

Packaging Recycling

May, 2016

Samsung Electronics has joined a packaging compliance scheme in each country where we are obligated as a producer. Through these compliance schemes Samsung Electronics funds the activities of waste collectors and recycling operators to ensure that, wherever possible, packaging from our products is reused, recovered or recycled free of charge to all consumers.

For more information about the recycling opportunities for packaging waste available in your area, please contact your local authority or follow the links for our contracted recycling organizations below:

Country	Recycling scheme	Country	Recycling scheme
Austria	ARA	Bulgaria	EcoPack
Belgium	FOST Plus	Poland	Polish Recycling Organisation
	VAL-I-PAC	Spain	Ecoembalajes Espana S.A

Italy	Conai	Latvia	Latvijas Zalais Punkts
Portugal	SPV	Slovakia	Envipak
Malta	GreenPak	Slovenia	Slopak
Cyprus	GreenDot	Ireland	Repak
Estonia	ETO	Norway	Gront Punkt
Lithuania	Zaliasis Taskas	Luxembourg	Valorlux

Battery Recycling

May, 2016

A new Battery Directive (2006/66) was published by the European Commission in 2006 which requires member states to set up collection and recycling systems similar to those that have been introduced for electronics and packaging. Samsung Electronics supports the aims of the Battery Directive and is compliant with the battery legislation of each country where we are obligated as a producer. For more information about how to recycle batteries in your country, please follow the links for our contracted recycling organizations below:
