Samsung Electronics is a global leader in technology, opening new possibilities for people everywhere through relentless innovation and discovery.

We believe technology should enable progress for all. That’s why we always look to create and deliver quality products that enhance convenience and foster smarter lifestyles for our customers around the world.
What if the best innovation and design was Built-In to your kitchen?
Introducing the new Samsung Built-In Kitchen Appliances

1. A refrigerator that allows you to convert the freezer zone to a fridge & vice versa. Need more room to hold cool beverages for a party? Convert the freezer zone to an extra fridge compartment at the touch of a button. See page 15 for more information.

2. An oven that lets you cook two totally different dishes at the same time. Prepare two different dishes at different temperatures, with different settings, at the same time. See page 27 for more information.

3. An induction cooktop that projects a virtual flame onto your cookware. Enjoy the benefit of seeing a visible flame to better control the heat. See page 38 for more information.

4. A dishwasher that uses sweeping walls of water to thoroughly wash your dishes. Say goodbye to tough food residues and say hello to sparkling clean dishes from corner to corner. See page 51 for more information.
The world is full of appliances with ‘smart technologies.’ But if those technologies don’t help improve your day-to-day life, they are not that smart. At Samsung, we don’t just design our kitchen appliances around the latest technologies, we design them around you because we know that home is your making. And as we’re all unique, we know that no two homes are the same.

Our products are designed with four core values in mind:

**Innovation**
Our products contain unique, new-to-the-world innovations to make your time in the kitchen that much more enjoyable. No matter what you choose to cook, clean or preserve, we make sure our appliances offer practical and efficient solutions.

**Flexibility**
Our products are designed to give you maximum flexibility to fit not only your kitchen’s style but your own. All the versatility you need to give you full control over any meals you prepare, food you want to store and dishes that need washing.

**Design**
Our extensive range of Built-In products have all been thoughtfully designed to provide the perfect solution for you, no matter what type of kitchen you have. Our products are inspired by the designs of premium kitchens – sleek, minimalist, and modern – while still being functional and easy-to-use.

**Reliability**
Not only do we take pride in our design and innovations across all our products, but we are also committed to ensuring there are no compromises when it comes to the dependability and durability of our products.

Smarter Control – WiFi Connection

Enjoy simply smarter control anytime and anywhere with a smart phone.*

Samsung Built-In Oven’s WiFi Connection lets you remotely monitor and control the oven using an app* on your smartphone. From anywhere inside or outside the house, you can easily check and change settings and adjust cooking times and temperatures. It also helps you to cook like a professional by selecting a Chef Recipe recommended by Michelin 3-Star Chefs.

*Requires Smart Home App, available on Android and iOS.

1. Monitoring & notification
- Monitor cooking mode, time and temperature.
- Receive notification for preheating, cooking, and error code.
- View the manual on mobile phone.
- Check the temperature of meat probe.

2. Simple remote control
- Turn off the power.
- Control cook time and temperature.

3. Recipe download and setting
- Find recipes by Michelin 3-Star Chefs and easily use them at home.

*Available on Android and iOS devices. A network connection is required.

Smart Manager

Remote Door Alarm

Accidents happen. Leaving a door open on your refrigerator can result in food spoiling quickly, unnecessary wastage and unwanted expense. But thanks to our clever technology, with the Samsung BRB6000, this becomes a thing of the past. If a door is accidentally left open, the refrigerator will sound an audible alarm. If the door remains open for more than 2 minutes, a warning notification is then sent via the App* to your smartphone, alerting you to close the door.

*Smart Home App, available on Android and iOS.

Rapid Cooling

Providing the optimum cooling environment for your food means your food will stay fresher and taste better for longer. The Rapid Cooling function enables you to remotely control and set the fridge and freezer compartment temperatures to the lowest level before you get home – ideal if you are returning from the Supermarket with your shopping.
Twin Cooling Plus™ technology creates the optimal temperature and humidity in the fridge and freezer. This not only preserves food in the best condition, it also protects its natural flavour and aroma. It cools each compartment independently and prevents odours from mixing between them using their own dedicated evaporators and cooling systems. As a result, it retains more moisture and maintains a high humidity level all over the fridge. So, even the most perishable fruits and vegetables are kept fresher for longer, without them drying out or needing to be wrapped, which helps to reduce waste.
The Digital Inverter Compressor™ automatically adjusts its speed in response to cooling demand across 7 levels. This helps use less energy, minimise noise and reduce wear and tear for a longer-lasting performance.

And for complete peace of mind, its performance is backed up by a 10 year warranty.*

Take-Out Tray
Quickly see what’s inside thanks to the transparent Take-Out Tray. Ideal to easily store and access all of your favourite or frequently used food items.

Easy Slide Shelf
Reaching into your freezer often will no longer mean navigating an obstacle course of items. The Easy Slide Shelf simply slides in and out so you can efficiently store, organise and access your frozen food to find and reach things at the back and in every corner, with no “dead space”.

Precise Chef Cooling™
Chefs say that precise and stable temperature control is the key to keeping food at its freshest. Precise Chef Cooling™ minimises temperature fluctuation, so all of your ingredients retain their original textures and flavours.

Fresh Zone
Fresh Zone is a smartly designed drawer that provides the ideal environment for preserving meat and fish, keeping them at the optimum temperature so they stay fresh and have the best possible flavour.

SpaceMax Technology™
SpaceMax Technology™ creates extra internal capacity by using a slim wall design, without compromising energy efficiency.

No Frost
Why defrost a fridge? Our Total No Frost feature maintains an even temperature, preventing ice build-up and saving you the hassle of defrosting.

CoolSelect Plus Zone
The CoolSelect Plus Zone provides the ultimate in flexibility for different foods to be stored at the optimum temperature. That way, everything stays fresher and tastes great. With one touch, the bottom compartment can be easily converted from a freezer to fridge using the optimal pre-set temperatures of 2°C, -1°C, -5°C or -23°C to -19°C.

Metal Cooling
The Metal Cooling Plate in the rear wall helps to retain the cold and maintain the optimal temperature within the fridge by restoring any heat loss, so your food is preserved better, even if you frequently open and close the door. It also adds a beautiful, premium look and is very easy to wipe clean.

Adjustable Door Pockets
Adjustable Door Pockets help you easily organise and flexibly store differently sized items. You can adjust the pockets to fit all sizes of bottles, cartons and other items for maximum use of your storage space.

Dongle with WiFi Ready
Smart Dongle allows you to control Power Freeze & Cool functions, monitor the energy usage and Door Alarm right from your smartphone.*

*Requires Smart Home App, available on Android and iOS.

Samsung Built-In Ovens are designed for people who want eye-catching style and great results, with the minimum of effort. With Dual Cook technology, you can cook multiple dishes at once and all with the precision needed for professional-quality food.
Features

Meat Probe
A Meat Probe allows you to monitor the internal food temperature without any guesswork by clearly indicating when meat is thoroughly cooked, all without opening the oven door and releasing heat.

Multi-Stage Cooking
You can control cooking temperatures and times, select functions and set cleaning options easily with an intuitive step-by-step display. By following the lights, it clearly shows you what to do next, based on the last option you chose, so you can prepare delicious meals without reaching for the instruction manual.

Self Cleaning (Pyrolytic)
A Pyrolytic system keeps your oven neat and clean without any time-consuming scrubbing. It heats the oven cavity to burn off any grease and residue left from cooking, leaving only a few ashes to wipe away.

Soft Closing Door
The Soft Closing Door smoothly and gently opens and closes with minimal noise. The door hinge helps it to slowly come to a stop safely, giving you complete peace of mind.

Real Steam Cooking
Get your meal just right with Real Steam Cooking. It is a healthy way to roast and bake, keeping fat and salt levels low, and preventing foods from drying out. Moreover, Real Steam Cooking makes your favourite food have a beautiful golden brown crust with crispy texture while keeping moisture inside.

