

Back up data Setting

Q : What kind of item can I backup?

A : Please do as follow step.

1. Select Cloud Menu
2. Tap "Device Backup".
3. Tap "Back up Options".
4. Check the data to back up if you want to enable it. (The default setting is "On").

(If you check the "Logs" box, the call history will be saved on the server when both the Auto Backup and Backup Now settings are active. You can then download the information from the server, if necessary.)

(If you check the "SMS","MMS" box, the inbound/outbound history of the SMS,MMS messages will be saved on the server when both the Auto Backup and Backup Now settings are active. You can then download the information from the server, if necessary.)
