easier and more enjoyable through the technology we have created and the people we have nurtured.

Samsung Electronics was founded in 1969 and is now one of the leading tech companies in the world. Our technology facilitates and enhances lives, giving our customers the time and space to pursue their own goals and lead the life they want to live. From our smart phones, to our home appliances, to the technology we provide to hospitals in order to improve patient experience and speed of care, it’s clear we are an innovation-focused company with a goal to make use of technological advances for the greater good.

No story is complete without the people involved, and our people make us who we are. Founded in 1938 by Lee Byung-chull, the company grew swiftly from the start. In 1993, then Chairman Lee Kun Hee introduced the concept of ‘New Management’ with the now famous instruction ‘Change everything except for your family’. Since then, the company philosophy has been a commitment to product quality, and the company has not looked back. In 1995, Lee Kun Hee piled up and destroyed 150,000 phones and fax machines in front of 2,000 employees to show that a lack of quality was not acceptable. Since then, all Samsung products have been designed and built with an emphasis on their whole-life environmental impact.

When Samsung does something, we do it seriously and we do it at scale.

Samsung in numbers:

• ⅓ of the mobile phones sold in the world are Samsung models
• Samsung employs 320,000 people in 73 countries
• Revenue in 2017 was US$222.8bn
• Samsung is the 12th largest company in the world by market value of US$325.9bn**
• 100% of products receive global environmental certification
• Samsung has a market capitalisation of US$326bn

This is how we ‘Inspire the world, create the future’. Our goals, and our support for our people, are unlimited. We have a system for success, and the Samsung Kitchen Circle is a major part of this.

Samsung Capital

We’re renowned for our innovative Technology. Why should our financing solutions be any different?

At Samsung, we believe that every business should have access to the technology they want, today. To complement our range of innovative and reliable appliances, we offer flexible finance packages to suit our customers' needs. Offering in advance the ability to refresh our new market-leading products as your business needs change.

By providing your customers access to the latest technology, you will help deliver the best experience possible for them. If ever anything was to go wrong they are supported by our fantastic customer service teams who will strive to resolve any issues as quickly as possible and within pre-defined SLAs.

For more information on how this would work and the options we offer please contact: Funding.UK@Samsung.com

Cooling/Heating

In 1974 Samsung introduced its first air conditioner. Since then, Samsung have provided cutting-edge innovations in climate-based initiatives, as well as lasting digital connectivity solutions in the domestic, light commercial and commercial markets.

Cooking Appliances

Samsung appliances make cooking both very easy and very satisfying. Whether you’re warming up leftovers, rustling up a ratatouille or having guests over for dinner, our thoughtful innovations and stylish design make cooking a pleasure.

Display

At Samsung we don’t just make cutting-edge display technology, we help businesses find and adapt bespoke solutions that enhance performance, design and entertainment in the age of digital transformation.

SmartThings

Make your smart appliances work for you with SmartThings, an easy to use app for a safer, more connected home. Connect, Automate and Manage all your Samsung and SmartThings-compatible appliances and electronics in one place, giving you control, in or away from the home.

Home Appliances

Samsung’s stunning home appliances have been designed to look great in your home and provide that bit of innovation to make your life easier. From advanced cooling technology that keeps your food fresher for longer to dishwasher cycles that leave your dishes spotless, we’ve thought of it all.

TV & AV

TV and AV should feel part of your home and your life. A place to gather, play, relax and savour the very best viewing experience. From the quality of its picture, to the elegance of its design, our QLED TVs defy convention, pushing the boundaries of what is possible and what a TV can be.

It’s time to stop watching TV and start experiencing QLED with the perfect partner of AV to match.
Samsung Cooking Appliances

Meet the game-changing ovens that will transform the way you cook for good. Our Dual Cook and Dual Cook Flex™ will let you rustle up different dishes at different temperatures at the same time – in one oven. And self-cleaning technology, making cleaning up that little bit easier.

Ovens

Dual Cook Flex™ technology
A hinged, Flexible Door gives you the choice to access the full oven or just the top half, without interrupting what’s cooking below. It’s our most flexible oven yet. So say goodbye to mealt ime dramas.

Dual Cook technology
Give yourself complete flexibility with upper and lower cooking zones that can be used independently with different temperature and time settings. With no transfer of smell or taste you can cook your chicken in the top and bake your cookies in the bottom at the same time.

Auto Cook recipes
A clever function designed to expand your culinary skills in an instant. Up to 40 Auto Cook programs will help you achieve great results when cooking your favourites and give you peace of mind that you haven’t left it on for too long or at too high a temperature.

50 Litre Large Capacity
Whether it’s a large turkey, casserole dishes or several trays of cookies, with a 50-litre capacity you can cook more of what you want when you want.

Dual Fan
Say goodbye to mealt ime disasters. Two powerful fans get the oven hot fast, then circulate heat nice and evenly. With every meal thoroughly cooked, there’ll be no surprises when you dish up.

Steam Cleaning
An easy way to help keep your oven clean. Just pour water into the bottom of the oven, close the door and select the steam clean programme. Once finished, simply wipe away any residue with a cloth and the interior is as good as new.

Combi Ovens

Warming Drawer
Match the Warming Drawer with selected Combi Ovens to keep food at the perfect temperature until ready to serve.
Dual Cook Flex™ Oven NV75N7671RS, Combi Oven NQ50J3530BS, Warming Drawer NL20J7100WB

Dual Cook Flex™ Oven NV75N7677RS, Combi Oven NQ50J3530BS, Warming Drawer NL20J7100WB

Dual Cook Flex™ Oven NV75N7571RS, Combi Oven NQ50J3530BS, Warming Drawer NL20J7100WB

Dual Cook Oven NV75K5571RM, Combi Oven NQ50K3130BM
Samsung Cooking Appliances

There’s so much more to Samsung hobs. Bringing you flexible ways to cook, supercharged heat, extra control and added safety, you’ll be all set to whip up your best meals yet. And for whatever shape or size kitchen you have, our stylish, powerful and quiet range of wall mounted hoods can take your cooking experience to a whole new level.

**Induction Hobs**

**Virtual Flame Technology™**

Gentle simmer or full-on boil? You’ll feel like you’re cooking on gas with Virtual Flame Technology™. Flame-like LED lighting shows you how hot the ring is, making rustling up dinner simpler and safer.

**Flex Zone Plus**

One hob... four flexible zones. Flex Zone Plus fits different pot and pan sizes and distributes heat flexibly giving you more cooking options. Cook a whole trout in that big steamer one day, then use smaller pots for that complex recipe the next.

**Hoods**

**Auto Connectivity**

Now you don’t need to remember to switch your hood on. Thanks to auto connectivity* on your hob, the hood turns on as soon you start cooking. Handy.

**Power Ventilation System**

Some cooking smells linger more than others. This extra powerful extraction shoo’s away even the most pungent odours, to keep your kitchen smelling fresh.

**Full Touch Display**

Stay in control in the kitchen. Our full touch control hood display has a bright LCD panel that’s so simple to use and easy to clean.

*Available on selected models and when paired with selected Samsung hobs.
Samsung Refrigeration

Whether you want freestanding, integrated or American Style, your Fridge Freezer needs to look and act the part. That's why all of ours combine slick design with useful technology.

Smart Fridge Freezers

Shop for groceries, track food expiry dates, get recipes, organise your schedule and even see who's at your door. This is why our smart fridges are called the Family Hub®.*

French Style Fridge Freezers

There's a place for everything in our French Style Fridge Freezers thanks to flexible compartments. With the latest cool technology, you can even switch fridge for freezer during ice lolly season.

American Style Fridge Freezers

Big inside, stunning outside. Stacked with features like ice makers, water dispensers, individually cooled zones and frost-free technology. These American Style side-by-side Fridge Freezers have become so desirable.

Classic Fridge Freezers

With a Samsung Classic Fridge Freezer, you'll be surprised by how much room is created through the streamlined insulation and cooling technology.

One Door Fridges and Freezers

Our One Door Fridges and Freezers have bags of capacity. All round cooling makes every inch work hard, while flexible shelving and compartments let you find everything easily.

Integrated Fridge Freezers

Sometimes you just want a fridge to blend into the background. Our range of integrated Fridge Freezers slot tidily into your fitted kitchen. Behind their understated façades, there's top-of-the-range design and technology working hard to keep things cool.

*Requires SmartThings app, available on Android and iOS. Registration and Broadband/Wi-Fi/3G/4G access required.
Samsung Washer/Dryer Machines

Getting loads washed and dried is quick, gentle and kind to the environment, with these miracle multi-taskers. And you’ll love how your washing comes out soft, fresh and good to go.

Washer Dryer

There’s not much these speedy Washer Dryers can’t do. Wash and dry your favourite outfit in less than three hours. Then there’s ecobubble™ technology for washing cooler and saving on your bills, AddWash™ for popping washing in mid-cycle**, and QuickDrive™ for cutting your washing time by up to half*.

Tumble Dryer

A Tumble Dryer is a must for busy households. Our Tumble Dryers protect your clothes as they dry, so no need to worry about snagging your favourite top. As well as drying your clothes gently, they’re gentle on the environment and your wallet too as Heatpump Technology offers a more cost-effective and gentle way of drying clothes. Plus, with an A+++ rating being the best possible energy rating for Tumble Dryers, you know this appliance will save you money. And as clothes come out with less wrinkles, there’s less ironing too.

Samsung Washing Machines

Life doesn’t always go to plan. So Samsung home appliances have tons of brilliantly useful innovations to power through your washing in smart, fast and kind ways.

QuickDrive™

Just when you think Washing Machines can’t get any better, we bring you our fastest, smartest and most eco-friendly range. Cut your washing time by up to half* and still get the ultimate clean.

AddWash™

Open the innovative door to quickly drop in anything extra during the wash** – whether that’s a stray sock you missed, extra softener, or a hand-washed garment for final rinsing.

ecobubble™

Our efficient technology mixes air, water and detergent to create bubbles that penetrate your clothes faster, helping you wash at cooler temperatures. Better for the environment and your bills.

Samsung Dishwashers

Loaded with slick technology, our dishwashers clean dishes like never before. From quick, everyday loads to clearing up after a dinner party, you can guarantee everything will be spot on and spotless.

Rotary A++ Dishwasher

With 5 wash programmes to effectively wash different loads, this dishwasher also has a height adjustable upper rack and fold-down tines so you can fit in any combination of dishes. On top of this you have the Half Load option and Express Wash giving you clean dishes in no time.

Slimline Dishwasher

Tight on space? This slim dishwasher is perfect for compact kitchens. But it doesn’t fall short on brilliantly useful features. From 9 place settings and flexible loading, to 6 wash programmes for different types of washing up. You’ll be amazed how much it packs in.

*Samsung QuickDrive™ in Samsung WW8800M (4kg, 60°C) Cotton wash. **AddWash door can only open when the drum temperature is below 50°C.

**AddWash door can be opened at any time when the drum temperature is below 50°C.
Samsung TV & AV

With a picture that’s bigger, brighter and more life-like than ever before, Samsung are leading the evolution of Home Entertainment. Welcome to the 2019 QLED TV range – advanced TVs that bring your favourite shows beautifully to life. And that’s not all. To perfectly complement the QLED range, Samsung’s Soundbars take your sound quality to the next level, designed and engineered by Samsung, tuned and perfected by Harman Kardon.

**True 8K Resolution**
See the bigger picture and not the pixels with 4 times the resolution of 4K. Get closer with enhanced colours, texture and skin tones that makes every seat the best in the house. Using machine learning, the technology is able to rapidly compare the image data it is receiving with millions of picture formulas that are stored in its ever updating formula bank. It then recreates the image texture, edge definition and level of detail at a much higher resolution of up to 8K.

**8K AI Upscaling**
Enjoy everything you watch in glorious 8K resolution – even if it’s not filmed in 8K. Using machine learning, QLED 8K is able to rapidly compare the image data it is receiving with millions of picture formulas that are stored in its formula bank. It then recreates the image texture, edge definition and level of detail at a much higher resolution.

**HDR 4000/2000/1500/1000**
See incredible depth and detail in everything you watch. Discover what’s lurking in the shadows of a horror movie or witness the true beauty of a sun filled scene in pin-sharp clarity. With the highest brightness levels of any TV to date and with every frame optimised to perfection, the picture you see is as detailed as it is in the real world.

**Direct Full Array**
Exceptional viewing in all conditions with precise, pin-sharp contrast across the whole screen. Make every moment unmissable with pixel perfect contrast, deeper blacks and captivating colour, thanks to precise backlight technology.