Soft Closing Door
The Soft Closing Door smoothly and gently opens and closes with minimal noise. The door hinge helps it to slowly come to a stop safely, giving you complete peace of mind.

Defrost
Defrosting is easy when you use your oven. Simply select Defrost mode and the oven will automatically defrost your food in the selected time.

Guide Lighting Control
You can control cooking temperatures and times, select functions and set cleaning options easily with an intuitive step-by-step display. By following the lights, it clearly shows you what to do next, based on the last option you chose, so you can prepare delicious meals without reaching for the instruction manual.

Full Touch Colour LCD Control
A 4.6” full-touch LCD display offers a much simpler and easier way to cook – exactly how you want to. You can select and control a range of functions and settings, such as cooking mode, temperature and time, with the simple touch of your finger.

Telescopic Rail
A Telescopic Rail slides in and out smoothly with hardly any effort, even if you’re using large pans or heavy dishes. So you can keep on basting, turning and seasoning your food – without any mess or spills.

Cleaning (Catalytic)
Imagine an oven that cleans itself while it’s working. With Catalytic cleaning, the food remnants tray collects grease and residue and chemically dissolves them, so your oven is always clean.

Rotisserie
With rotisserie, meats become more tender, juicier, and easier to baste. Whenever you need it, just put the rotisserie attachment into place.

Real Steam Cooking
Get your meal just right with Real Steam Cooking. It is a healthy way to roast and bake, keeping fat and salt levels low, and preventing foods from drying out. Moreover, Real Steam Cooking makes your favourite food have a beautiful golden brown crust with crispy texture while keeping moisture inside.

Cleaning (Steam)
Steam Clean helps remove even the most stubborn grime. It uses just a small amount of water inside the oven to create hot steam that loosens grease and food residue, and with Ceramic Enamel lining it’s so much easier to wipe off.

WiFi Connection
Samsung’s built-in oven’s WiFi lets you remotely monitor and control the oven using an app on your smartphone. From anywhere inside or outside the house, you can easily check and change settings, and adjust cooking times and temperatures.

Models

Gourmet Vapour Technology™

Gourmet Vapour Technology™ optimises the taste and texture of your food by surrounding it with vapour that quickly and evenly transfers heat and moisture, resulting in food that’s deliciously crispy outside, but soft and juicy inside.

Dual Cook

Dual Cook technology gives you complete flexibility to cook multiple dishes simultaneously at different temperatures. Its upper and lower cooking zones can be used independently or together – offering flexibility, while saving time and energy. By inserting a divider, you can use one zone for smaller meals or create two independently controlled cavities to cook a variety of dishes and different size meals simultaneously, using separate temperature and time settings. And if you remove the divider you can use the whole oven for large dishes, like a holiday turkey.

Energy saving

Its upper and lower cooking zones can be used separately to save energy.

Time saving

It can be divided into two small ovens using a divider that enables you to save time by cooking two different dishes at once.

Big capacity

The upper and lower cooking zones can be used together for large dishes such as a turkey.

Models

Steam Twin™

Enjoy deliciously succulent and healthy steam cooked food. Real Steam Cooking locks-in moisture and vital nutrients, while Dual Cook Technology lets you cook different foods simultaneously.

Gourmet Vapour Technology™

Gourmet Vapour Technology™ optimises the taste and texture of your food, especially during baking or roasting. The technology creates a super-heated vapour that quickly spreads from corner to corner to ensure even cooking, even across multiple levels. So food is deliciously crispy and brown outside, but soft and juicy inside, like it’s been prepared by a professional chef. And using the Vapour Level Control, you can select the vapour level that’s best for each meal to maximise the taste.
Models

Dual Cook

Dual Cook technology gives you complete flexibility. The upper and lower cooking zones can be used independently, with different temperatures and time settings. Or you can use the whole oven for large dishes.

Samsung Compact Ovens are small in size, but big on results. Despite their compact design they boast a 50L capacity, which is more than capable of handling multiple dishes - and even the holiday turkey! Add in their speed and abilities and they really are a great choice for a busy home.

