

**SAMSUNG**

**SAMSUNG**

**Infinite Line™**

## INFINITE LINE™

The Infinite Line™ of appliances perfectly combine showstopping design and powerful performance.

Impress guests with a sleek Graphite Grey or sophisticated Onyx Black oven, then wow them with your perfectly steamed, roasted, or baked creations made possible with two independent cooking zones. And with the hob's integrated extraction fan, the air stays fresh while you simmer, melt, or warm your masterpiece.

With no need for an additional hood, you can install the Infinite Hob wherever you please. For the ultimate in kitchen style and performance, choose the Infinite Line™.

Elevate your kitchen, reinvigorate your style with a choice of two luxurious finishes.

**Graphite Grey for a flawless finish**

Elegant satin glass and a graphite grey matt finish, make this oven line the centrepiece of any kitchen. The unique design makes this one of a kind and blends harmoniously into any kitchen style. With its anti-glare, anti-fingerprint coating and a full touch screen, it will always look spotless.

**Onyx Black for high-shine sophistication**

Tastefully stylish and with a sleek black glossy design, this oven line has been designed to stand out in your kitchen. Defining conventional design, the vertical lines and bold dial are a statement piece for any kitchen.

## INFINITE OVEN RANGE

The Infinite Oven range is crafted with kitchen design ideals in mind. It defines the modern kitchen aesthetic with sleek lines and a bold dial for a beautiful, professional feel.

### Dual Cook Steam™

Ever dreamt about being able to master two dishes at once in the same oven? Dual Cook Steam™ lets you do just that and more. With two independent cooking zones with no transfer of smells or tastes, the possibilities are endless.

### Full Steam

Master the professional steam cook with this Full Steam oven. Using the special Steam Tray, you can lock in all the flavour and nutrients of your food and delicately cook with pure steam. The tray can be washed in the dishwasher afterwards so you can focus on enjoying your favourite dinner.

### Steam Assist

Take your cooking to a new level with Steam Assist. Combining heat and steam ensures your food retains more of its natural moisture so you get juicy, succulent food on the inside whilst crispy on the outside. Choose from three levels of steam to get the perfect dish, every time.

Graphite Grey

Onyx Black

The Infinite Oven range offers extraordinary features and powerful performance.

#### Energy Save - only using top half

Why waste energy heating the full oven, if you're only cooking something light in the top half? Dual Cook is a more energy efficient way of cooking, saving you 20% on energy\* when only using the top half.

#### Full Touch 4.3" TFT-LCD & Dial

Now you can control and set all your preferences with a simple touch. Because who doesn't want to take shortcuts in the kitchen?

#### Pyrolytic Cleaning

Forget scrubbing the oven. Reaching high temperatures, pyrolytic cleaning burns off grease and spills that can easily be wiped away.

#### Soft Close Door

The Soft Closing door is engineered to close both gently and quietly - automatically reducing the speed of its movement in the final few centimetres.

#### 2-level Full Extension Telescopic Rails

Sliding in and out smoothly and with hardly any effort, these telescopic rails are ideal for when you're using large pans and heavy dishes.

#### Meat Probe

The Meat Probe will actively manage the cooking process, regulating time and heat to ensure your food is always cooked to perfection.

#### Fast Preheat

A Fast Preheating mode means you don't need to wait a long time for the oven to preheat. So you can save time when cooking daily dishes or baking food, like frozen or fresh pizzas and cookies.

#### Temperature Control

The Temperature Control feature monitors and adjusts heat levels. It maintains an extremely precise and consistent oven temperature.

Wi-Fi Connectivity at the touch of your fingertips

#### Wi-Fi Cooking Controls

How good would it be to have your dinner ready the moment you get home? With a tap of the SmartThings app you can control and keep an eye on your oven anywhere from your phone\*.

And if that's not smart enough, why not add a range of fresh recipes to your repertoire? Find one on the app and prepare it. Then share the cooking instructions to your oven to take care of the rest.

\*Upper vs. whole compartment on small cake setting at convection 155°C (IEC-60350)

\*Requires SmartThings App available on Android and iOS devices. An internet connection is required.

## INFINITE COMBI OVEN RANGE

The Infinite Combi Oven range complements the Infinite Oven with sleek lines and a bold dial. It has models which include Steam Cooking and Microwave functionality.

### Steam Combi

With the Steam Combi oven you have the ultimate flexibility in the kitchen. You can use it as a normal oven; you can add Steam Assist to ensure that everything is deliciously crisp and juicy; or you can use Full Steam to cook healthy steamed dishes\*. It's multitasking magic.