*HDR 4000: The range of Quantum HDR claims luminance based on internal testing standards and is subject to change according to viewing environment or specific conditions. HDR 4000 available on the 85Q950R & 75Q950R. Direct Full Array: Direct Full Array numerical index based on backlighting, anti reflections and contrast enhancement technologies.*
Welcome to the future of sound from Samsung. With engineered acoustics and cinematic sound custom-generated for your unique living space, we’d like to introduce the Samsung soundscape. Reality has never sounded this good.

Q-Series Soundbars

Samsung Q-Series Soundbars are the perfect complement to the QLED range of TVs. Take your sound quality to the next level with a Q-Series Soundbar designed and engineered by Samsung, tuned and perfected by Harman Kardon. With a range of quality Soundbar offering object-based sound from Dolby Atmos or directional sound delivered through Samsung’s unique Acoustic Beam technology.

Not a murmur, just an array of powerful, precisely distributed speakers ready to deliver pure sound exactly the way you want it. Exceptionally dynamic sound for an extraordinarily dynamic gaming experience.

The Q-Series – the perfect soundscape from Samsung.

Designed and engineered by Samsung, tuned and perfected by Harman Kardon.

Together our engineers push boundaries to deliver the best possible sound performance in your home. Samsung’s class leading technologies with Harman Kardon’s 65 years of audio expertise create stunning soundbars that truly immerse you in an incredible surround sound experience.

*HW-Q90R Soundbar*
Samsung Display

Samsung’s advanced technology in Display solutions has generated an impressive and vast range of options to fit individual business needs. A proven partner throughout the journey of implementing and maintaining bespoke solutions with the latest technology, Samsung is there to improve your business and ensure efficient use of the display solutions required.

Digital Signage

Digital Signage transcends the conventional viewing experience through realistic and compelling content. Backed by best-in-class picture quality, these displays bring creative ideas to life, and enable businesses to deliver refreshing content that engages, informs and entertains.

The Wall

Step into sophistication with stunning visual experiences. The Wall is the ultimate display for any luxury residence - personalised to fit any environment while blending perfectly with your décor and personal style.

Gaming Monitors

Samsung Gaming monitors provide you an unparalleled gaming experience. The CRG9’s 5120 x 1440 Dual QHD resolution provides a super ultra-wide aspect ratio that lets you view more content in super fine detail. With screen space equivalent to two 27-inch QHD displays side by side, the 49-inch curved monitor delivers a wider view for winning play.
Outstanding climate solutions for the home

Hydro Units – Air to Water Heating (EHS)

Air to Water Heating: Samsung’s Air Source Heat Pumps (EHS) use efficient heat pump technology to deliver supreme comfort and low operating costs. This solution has (far more efficient than fossil fuel boilers) supplies your home with hot water and heating while making a limited impact in the environment.

Tenant Management & Running Costs

The Samsung DMS (Data Management Server) 2.5 enables you to manage and control a network of up to 256 indoor units throughout a property estate from afar. The DMS 2.5 is even smarter than before with newly upgraded functions that can automatically manage your property climate systems for you, create running cost data per apartment to correctly bill services to tenants and includes remote diagnosis of any potential issue.

Smart Connectivty

The SmartThings App provides a simple interface to program time schedules and control your heating, hot water and cooling systems from afar via your smart phone. Its geo fencing function uses your current location to ensure the correct climate has been achieved just as you walk through the front door.

Future proofing heating solutions

Samsung EHS systems are Smart Grid Ready and PV enabled. Smart Grid compatibility enables users to benefit from an economically efficient and sustainable power supply. The PV enabled feature permits the system to be connected to a Solar Panel power source, saving energy through renewable sources.

Supreme comfort with Wind-Free™ Cooling

Wind-Free™ cooling gently disperses a gentle flow of air evenly via thousands of micro holes, cooling the room gradually and eliminating draughts. Wind-Free™ technology has been incorporated within a number of different air conditioning models and unit styles.
SmartThings helps you get more out of the products in your home, from controlling your lighting, scheduling your laundry or monitoring your home. SmartThings comes built into Samsung’s flagship products, and most new products in 2020, meaning you can connect, automate and manage all your Samsung and SmartThings compatible products in one easy-to-use app. Giving you control in or away from the home.