**Features**

**Speed Cooking**
Speed Cooking cooks food quickly and evenly. It also features multiple heating systems, including microwaves and a fan-assisted convection that circulates heat evenly.

**Guide Lighting Control**
You can control temperature and times select function easily with an intuitive step-by-step display. By following the lights it clearly shows you what to do next, based on the last option you chose, so you can prepare delicious meals without reaching for the instruction manual.

**Soft Closing Door**
The Soft Closing Door smoothly and gently opens and closes with minimal noise. The door’s hinge helps to slowly and safely come to a stop, giving you complete peace of mind.

**Steam Cleaning**
Steam Clean helps remove even the most stubborn grime. It uses just a small amount of water inside the oven to create hot steam that loosens grease and food residue, and with Ceramic Enamel lining it’s so much easier to wipe off.

**Massive 50 Litre Capacity**
Massive 50 litre capacity enables you to cook much more or much larger food. You can prepare multiple dishes at once, like trays of cookies, or easily accommodate large items, like a big roast or holiday turkey.

**Dual Fans Convection**
Dual Fans spin in opposite directions to spread heat evenly throughout the oven, so all of your dishes are cooked at the same temperature and speed. It also reaches its target temperature faster and is more energy efficient.
Models

Warming Drawer
Matched with selected Compact Ovens, Samsung’s Warming Drawer keep food at the perfect temperature until dinner is ready.

NL20J7100WB (matching: NQ50J9530BS, NQ50JS530BS, NQ50K5130BS)
Key features
- Complimentary design to compact oven
- Defrosting (Temp. Ranges 30°C~80°C)
- Keep Warm
- Loading Weight : 20kg
- Fits a 60cm niche
- Stores accessories when not in use

Models
Microwave Oven
Provides a seamless look that is perfectly harmonised with modern Built-In kitchens.

MS22M8074AT
Key features
- Smart Moisture Sensor
- Keep Warm
- Deodorisation
- Ceramic Enamel
- Type : Solo MWO
- Display Capacity
- Touch (Control Type)
- Side Opening Door
- Ice Blue LED (Display)

Smart Moisture Sensor
With the push of a button the Smart Moisture Sensor determines the interior air humidity, so the cooking mode and time can be automatically adjusted to ensure meals are always cooked perfectly.

Keep Warm
With one touch, the Samsung microwave oven’s Keep Warm function keeps food at the proper temperature without overcooking. So it stays deliciously warm and tasty just like freshly cooked food – no matter when you serve it.

Ceramic Enamel
The durable Ceramic Enamel is easy to keep clean and scratch-free. Its smooth surface can be cleaned without scrubbing and won’t discolor over time. It’s also highly rust and scratch-resistant, so it lasts longer.
Cooktop

Samsung Induction Cooktop’s modern design is complemented by a brilliant Ice blue LED display that adds an extra touch of style. It provides extremely clear and simple-to-understand information about the selected functions, making how you cook much easier to control.
Features

Induction Cooktop

**Magnetic Knob**
A movable Magnetic Knob lets you control the power of each ring more simply and precisely. It can be completely detached, so the entire surface can be cleaned more easily.

**Ice-blue Display**
The modern and brilliant ice-blue LED Display provides extremely clear information about the selected functions, so it’s easier to control how you cook. It also adds an extra touch of style.

**Flexible Zone Plus**
Flexible Zone Plus is a large, open space on the cooktop that is specially designed for cooking multiple dishes. It’s divided into 4 zones for greater flexibility and is wide and spacious enough to accommodate different sizes and shapes of cookware at once.

**Wide Flex Zone**
The Wide Flex Zone is designed for cooking multiple dishes. It’s wide enough to fit pots and pans of varying shapes and sizes, including large cookware.

**Easy to clean**
With the Samsung Ceramic Cooktop, there’s no need to worry about messy spills and splatters. Even after the great cooking, the smooth, ergonomic surface will quickly wipe clean.