### Full Steam

Full Steam means healthy choices are even easier to make. Fully steam your delicate fish dish and lock in flavours and nutrients for delicious and nutritious results.

### Steam assist/Add Steam

Create accomplished dinner party dishes with Steam Assist. Pre-defined high, medium, and low steam levels make it easy to find the perfect setting for every dish on the menu. The combination of heat and steam means your food is delightfully browned on the outside; succulent and deliciously juicy inside.

\*Steam options can only be used on convection setting.

Graphite Grey - Full Touch Model

Onyx Black - Non Full Touch Model

The Infinite Combi Oven range will give your kitchen and your cooking a professional feel.

#### Full Touch

Now you can control and set all your preferences with a simple touch. Because who doesn't want to take shortcuts in the kitchen?

#### Wi-Fi Connectivity & SmartThings

How's this for smart? Control your oven using your phone\* and have it cook a range of new recipes for you.

#### Energy Efficiency Label A+

Designed to provide exceptional A+ rated energy efficiency, even though it still has a very large oven space. By making your home more energy efficient, it helps to reduce your electricity bills and saves you money.

#### Temperature Control

The Temperature Control feature monitors and adjusts heat levels. It maintains an extremely precise and consistent oven temperature.

#### 50L Large Capacity

Create more and larger dishes with a huge 50 litre capacity oven. It opens up more possibilities in home cooking. You can prepare multiple dishes on different levels, such as vegetables, pastries, casseroles or pasta dishes. Or it can easily accommodate large items, like a big roast or turkey.

#### Dual Fan

Say goodbye to mealtime disasters. Two powerful fans get the oven hot fast, then circulate heat nice and evenly. With every meal thoroughly cooked, there'll be no surprises when you dish up.

#### Pro-Roasting mode

The Pro-Roasting mode automatically heats the oven up to 220 °C to sear the meat. It is then cooked slowly and gently to the temperature that you've pre-selected, so the meat doesn't dry out.

## INFINITE WARMING DRAWER

Designed to complete the Oven and Combi Oven suite. Simply push to open and use its 25L capacity to defrost, keep food warm, plate warming and for those keen bakers, dough proving.

### Defrost

Evenly defrost frozen foods to their freshest state. That way you're always prepared no matter what you're about to cook.

### Keep Warm

Keeps food at its optimum temperature without overcooking, meaning you can keep your food fresh and ready to serve.

### Fermentation Function

Try your hand at bread making or start the day with your own yoghurt with these easy to use innovative features.

### Plate Warming

Now hot food can always be served on warm plates, as it should be. Choose between hot and mild heat modes to suit the occasion.

### Push & Pull Door

For easy access gently push the door for it to open out smoothly.

## INFINITE HOB

A new performance for hobs. The hob has an integrated extractor, which means you can place it wherever you want, without unwanted cooking odours.

### Hood integration

Infinite Hob's integrated extraction fan gives you the freedom to install it where you want and create your dream kitchen.

### Flush-fit design

Create an elegant and streamlined kitchen with this flush-fit induction hob design.

### Dual Flex Zone

Cook many different sized dishes at once on the Dual Flex Zone.

### Powerful Ventilation

Some cooking smells linger more than others. This extra powerful extraction shoots away even the most pungent odours, to keep your kitchen smelling fresh.

### Less Noise

Powerful extraction with minimum interruption. Keep your kitchen fresh and the noise to a low hum.

### Hood Energy Class A+

A+ rated energy efficiency to make your home more efficient.

### Removable Ceramic Odour Filter

No one wants the kitchen smelling of biryani days after curry night. These active ceramic odour filters banish smells trapped in the air, keeping your kitchen fresh and odour-free.

### Easy Clean Aluminium Grease Filter

No one likes cleaning the cooker hood. These grease filters work brilliantly to protect your hood motor. What's more, they're easy to take off and clean.

### Dishwashable Hood Cover

Keep your hob looking its very best. Made of stylish aluminium completes its premium design. It is also detachable and washable, so it's easy to keep clean by simply popping it in the dishwasher.

### Slide Touch Control

Now you can control and set all your preferences with a simple touch. Because who doesn't want to take shortcuts in the kitchen?

### Temperature Manager

Take the guesswork out of cooking for consistently great results. Melt, warm, or simmer your creations to perfection.

### Automatic Heat Up

Why wait for heat? Automatic Heat Up gets the hob super-hot in seconds.