The SmartThings platform is open, working with most of the UK’s leading smart brands and products to make your life easier, more secure and more entertaining. Using these devices is simple with a single, easy-to-use App on iOS or Android, or by using any leading voice assistant. However, the platform doesn’t compromise on security for openness, using Knox, Samsung’s leading highly secure platform to protect your data.

SmartThings also has its own range of smart Sensors, Cameras and Plugs so you can add a little smartness to your home and get a little more peace of mind. Receive security notifications, detect water leaks, or schedule your lights to come on when you’re out and about.

This is smart living made simple.
A closer look at our heroes

We are immensely proud of our flagship products, built around convenience, style and efficiency. With built-in innovation offering multiple solutions to everyday problems, our heroes give people more time to spend on themselves. Whoever the customer, whatever their lifestyle, our innovative features make life simpler.

Dual Cook Flex™
One flexible door. Two temperatures. Endless cooking combinations.

This unique oven allows cooking at two temperatures. With a hinged, flexible door providing an option to use either the whole oven or just the top half, you can pop a soufflé on the bottom shelf and cook meat separately without compromise. Suddenly, dinner parties are stress-free. When such a simple innovation makes life this much easier, it makes you wonder why it hasn’t been done before.
Family Hub™ Refrigerator
Connected living

Our Family Hub™ refrigerator brings innovation to consumers with the aim of making personal lives easier and connecting families. The integrated touchscreen places the Family Hub™ at the heart of the home, helping families to...

• Keep in touch from anywhere with the calendar and notes function
• Source recipes from a variety of websites
• Price compare recipes across supermarkets
• Order food directly from the fridge
• See who's ringing the doorbell**
• Order a cab or takeaway

...The list goes on!

Sometimes the smallest of innovations can make a huge difference. With internal cameras to take a picture whenever the door closes, consumers can see what’s in their fridge wherever they are via the SmartThings app*, so they no longer need to hazard a guess at whether there’s enough milk in the fridge.

Let’s be honest, it doesn’t get much more flagship than this.

*Available on Android and iOS. Registration and Broadband/Wi-Fi/3G/4G access required.

The Wall

Elevate your business space with our new luxury and bespoke multimedia display.

The Wall is a new innovation in multimedia technology – a large-scale bespoke display, built to your own specifications and made-to-measure for any space. In the home, it blends perfectly with your décor, acting as an extension of your own personal style. With bold, stunning visuals, it creates the most inspiring multimedia entertainment.

For business, The Wall is a technological masterpiece that helps enhance your brand while captivating and inspiring employees, customers and partners. It’s a true one-of-a-kind on your wall, welcoming you to a new world of limitless experiences.

360 Cassette

Style. It’s in the air.

Samsung’s 360 Cassette offers a stylish approach to comfort as the world’s first circular air conditioner. The circular cutting-edge design effectively and evenly discharges cool air to obtain optimal comfort, while fitting seamlessly into the design of any space. Due to its bladeless design, the velocity of the discharged air remains unaffected which results in an absence of cold drafts.
The partnership will see over 7,000 rental apartments built at the iconic Wembley Park, each equipped with our latest hobs, washer-dryers and more.

This exciting new development includes a range of apartments which require different appliances based on space and properties of the future. Samsung partners with developers to build speci

Thanks to greater diversity of homebuilders and new construction methods, not only is there an expectation for developers to deliver stylish and streamlined designs, but residents are also looking to invest in state-of-the-art technology that offers efficiency and clever solutions for their every-day needs.

With Samsung’s product portfolio including everything from intelligent kitchen appliances, to cutting-edge TVs, to effective air conditioning units, an entire property can be fitted seamlessly. Stand-out products include Samsung’s Family Hub™ Fridge, a revolutionary product that makes food management simple through smart features such as a WiFi-enabled touchscreen and in-built cameras. Meanwhile, Samsung’s Dual Cook Flex™ Oven is a valuable space-saving solution for streamlined kitchens which can cook at two separate temperatures.

Samsung’s latest connected appliances have been fitted into over 25,500 rental apartments through their partnership with Quintain, Moda Living and Future Generation, helping to future-proof homes across the country. As Samsung has been involved from the start of the building process with each development, they have developed bespoke product offerings to suit both the needs of residents and different property builds. We recognise that all developments require different timescales for product scheduling. Working very close with our developer clients and project managers Samsung provide both efficient and to end supply across our appliance contract portfolio.