**Virtual Flame Technology™**
With Virtual Flame Technology™, you can enjoy intuitive visual control and clearly see if the burner is on or off. LED lighting in front of one burner glows like a real gas flame to show how high it is turned up.

**Keep Warm**
The Keep Warm button is handy when you’re preparing several dishes, as it lets you keep your food at the perfect temperature without overcooking. Your food will taste freshly prepared.

**Quick Start**
The Quick Start button reduces the number of steps and time it takes to start cooking by providing high heat instantly with simply one touch. The heat can be gradually reduced, if desired.

**Pause**
The Pause button provides greater convenience by allowing you to switch all cooking zones to a low-power setting with just one touch. Simply touch it again to instantly return the heat to original power levels.

**Sliding Control**
The extra wide and intuitive Sliding Control LED display panel enables fast and precise control of your cooking temperatures. Simply touch and glide your finger across it to instantly set or adjust the heat levels.

**Automatic Safety**
Enjoy complete peace of mind with an automatic safety shut-off function that ensures that the cooktop is always off when you want it to be. It also features a child safety lock to prevent children from turning the cooktop on.

**Flex Zone Plus**
Flex Zone Plus is a large, open space on the cooktop that is specially designed for cooking multiple dishes. It’s divided into 4 zones for greater flexibility and is wide and spacious enough to accommodate different sizes and shapes of cookware at once.

**Triple Crown**
Cook every dish perfectly with a Triple Crown gas burner, which produces searing, instantaneous heat, so it’s ideal for woks, large pans and rapid cooking like making stir fry.

**Endless Rail Grate**
Even the heaviest pots and pans will slide along seamless rails, eliminating the need to lift them. Simple indicator marks also show if they’re properly centered over the optimum heat. And the whole grate can be easily cleaned in a dishwasher.

**Flame Failure Safety**
There’s no need to worry about gas leaks, as the automatic shut-down sensor provides instant protection if any stray gas is detected.

**Gas Cooktop**

**Easy to clean**
With the Samsung Ceramic Cooktop, there’s no need to worry about messy spills and splatters. Even after the great cooking, the smooth, ergonomic surface will quickly wipe clean.

**Sliding Control**
Enjoy effortless control of your cooking using the Sliding Control panel. Simply touch and glide your finger across the panel to instantly and precisely set or adjust the cooking temperature.

**Automatic Safety**
Enjoy complete peace of mind with an automatic safety shut-off function that ensures that the cooktop is always off when you want it to be. It also features a child safety lock to prevent children from turning the cooktop on.
Models
Induction Cooktop
For a simple, clean and efficient way to get things done fast, look no further than a Samsung Induction Cooktop. It heats food extremely quickly and provides effortless fingertip control.

- Total Max. Power: 6kW
Features

**Hood**

Samsung Hoods bring pure convenience to your kitchen. With their high suction power and choice of speeds, they will quickly, quietly and efficiently remove steam, vapour and smoke – even if you should burn the toast. A carbon air filters also eliminates bad odours, so your kitchen always smells fresh.

**Premium Design**
The premium design helps create an elegant and modern kitchen interior that is well harmonised with other kitchen appliances. Its slim profile and striking finish match the elegant and modern styling of other Samsung products to create a seamless and streamlined look.

**Washable Aluminium Filter**
A durable and easy-to-maintain Aluminium Filter protects the exhaust fan and prolongs the motor life. It captures oil and dust before it clogs the motor and is really easy to clean as it’s washable and small enough to fit in a dishwasher.

**LED Lights**
Brilliant LED lighting makes it easy to see what your cooking by evenly distributing light over your entire cooktop. And LED lights consume a lot less energy, last much longer, and are easier and cheaper to replace. So they save money on your monthly energy bills and the cost of replacement bulbs.

**Full Touch Display**
Enjoy much simpler control with an integrated Full Touch Display. Its bright LCD panel is clear and easy to read and has the same intuitive touchscreen control as a smartphone, so you can quickly adjust settings with a gentle touch. Its stylish and exclusive look will also enhance your kitchen.