Developers will enjoy a seamless streamlined experience, with Samsung offering a consistent long-term product and price commitment across appliances for all rooms. Each apartment will be fitted with Samsung appliances valued over £1,500, including the Dual Cook Flex Oven™, Fully Integrated WaterWall™ Dishwasher and the ground-breaking Family Hub™ Fridge, which sets a new standard for connected living.

With a specialist team and large-scale investment dedicated to Research and Development efforts, Samsung is committed to developing the most advanced products that enhance consumers lives and will refresh residents’ appliances every three to seven years to ensure they have the most current product offering.

Not only are Samsung’s product offerings in these apartments some of the most innovative on the market, but they also offer developers flexible finance packages to suit their needs through the unique Samsung Capital Finance initiative. Alongside this Samsung also offer a five-year warranty on most appliances and a fast-response customer service team.

With all products refreshed every five years, residents at the iconic build in Wembley will be able to enjoy the most cutting-edge technology in their homes throughout their stay. The Quintain development promotes a connected, inclusive way of living through accessible communal spaces, as well as rooms for hire which feature Samsung’s hero product offerings.

“Thanks to greater diversity of homebuilders and new construction methods, not only is there an expectation for developers to deliver stylish and streamlined designs, but residents are also looking to invest in state-of-the-art technology that offers efficiency and clever solutions for their every-day needs.”

With technology now woven into all aspects of our day-to-day lives, consumers understandably expect higher quality and better efficiency in every purchase that they make. This couldn’t be truer for the property market, where the residential sector has raised the bar with the standard of quality that it offers residents.

Samsung has signed a multimillion-pound deal to become the lead supplier of home appliances for Future Generation, a pioneering developer of student accommodation. With Future Generation completing eight developments across the UK, Samsung Home Appliances will be fitted into 10,000 apartments in cities including Leeds, Cambridge and Hackney-Wick. State-of-the-art appliances include Samsung’s Electric Oven with Dual Cook technology which gives students greater cooking flexibility thanks to upper and lower cooking zones that can be used independently. Also provided, is the Samsung Electric Hob with residual heat indicator, which offers powerful, radiant cooking for quick heat up, smart touch buttons for simple control and a residual heat indicator & child lock for added safety. This is in addition to the Samsung Solo Microwave which offers a quick and easy alternative for students to heat food with minimal effort.

Over the next two years, 70,000 appliances and 10,000 Smart TVs will be fitted into high-spec properties, which have been built specifically with students’ needs in mind, to help better equip them as the leaders of tomorrow.

Andrew Southern, Student Accommodation Specialist at Future Generation commented: “We’re always looking for ways to raise the standard of student living, and make sure our accommodation matches the disruptive and ambitious nature of the young people we are housing.

“Samsung were undoubtedly the best brand to partner with to help us achieve this goal. They create the most advanced products on the market, thanks to the incredible amount that they invest into their research and development work. “We’ve already seen huge success from this partnership, with the familiarity and reliability of the Samsung brand acting as a great pull for students. On the back of this and the great relationship that we’ve built with the team at Samsung, we would definitely work with them again.”

With all products refreshed every five years, residents at the iconic build in Wembley will be able to enjoy the most cutting-edge technology in their homes throughout their stay. The Quintain development promotes a connected, inclusive way of living through accessible communal spaces, as well as rooms for hire which feature Samsung’s hero product offerings.

**Feaspace Technology™**

Creates extra internal capacity but with the same size outside.

**Total No Frost**

Prevents ice build-up, saving you the hassle of defrosting.

**Reversible Door**

Switch the door from left to right without altering your fridge configuration.

**CoolSelect Plus Zone™**

Convert the bottom-right fridge compartment to either an extra fridge or freezer space to suit your needs.

**Twin Cooling Plus™**

Helps keep your food fresher for longer thanks to separate air flows and precise temperature control.

**Auto Water Fill**

Provides an easy way to fill your bottles or jugs with fresh water from your fridge.
**Built-In Fridge Freezers**

**Twin Cooling Plus™**

- Helps keep your food fresher for longer thanks to separate air flows and precise temperature control.

**Total No Frost**

- Prevents ice build-up, saving you the hassle of defrosting.

**CoolSelect Plus Zone™**

- A versatile bottom section that can be switched between a fridge or freezer with the touch of a button.