Life couldn’t be easier or simpler than with a Samsung Dishwasher. Engineered with Samsung’s advanced technology, it provides outstanding cleaning, as well as superior energy efficiency and low noise. And it also has a large, flexible capacity so you can simply do a half load if there’s not much to wash.

**Features**

**WaterWall™ Technology**
Our innovative WaterWall™ dishwasher uses a revolutionary sweeping wall of jet-powered water to deliver outstanding coverage and cleaning results. Elevate your dining experience with sparkling dishes thanks to the unique cleaning power of WaterWall™ technology.

**Zone Booster™**
The Zone Booster™ setting lets you wash heavily soiled pots and lightly soiled dishes at the same time with two targeted washing zones on the lower rack. Simply select a zone to automatically increase the water pressure and temperature.

**Flexible Third Rack**
Our unique Third Rack is designed to accommodate all sizes and shapes of cutlery and cooking utensils. With the simple slide-in-and-out operation, you can easily fit items inside.

**Easy Height Adjustment**
Tall pots, wide platters and oversized plates are no longer problems thanks to the quick and simple height adjustment of the upper rack, either up or down.

**Flexible Rack**
Fit items of various shapes and sizes with Flexible Rack that feature fold-down supports. Adjust the supports on the upper rack to fit cups and glasses, and the supports on the lower rack to make space for larger items like pots and pans.

**Hygiene Rinsing**
A hygiene button provides sanitary cleaning to minimise germs and bacteria. Its cleansing final rinse heats the water up to 70°C and maintains this temperature for several minutes, so dishes come out hygienically clean.

**Speed Booster**
The Speed Booster setting reduces the time needed to complete the cleaning process, making it ideal for busy households and when entertaining. Get clean dishes quicker and easier no matter which cycle you use.

**One-hour Express Wash**
The One-hour Express Wash option gets your dishes clean and dry much faster. It’s ideal for smaller loads of lightly soiled items that don’t need really intensive cleaning, such as cups, cutlery and plates, as it will put them through a complete washing and drying cycle in much less time.

**Fast 55 minute wash & dry**
A Daily 55 min cycle saves you time by getting your dishes clean and dry much faster. Ideal for more lightly soiled loads that don’t need a real intensive clean, such as cups and cutlery. It does a complete wash and dry in just 55 minutes.

**Zone Booster™**
The Zone Booster™ setting lets you wash heavily soiled pots and lightly soiled dishes at the same time with two targeted washing zones on the lower rack. Simply select a zone to automatically increase the water pressure and temperature.

### Specifications

- **Model Code**: Various codes for different models.
- **Dimensions (W x D x H)**: Various dimensions for each model.
- **Features**: Include display, control, power, safety, and control features.
- **Surface Display**: Varies per model.
- **Power**: Various power ratings.
- **Safety Function**: Varies per model.
- **Control Feature**: Varies per model.
- **Energy Efficiency**: Varies per model.
- **Noise**: Various noise levels.
- **Power Cable**: Various cable types.
- **Weight**: Various weights.
- **Dimensions**: Various dimensions for each model.

Samsung Customer Service is here to help you throughout the lifetime of your appliance. We provide everything from an expert repair service to helpful advice – giving you the level of service you expect from Samsung.

Repair
When you buy a Samsung appliance you choose reliability and the best in quality. If, however, you require any help, Samsung Service can provide rapid and reliable assistance.

Online Support
Many common issues can be easily solved with the correct advice. Our online FAQs give you helpful hints and tips to keep your appliance performing at its best. http://www.samsung.com/uk/support/category/homeappliance/

Contact us
Our customer service advisers are here to help. Please visit: http://www.samsung.com/uk/support/ for more details or call us on 0330 726 7864 (consumers), 0330 726 1001 (trade).

Register your appliance and warranty
You should register all your appliances and warranties with Samsung to ensure we have full records in the event of any important product updates.

Please note selected models come with a free five year warranty on parts and labour which requires registration within 90 days of purchase, terms and conditions apply. www.samsung.com/uk/fiveyearwarranty/