**Aqua Stop**

- If there’s an emergency, it’s good to know a leak protection system is in place to prevent water damage.

**Express Wash**

- If you’re short on time or have lighter loads, Express Wash powers through them in an hour.

**Hygiene Rinsing**

- Chopping boards to baby bottles – when only the deepest clean will do, there’s Hygiene Rinsing.

### Additional Features

#### Dual Cook
Complete flexibility with independently controlled upper and lower cooking zones.

#### Telescopic Rails
Durable rails that slide out easily and safely.

#### Soft Closing Door
Engineered to close both gently and quietly.

#### Pyrolytic Cleaning
Keep your oven neat and clean through minimal effort.

#### Dual Fan
Professionally fast and even heat.

#### Catalytic Cleaning
Cleans your oven while you cook.

#### Dual Cook Flex™
One flexible door. Two temperatures. Endless cooking combinations.

#### Wi-Fi
Remotely monitor the oven, adjust settings and receive notifications.*

*Requires SmartThings App, available on Android and iOS.

Ceramic Enamel Interior
The exceptionally smooth antibacterial surface makes it easy to clean. It is also highly rust and scratch resistant so it won’t discolour over time.

Auto Cook Recipes
Achieve great cooking results using one of many useful pre-set programmes.

Grill Function
Achieve the ideal texture and colour for your food, so it looks and tastes delicious.

Peace of mind
Selected Samsung domestic appliances come with a 2 year parts and labour warranty as standard.

Warranty
Selected Samsung domestic appliances come with a 2 year parts and labour warranty as standard.

</table>

- **Virtual Flame Technology™**: Uses glowing, flame-like LED lighting to indicate the heat level for precise control.

- **Flex Zone**: Divided into two zones for greater flexibility you can accommodate different sizes of cookware to cook the way you want.

- **Auto Connectivity with hood**: Wirelessly connect the hob and hood for combined control. Turn them on and off together for greater peace of mind.

**Auto Connectivity with hob**

Wirelessly connect the hob and hood for combined control. Turn them on and off together for greater peace of mind.

*Available on selected models and when paired with selected Samsung hobs.

**Auto Sensor**

While you’re busy cooking, the auto sensors on our Wi-Fi hoods are hard at work. They pick up particles in the air from smoke, smells, and lingering fumes, then turn up the extraction power to match.

*Available on selected models and when paired with selected Samsung hobs.

### QuickDrive™
Innovative QuickDrive™ technology reduces the washing time by up to 50%* with amazing cleaning performance.

*Samsung QuickDrive™ WW6800M/WW7800M vs Samsung WW6500K (half load, 40°C Cotton wash)

### ecobubble™
Our efficient ecobubble™ technology mixes air, water and detergent to create bubbles that penetrate your clothes faster, helping you wash at cooler temperatures.*

*AddWash™ door can be opened at any time when the drum temperature is below 50°C.

### AddWash™
Open the innovative AddWash™ door to quickly drop in anything extra during the wash.

### Fabric Care Drum
With our innovative diamond embossed drum design, clothes are prevented from snagging, while a cushioning layer of water adds an extra level of care to your laundry.

**Heat Pump Technology™**
A cost-effective and gentle way of drying clothes so you spend less money on your energy bill and protect your clothes whilst in the drum.

**Quick Dry**
Enjoy the convenience of quickly dried clothes for those times you really need them. Dry up to 1kg of clothes in 35 minutes.

**OptimalDry™**
Protects your clothes by detecting when they are dry, and helps reduce unnecessary energy wastage.

**AddWash™**
Open the innovative AddWash™ door to quickly drop in anything extra during the wash.*

**AirWash™**
Deodorises and refreshes clothes so they smell fresh, using just hot air. Ideal for one or two items.

*AddWash™ door can be opened at any time when the drum temperature is below 50°C.

**ecobubble™**
Our efficient ecobubble™ technology mixes air, water and detergent to create bubbles that penetrate your clothes faster, helping you wash at cooler temperatures.*

*ecobubble™ technology reduces the washing time by up to 50%* with amazing cleaning performance.

**QuickDrive™**
Innovative QuickDrive™ technology reduces the washing time by up to 50%* with amazing cleaning performance.

*Based on the WW6500K half load 40°C Cotton wash compared to the Samsung WW6500K.
